Note: One or more participants in the above referenced public meeting may participate by telephone. At the above location there will be a speaker telephone so that any interested person can attend this public meeting and be fully informed of the discussions taking place either in person or by telephone communication. If anyone chooses to appeal any decision that may be made at this public meeting, such person will need a record of the proceedings and should accordingly ensure that a verbatim record of the proceedings is made, which includes the oral statements and evidence upon which such appeal is based. This public meeting may be continued to a date and time certain, which will be announced at the meeting. Any person requiring a special accommodation to participate in this public meeting because of a disability, should contact FMPA at (407) 355-7767 or (888) 774-7606, at least two (2) business days in advance to make appropriate arrangements.

AGENDA ITEM 1 - CALL TO ORDER, ROLL CALL, DECLARATION OF QUORUM

AGENDA ITEM 2 – RECOGNITION OF GUESTS

AGENDA ITEM 3 – PUBLIC COMMENTS (Individual Public Comments Limited to 3 Minutes)

AGENDA ITEM 4 – SET AGENDA (By Vote)

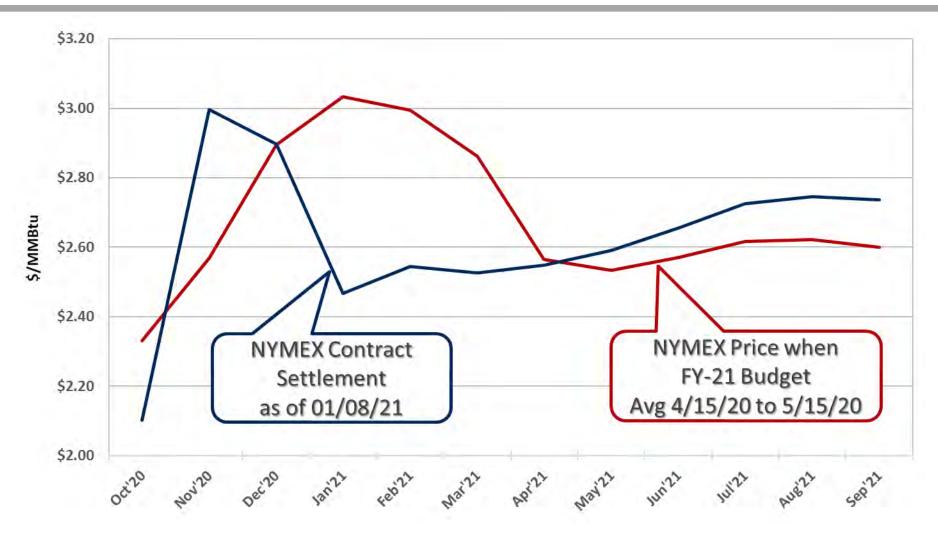

AGENDA ITEM 5 – REPORT FROM THE GENERAL MANAGER

Fiscal 2021 Management Goals through December 31, 2020

AGENDA ITEM 6 – SUNSHINE LAW UPDATE

Sunshine Law Update

Access to Public Property/Facilities

Board of Directors
January 21, 2021

Access to Public Property/Facilities

Template ordinance

ORDINANCE NO. 20-___

AN ORDINANCE OF [CITY/UTILITY]; CREATING [CITE]

ORDINANCE CODE NUMBER]; RELATING TO ACCESS AND USE OF [CITY/UTILITY] PROPERTY; PROVIDING FOR DEFINITIONS; PROVIDING FOR SEVERABILITY; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, [Cite any charter/ordinance/resolutions/etc. that pertain to City/Utility right/obligation to control/maintain use of public property]; and

WHEREAS, [CITY/UTILITY] desires to increase the efficiency of its operations and provision of public services for the benefit of both staff and the public; and

WHEREAS, [CITY/UTILITY] desires to protect the health, safety and welfare of staff, members of the public conducting public business on [CITY/UTILITY] property, and federally and state-mandated confidential information; and

WHEREAS, [CITY/UTILITY] desires to provide for consistent, impartial use of [CITY/UTILITY] property in conducting [CITY/UTILITY] business; and

WHEREAS, through this ordinance, [CITY/UTILITY] clarifies that all [CITY/UTILITY] properties that have not been historically used or designated as for use as public forums, including all County properties primarily used for the purpose of conducting public business, are considered to be non-public forums, as that meaning is defined by the United States Supreme Court.

Identify Public vs. Non-Public Areas

Signage - No "magic" words; consistency is key

RESTRICTED AREA AUTHORIZED PERSONNEL ONLY

NO VISITORS
BEYOND THIS
POINT
AUTHORIZED
PERSONNEL ONLY

Identify Public vs. Non-Public Areas

Physical barriers can be effective...even simple ones

Access to Public Property/Facilities

In-person public records requests

FMPA Policy for In-Person Public Records Requests

FMPA has adopted a Public Records Request policy, which is contained in the FMPA Employee Policy Manual. This procedure is intended to assist in implementing that policy to ensure compliance with the Florida Public Records Act when responding to an in-person public records request.

In the event that an individual enters the FMPA building to make a public records request in person, the following steps should be taken.

Inform the individual that you will get someone who will assist them. Avoid responding
affirmatively or negatively to their actual public records request. Do not require them to
sign in to the daily visitor log. Do not require them to put the request in writing or take
any other steps to make their request.

"I will get someone who can assist you with your request. You may have a seat here in the lobby, and someone will be with you shortly."

The individual is not required to give their name, so do not demand it. Contact one or more of the following FMPA staff members:

- Mark McCain; ext, 1034
- Sharon Adams; ext. 1005
- Sue Utley; ext. 1052
- Michele Pisarri; ext. 1063
- Diane Nelson; ext. 1011
- Dan O'Hagan; ext. 602
- Office of General Counsel; ext. 1401
- If the individual continues with his or her request or pressures you for an immediate response while you are awaiting additional staff assistance, inform the individual that their request will be promptly addressed.

"I've contacted someone who can assist you, [He/she] will be with you shortly."

 If the individual has a video recording device, you may request that you not be filmed, but not make it a condition of releasing the public record. However, audio or video recording is not permitted in non-public, restricted access portions of the building without prior consent.

