¹ Participants' non-coincident peak demand (unless participant has limited the amount of electricity it purchases during the remaining term of its contract) including demand served by entitlement shares of the St. Lucie, Stanton, Tri-City and Stanton II projects.

² An 8.8% ownership interest in St. Lucie Unit 2, a 984 MW nuclear unit. Participants' capacity entitlements based on the unit's net summer capability rating as reported by the majority owner/operator, Florida Power & Light.

³ A 14.8% ownership interest in Stanton Unit 1, a 461 MW coal-fired power plant. Participants' capacity entitlements based on the unit's net summer capability rating as reported by the majority owner/operator, Orlando Utilities Commission.

⁴ A 5.3% ownership interest in Stanton Unit 1.

⁵ A 23.2% ownership interest in Stanton Unit 2, a 463 MW coal-fired power plant. Participants' capacity entitlements based on the unit's net summer capability rating as reported by the majority owner/operator, Orlando Utilities Commission.

⁶ The Florida Municipal Solar Project consists of five solar sites. The first two solar sites came online in June 2020, and the remaining three are expected to come online in 2023. Orlando's entitlement share is separate from the FMSP entitlement shares.

⁷ The city of Vero Beach assigned its power entitlement shares in three projects to FMPA's All-Requirements Project.