Access to Public Property/Facilities

Takeaways & Resources

- Establish Controls for Access to Public Property/Facilities
 - Template ordinance
- Identify Public vs. Non-Public Areas
 - Sample Signage
 - Consider physical separation/barriers
- Uphold Sunshine Law Obligations
 - In-person public records request policy & script
- Work with your city/utility attorney!

ITEM 1 - CALL TO ORDER, ROLL CALL AND DECLARATION OF QUORUM

Chair Barbara Quiñones, Homestead, called the Board of Directors meeting to order at 9:00 a.m. on Thursday, December 10, 2020, in the Frederick M. Bryant Board Room at Florida Municipal Power Agency, 8553 Commodity Circle, Orlando, Florida. The roll was taken and a quorum was declared with 15 members present representing 24 votes out of a possible 47.5. Jody Young, Bushnell, joined after roll call bringing the total to 16 present representing 26 votes out of a possible 47.5.

ITEM 2 - Recognition of Guests

Chair Barbara Quiñones welcomed Aaron Casto, FMPP's Executive Director.

ITEM 3 – PUBLIC COMMENTS (Individual Public Comments Limited to 3 Minutes)

None.

ITEM 4 – SET AGENDA (by vote)

MOTION: Allen Putnam, Jacksonville Beach, moved approval of the agenda as presented. Larry Mattern, Kissimmee, seconded the motion. Motion carried 26 – 0.

ITEM 5 – REPORT FROM THE GENERAL MANAGER

Jacob Williams reported on the following items:

- 1. Goals Scorecard
- 2. Ann Beckwith's Retirement from FMPA
- 3. Upcoming Strategic Planning Session to be held February 17, 2020

ITEM 6 – SUNSHINE LAW UPDATE

Dan O'Hagan reported our legal team has been working with the Public Service Commission staff regarding a possible PSC Sunshine Law exemption that would allow the PSC to hold "shade" meetings when trade secrets are being discussed. FMPA discussed with PSC staff existing municipal utility Sunshine Law exemptions and offered further assistance to PSC staff in their efforts. Dan also reported that there were currently no proposed Sunshine Law legislative bills affecting municipal utilities, but that FMPA would continue to monitor and report on them.

ITEM 7 – CONSENT AGENDA

- a. Approval of Minutes Meeting Held November 19, 2020
- b. Approval of the Projects' Preliminary Financials as of October 31, 2020
- c. Approval of the Treasury Reports as of October 31, 2020
- d. Approval of Annual Report on Late Fees as of September 30, 2020

MOTION: Allen Putnam, Jacksonville Beach, moved approval of the Consent Agenda as presented. James Braddock, Wauchula, seconded the motion. Motion carried 26 – 0.

ITEM 8 – ACTION ITEMS

a. Approval of Amendments to the Policy Makers Liaisons Committee's Charter

MOTION: Howard McKinnon, Havana, moved approval of amendments to the Policy Makers Liaisons Committee's Charter for defining the quorum and other minor wording revisions. Allen Putnam, Jacksonville Beach, seconded the motion. Motion carried 26 – 0.

b. Approval of Finance Committee Charter Changes

MOTION: Larry Mattern, Kissimmee, moved approval of the proposed Finance Committee charter changes. Bob Page, Green Cove Springs, seconded the motion. Motion carried 26 – 0.

c. Approval of the Calendar Year 2021 Meeting Schedule

MOTION: Allen Putnam, Jacksonville Beach, moved approval of the recommended calendar year 2021 meeting schedule. Larry Mattern, Kissimmee, seconded the motion. Motion carried 26 – 0.

ITEM 9 – INFORMATION ITEMS

a. Preliminary Financial Results September 30, 2020

Danyel Sullivan-Marrero and Tim Westgate, Purvis Gray and Company, presented the preliminary financial results for FY 2020.

b. Regulatory Compliance Quarterly Update

Truong Le presented the quarterly Regulatory Compliance update.

c. 2020 Member Relations Survey Results

Melisa Inanc presented the findings of the 2020 Member Relations Survey.

d. Summary of Finance Committee Items

Linda Howard presented the summary items from the Finance Committee meeting.

ITEM 10 - MEMBER COMMENTS

Claston Sunanon, Orlando, said they are planning on 1,550 MW of solar by 2030.

Bob Page, Green Cove Springs, thanked the leadership team and FMPA staff for a productive year and said we're ahead of the curve now.

Barbara Quiñones, Homestead, said it's been a tough year but FMPA stayed the course and moved forward with all the goals and wishes everyone Happy Holidays.

ITEM 11 – ADJOURNMENT

There being no further business, the meeting was adjourned at 10:19 a.m.						
Barbara Quiñones Chairperson, Board of Directors	Larry Mattern Secretary					
Approved:	_ Seal					
BQ/LM/su						

AGENDA ITEM 7 – CONSENT AGENDA

b. Approval of the Projects' Preliminary Financials as of November 30, 2020

AGENDA PACKAGE MEMORANDUM

TO: FMPA Board of Directors

FROM: Linda Howard

DATE: January 12, 2021

ITEM: 7b – Approval of Projects' Financials as of November 30, 2020

Discussion: The summary financial statements and detailed financial statements, which

include GAŠB #62 transactions, of the Projects for the period ended

November 30, 2020 are posted on the Document Portal section of FMPA's

website.

Recommended: Move approval of the Preliminary Projects' Financial Reports for the month

ended November 30, 2020.

LH/GF

AGENDA ITEM 7 – CONSENT AGENDA

c. Approval of the Treasury Reports as of November 30, 2020

AGENDA PACKAGE MEMORANDUM

TO: FMPA Board of Directors

FROM: Gloria Reyes

DATE: January 12, 2021

ITEM: BOD 7(c) – Approval of Treasury Reports as of November 30, 2020

Introduction

This agenda item is a quick summary update of the Treasury

Department's functions.

The Treasury Department reports for November are posted in the member

portal section of FMPA's website.

Debt Discussion

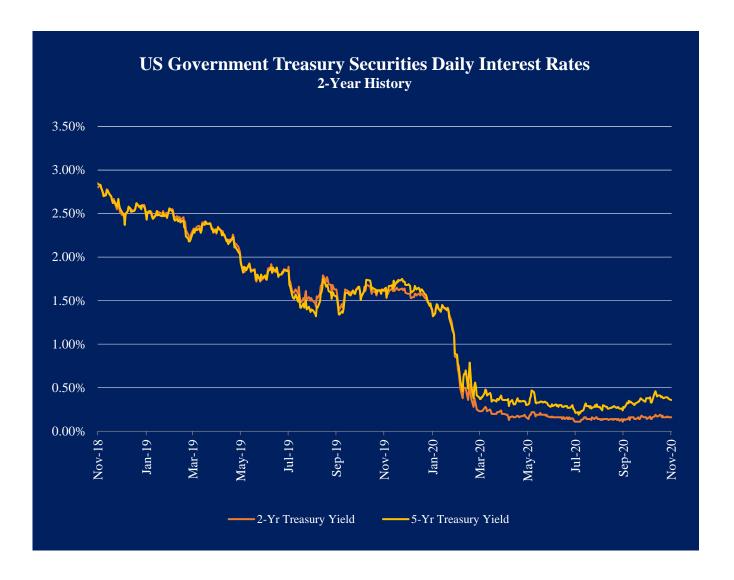

Below is a summary of the total debt outstanding and the percentage of debt that was fixed, variable or synthetically fixed with interest rate swaps as of November 30, 2020.

	Total debt Outstanding	Fixed Rate	Variable Rate	Synthetically Fixed
Agency	0.00	0%	0%	0%
St Lucie	93,815,000	100%	0%	0%
Stanton	0.00	0%	0%	0%
Stanton II	100,993,350	100%	0%	0%
Tri City	0.00	0%	0%	0%

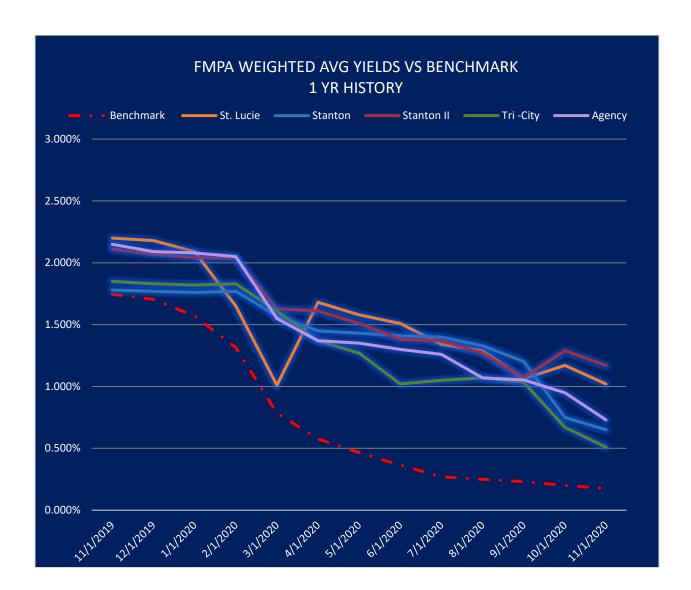

Investment Discussion

The investments in the Projects are comprised of debt from the government-sponsored enterprises such as the Federal Farm Credit Bank, Federal Home Loan Bank, Federal Home Loan Mortgage Corporation (Freddie Mac), and Federal National Mortgage Association (Fannie Mae), as well as investments in U.S. Treasuries, Certificates of Deposits, Commercial Paper, Municipal Bonds, Corporate Notes, Local Government Investment Pools and Money Market Mutual Funds.

Below is a graph of daily US Treasury yields for the past 2 years. The orange line is the 2-year Treasury which closed the month of November at .16%. The yellow line is the 5-year Treasury which was .36%.

The weighted average yields on investments earned as of November 30, 2020 in the Projects, along with their benchmark (Average of Florida Prime Fund and 2-year treasury), are as follows:

Recommended Motion

Move approval of the Treasury Reports for November 30, 2020.

AGENDA ITEM 8 – ACTION ITEMS

a. Approval of External Audit Report& Audited Financial Statements

8a – Approval of External Audit Report & Audited Financial Statements – September 30, 2020

Board of Directors January 21, 2021

FMPA Financial Highlights

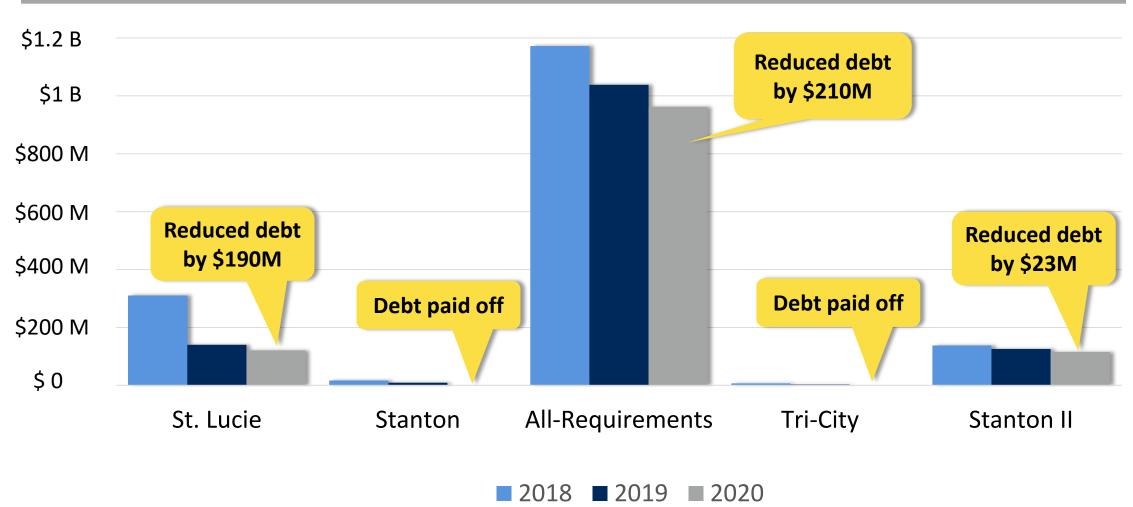

Fiscal Year 2020

- Long-Term Debt: Reduced by \$108.4 M, Stanton & Tri-City paid off
- Swaps eliminated: November 2019
- St. Lucie: \$28 million funded in excess of value included in 2015 decommissioning study – Updated study expected this month
- Expenses: Expenses below budget for all projects
- Due to participants: Net due \$9.598 M; Fiscal 2019 Net due \$7.789 M
- Rates: Remain very low

Long-Term Debt by Project

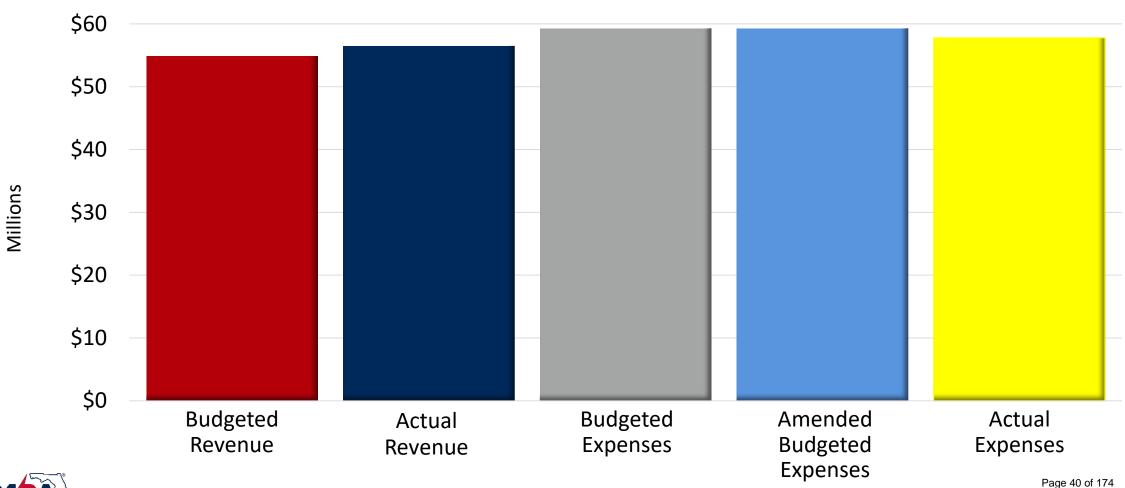

Two-Year Reduction of \$446 Million Since Fiscal 2018

St. Lucie Project

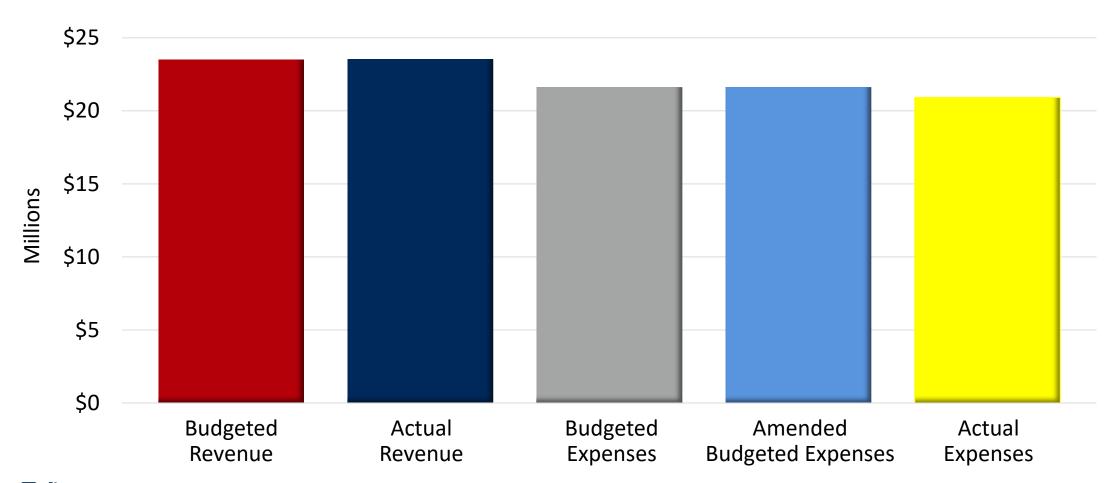

Participants to Receive \$3.116M

Stanton Project

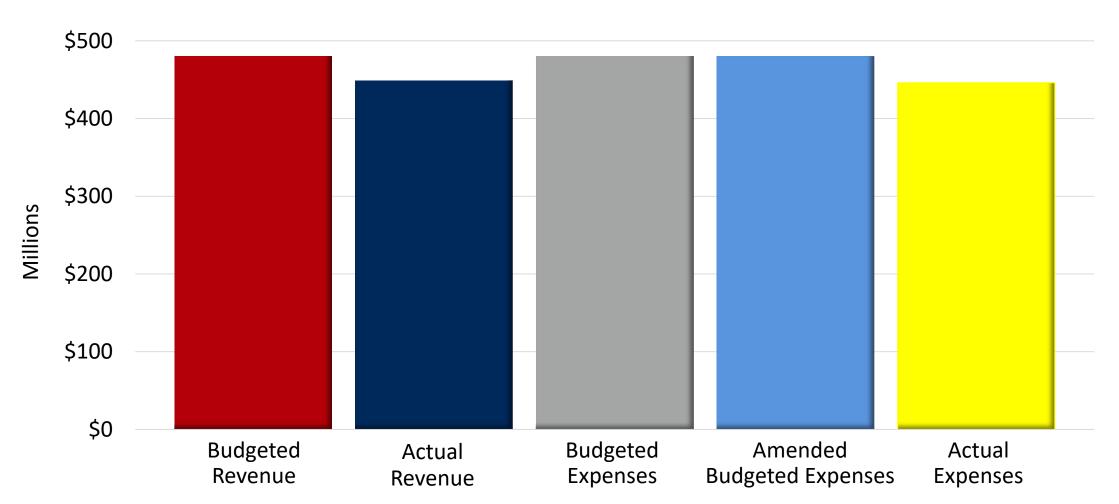

Participants to Receive \$708,000

All-Requirements Project

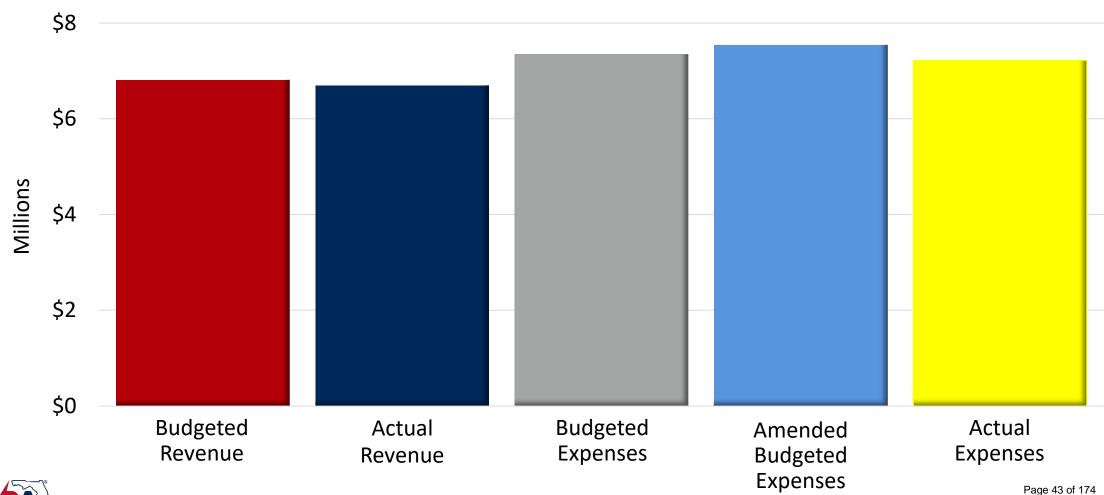

Participants to Receive \$2.7 Million

Tri-City Project

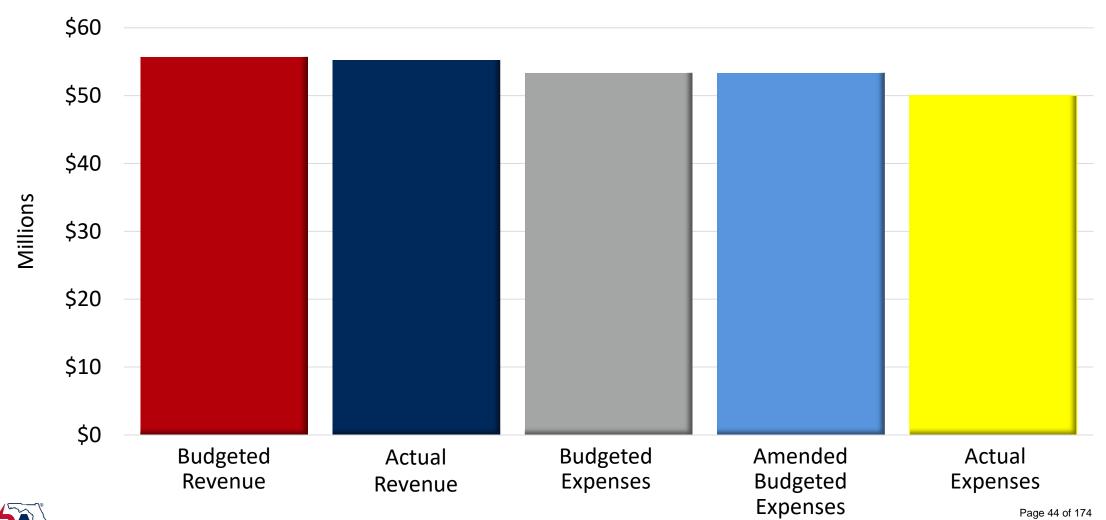

Participants to Receive \$207,000

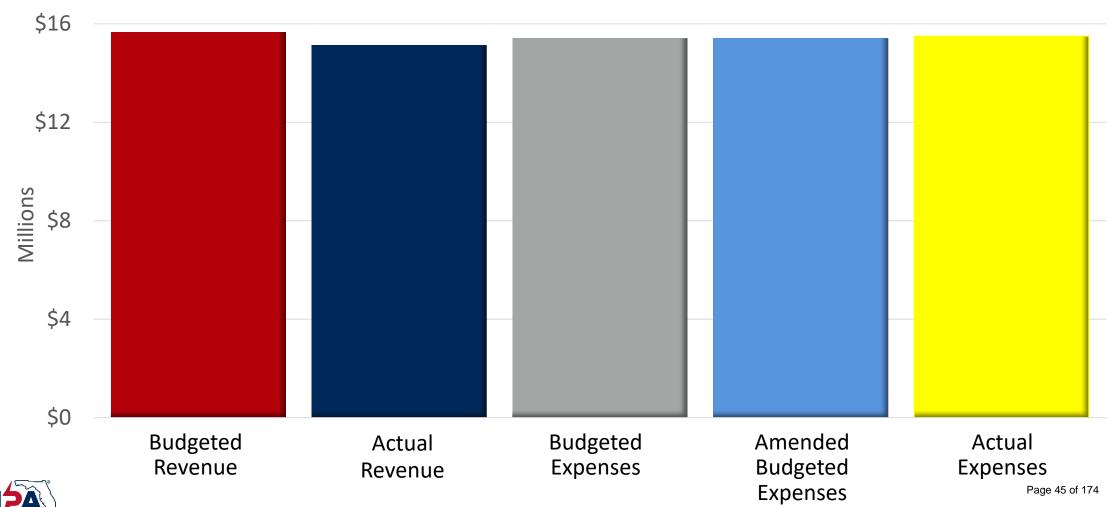

Stanton II Project

Participants to Receive \$2.8 Million

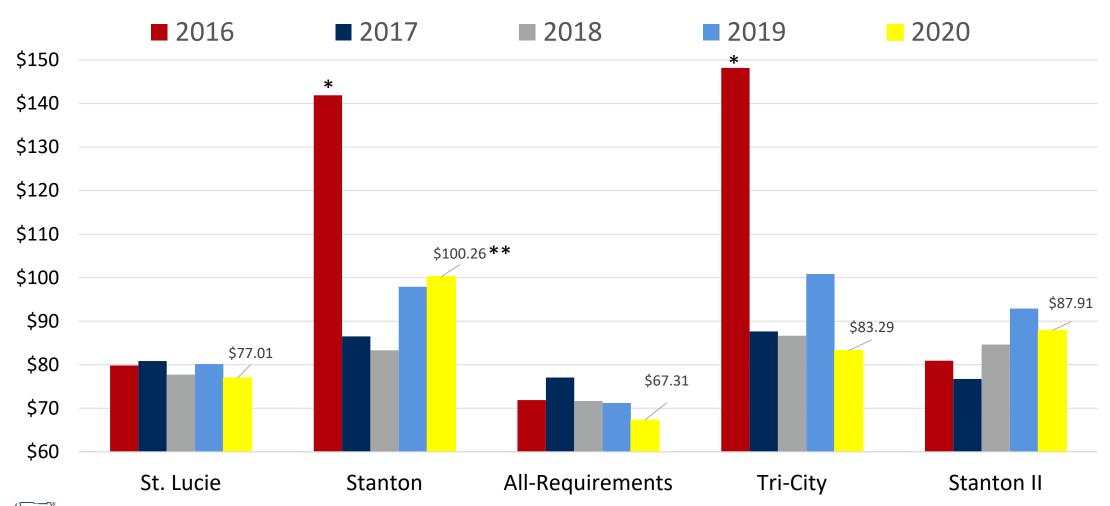

Agency Spending \$472,000 Below Budget

9

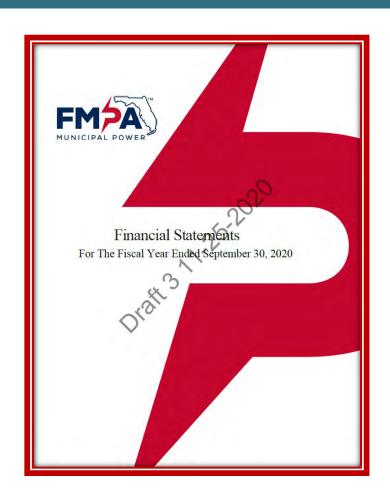

Average Dollars Per Megawatt Hour Billed

By Project Years 2016 – 2020

Auditor's Reports

Matter	Conclusion
Auditor's Opinion on Financial Statements and Notes	 Fairly stated in all material respects Unmodified Opinion ("Clean" Opinion)
Emphasis of a Matter	 Uncertainty related to the continuing and long term impact of the Coronavirus global pandemic

Auditor's Reports

Matter	Conclusion
Internal Control, Compliance, and Other Matters	 No material weaknesses in internal control over financial reporting were reported under Government Auditing Standards No instances of non-compliance or other matters required to be reported under Government Auditing Standards
Compliance with F.S. Sec 218.415	 The Agency complied, in all material respects, with compliance requirements for local government investments
Management Letter Rules of the Auditor General 10.550	 No prior audit findings No findings of deteriorating financial condition or financial emergency No noted non-compliance with contracts or grants, which would have a significant effect on the financial statements

Significant Estimates and Judgements

Certain aspects of accounting are more qualitative and thus require more judgement and estimation by management. The following items represent the most significant estimates:

- Nuclear Decommissioning Costs, Asset Retirement Obligations (ARO), and Landfill (St. Lucie future decommissioning; ARO for ARP, Stanton I and II, and Tricity; fly ash at Stanton)
- Capital Assets, Accumulated Depreciation, and Depreciation Expense
- Fair Market Value of Financial Instruments
- Prepaid Natural Gas Public Gas Partners, Inc. (PGP) (\$16.5 million was amortized down to \$9 million)
- Other Postemployment Benefits
- Net Costs Recoverable From or Refundable to Future Participant Billings

Significant Transactions or Events

COVID-19 Uncertainty

Precautionary measures were taken by the Agency and Members, however the duration and extent of the impact on the financial statements is uncertain and cannot be quantified. All Members are current with their payments to the Agency.

Vero Beach Transaction

The accounting treatment deferred the \$105 million of proceeds, which are recognized in revenues over future years. As of September 2020, \$15 million has been recognized and \$90 million will be recognized over future years.

ARP Bond Refunding and SWAP Terminations

2019A and B Series Refunding Revenue Bonds were used to redeem \$86 million of bonds and terminate \$15 million of interest rate swap. No variable rate bonds or interest rate swaps remain.

Significant Transactions or Events

Pooled Loan Program

The Pooled Loan Program was reestablished during 2019 to provided a low cost financing option to members or projects. During 2020, \$3.9 million of debt was issued for the Stanton II project.

Solar Program

The first of four solar sites under the ARP Solar Program became operational during 2020, producing \$373,626 of sales to members. The remaining sites are expected to become operational in 2023.

Member Services Billing and Agency Cost Allocations

The Agency has made significant efforts to improve and increase the level of non-purchase power services and to update cost allocations. New policies, procedures and software were adopted during 2020.

Other Audit Matters

Matter	Conclusion
Accounting Policies	 No new accounting policies were adopted during 2020 No transactions were noted for which there is a lack of authoritative guidance
Financial statement disclosures	 The disclosures are neutral, consistent, and clear except for the new disclosures related to uncertainties associated with COVID-19
Adjustments detected by the audit process	 All adjustments were recorded None of the adjustments detected during our audit procedures and corrected by management were material, either individually or in the aggregate
Disagreements with Management	• None
Difficulties encountered in performing our audit.	 We encountered no significant difficulties in dealing with management in performing and completing our audit

PURVIS GRAY

INDEPENDENT AUDITOR'S REPORT

Board of Directors and Executive Committee Florida Municipal Power Agency Orlando, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and each major fund of the Florida Municipal Power Agency (the Agency) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of the Agency, as of September 30, 2020, and the respective changes in financial position and cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As more fully described in Note X to the financial statements, which describes the uncertainty related to the outbreak of a novel coronavirus (COVID-19), which was declared a global pandemic by the World Health Organization in March 2020. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis information and other Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's basic financial statements. The accompanying supplementary information listed in the table of contents is presented for the purposes of additional analysis and is not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 23, 2020, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control

Board of Directors and Executive Committee Florida Municipal Power Agency Orlando, Florida

INDEPENDENT AUDITOR'S REPORT

over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Agency's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

December 23, 2020

Ocala, Florida

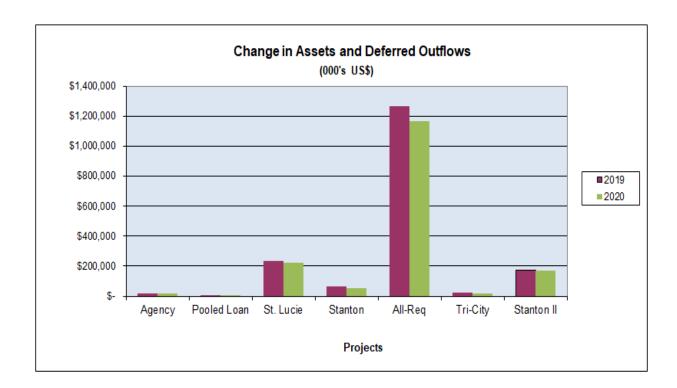

For Fiscal Year Ended September 30, 2020

This discussion and analysis is intended to serve as an introduction to Florida Municipal Power Agency's (FMPA's) basic financial statements, which are comprised of individual project or fund financial statements and the notes to those financial statements.

FMPA's financial statements are designed to provide readers with a broad overview of FMPA's financial condition in a manner similar to a private-sector business. It is important to note that, due to contractual arrangements which are the basis of each power project, no monies are shared among the projects, except that, as of the sale of the Vero Beach electric system to FPL in December 2018, the ARP has taken a transfer and assignment of Vero Beach's interests , as a project participant, in the Stanton, Stanton II and St. Lucie Projects.

FINANCIAL HIGHLIGHTS

Total Assets and Deferred Outflows at September 30, 2020, of FMPA's Agency Fund and other projects decreased \$123.0 million from the prior year. Decreases included \$72.1 million of depreciation and amortization of Plant Assets. Increases in total plant included \$32.4 million of new depreciable assets.

	Change in Assets and Deferrred Outflows (000's US\$)

For Fiscal Year Ended September 30, 2020

FINANCIAL HIGHLIGHTS (CONTINUED)

Total Liabilities and Deferred Inflows at September 30, 2020, for FMPA's Agency Fund and other projects decreased by \$123.0 million during the current fiscal year. The decrease in total liabilities is mainly due to bond principal payments.

Long-Term Liability balance outstanding at September 30, 2020, for FMPA's Agency Fund and Projects was \$1.2 billion, a decrease of \$108.4 million during the current fiscal year.

Long-Term Bonds balance, less current portion, was \$1,020 million, including All-Requirements balance of \$737 million.

Total Revenue for Agency and all projects decreased by \$51.7 million for the current fiscal year, primarily due to decreased natural gas prices.

Comparative years' Assets, Liabilities and Net Position, as well as Revenues, Expenses are summarized on the following pages.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to FMPA's basic financial statements, which are comprised of two components: (1) individual project or fund financial statements and (2) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

FMPA's **Entity-Wide Financial Statements** are designed to provide readers with a broad overview of FMPA's finances in a manner similar to a private-sector business. It is very important to note that, due to contractual arrangements that are the basis of each power project, no monies can be shared among projects, except that, as of the sale of the Vero Beach electric system to FPL in December 2018, the ARP has taken a transfer and assignment of Vero Beach's interests, as a project participant, in the Stanton, Stanton II and St. Lucie Projects.

The cash flow of one power project, although presented with all others in the financial statement presentation as required by financial reporting requirements, cannot and should not be considered available for any other project. Management encourages readers of this report, when evaluating the financial condition of FMPA, to remember that each power project or fund is a financially independent entity.

The **Statements of Net Position** presents information on all of FMPA's assets and liabilities with the differences between the two reported as Net Position. As a result of a decision by the governing bodies of FMPA, billings and revenues in excess (deficient) of actual costs are returned to (collected from) the participants in the form of billing credits (charges). The assets within the Agency Fund represent those required for staff operations, which coordinate all of the power projects described herein.

The Statements of Revenues, Expenses and Changes in Fund Net Position present information regarding how FMPA's net position has changed during the fiscal year ended September 30, 2020. All changes in net position are reported as the underlying event giving rise to the change as it occurs, regardless of the timing of related cash flows. Therefore, some revenues and expenses that are reported in these statements for some items will only result in cash flows in future fiscal periods, such as unrealized gains or losses from investment activities, uncollected billings and earned but unused vacation.

The **Statements of Cash Flows** provide information about FMPA's Agency Fund and each project's cash receipts and disbursements during the fiscal year. These statements report cash receipts, cash payments and net changes in cash resulting from operating, investing and capital & related financing activities.

All of the activities of FMPA are of a business type, as compared to governmental activities. FMPA has no component units to report. The Financial Statements can be found on pages 12 through 14 of this report.

The **Fund Financial Statements** are comprised of a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. FMPA, like governments and other special agencies or districts, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of FMPA are reported on the proprietary basis.

FMPA maintains only one type of Proprietary Fund, the Enterprise Fund type. Enterprise Funds are used to report the same functions presented as business-type activities in the financial statements. FMPA uses enterprise funds to account for all of its power projects, as well as the Agency business operations. Each of the funds is considered a "major fund" according to specific accounting rules. A summary of FMPA's activities for years 2020 and 2019 is shown on pages 6 and 7. A more detailed version of the major fund proprietary financial statements can be found on pages 12 through 14 of this report.

The Notes to Financial Statements provide additional information that is essential to understanding the data provided in both the government-wide and fund financial statements. The Notes to the Financial Statements can be found on pages 15 through 53 of this report.

For Fiscal Year Ended September 30, 2020

ENTITY-WIDE FINANCIAL ANALYSIS

As noted earlier, when readers use the financial presentations to evaluate FMPA's financial position and results of operations, it is essential to remember the legal separation that exists among the projects. Nevertheless, broad patterns and trends may be observed at this level that should lead the reader to study carefully the financial statements of each fund and project. For example, total revenues decreased \$51.7 million primarily due to decreased natural gas prices.

FINANCIAL ANALYSIS OF FMPA'S FUNDS AND PROJECTS

FMPA uses fund accounting, Federal Energy Regulatory Commission accounting and special utility industry terminology to ensure and demonstrate compliance with finance-related legal requirements. The projects and funds are presented below and in the financial statements in the order in which they were established.

The **Agency Fund** accounts for the administrative activities of FMPA. The expenses incurred while operating the projects and administrative activities are allocated to the power projects, net of any miscellaneous receipts. Total General and Administrative expenses increased \$.8 million from fiscal year 2019 to fiscal year 2020.

The **Pooled Loan Fund** was re-established during the 2019 fiscal year and made one loan to a member during September 2019. As required by the Governmental Accounting Standards Board Statement 91 it is recognized as conduit debt and the corresponding receivable and payable are not included on the statement of Net Position. The Pooled loan fund made one loan to an FMPA Project (Stanton II) which is included on the statement of Net Position.

The **St. Lucie Project** consists of an 8.806% undivided ownership interest in St. Lucie Unit 2. This unit is a nuclear power plant primarily owned and operated by Florida Power & Light (FPL). FPL requested and received a 20-year extension of the operating license from the Nuclear Regulatory Commission (NRC) for Units 1 and 2. The license will allow Unit 1 to operate until 2035 and Unit 2 to operate until 2043.

The Project billed 697,116 Megawatt-hours (MWh) in fiscal year 2020. The average all-inclusive billing rate, which includes budgeted Demand, Energy and Transmission expenses, decreased 3.9% to \$77.01 in fiscal year 2020.

The **Stanton Project** derives its power from a 14.8193% ownership interest in Stanton Unit 1, a 441 Megawatt coal-fired power plant operated by its primary owner, Orlando Utilities Commission (OUC).

The Project billed 228,947 MWh in fiscal year 2020. The average all-inclusive billing rate, which includes budgeted Demand, Energy and Transmission expenses increased 2.4% to \$100.26 per MWh in fiscal year 2020 due to a lower capacity factor for the plant.

The **All-Requirements Project** (ARP) consists of 13 active participants. The ARP energy resources are part of the Florida Municipal Power Pool (FMPP), a consortium of three municipal energy suppliers - ARP, Lakeland Electric and OUC - which have agreed to dispatch resources on an economic cost and availability basis in order to meet combined loads. The average all-inclusive billed rate to ARP member cities was \$67.31 per MWh in fiscal year 2020, which is all-inclusive of Energy, Demand and Transmission expenses. The billed Megawatt hours for fiscal year 2020 were 5,797,669.

The All-Requirements participant net cost of power decreased to \$66.83 per MWh in fiscal year 2020, a 7.6% decrease from fiscal year 2019. This decrease was primarily due to lower fuel expenses. The fuel supply mix was 80.3% for natural gas, 13.6% for coal, 3.7% for purchases 1.4% nuclear and 1.0% for renewables.

For Fiscal Year Ended September 30, 2020

FINANCIAL ANALYSIS OF FMPA'S FUNDS AND PROJECTS (CONTINUED)

After consideration of amounts to be refunded to or recovered from Project participants, the net position of the All-Requirements Project was zero (by design) again in fiscal year 2020. The All-Requirements project adjusts the Demand, Energy, and Transmission rates each month based on the current expenses, estimated future expenses, and over/under collections to meet its 60-day cash target. The over/under collection amounts are shown in the Statements of Revenues, Expenses and Changes in Fund Net Position as an addition or reduction to "Billings to Participants" and as "Due from Participants" or "Due to Participants" in the accompanying Statement of Net Position.

The **Tri-City Project** consists of a 5.3012% ownership interest in Stanton Unit 1. The Project billed 77,805 MWh in fiscal year 2020. The average all-inclusive billing rate, which includes budgeted Demand, Energy and Transmission expenses, decreased 17.4% to \$83.29 per MWh during fiscal year 2020 due to decreased net operating revenues needed to build reserve funds.

The **Stanton II Project** consists of a 23.2367% ownership interest in Stanton Unit 2, a coal-fired power plant operated by its primary owner; Orlando Utilities Commission (OUC). The Project billed 616,808 MWh in fiscal year 2020. The average all-inclusive billing rate, which includes budgeted Demand, Energy, and Transmission expenses, decreased by 5.4% to \$87.91 per MWh in fiscal year 2020. This was caused by an increase in MWh Sales related to an increased capacity factor for the plant.

BUDGETARY HIGHLIGHTS

The FMPA Board of Directors approves the non All-Requirements Project budgets, and the Executive Committee approves the Agency and All-Requirements Project budgets, establishing legal boundaries for expenditures. For fiscal year 2020, the Tri-City budget was amended at the end of the fiscal year to increase expenditures \$.2 million. This was due to higher than anticipated fuel expense.

CAPITAL ASSETS AND LONG-TERM DEBT

FMPA's investment in **Capital Assets**, as of September 30, 2020, was \$747 million, net of accumulated depreciation and inclusive of work-in-process and development projects. This investment in capital assets includes operational and construction projects in progress of generation facilities, transmission systems, land, buildings, improvements, and machinery and equipment.

FMPA's investment in capital assets for fiscal year 2020 decreased by 5.4% or \$42.9 million. This was caused primarily by depreciation of plant assets.

At September 30, 2020, FMPA had **Long-term debt** of \$1.1 billion in notes, loans, and bonds payable. The remaining principal payments on Long-term debt less current portion, net of unamortized premium and discount, and deferred outflows are as follows:

Project	Amount	(000's US\$)
Agency Fund	\$	-
Pooled Loan Fund		3,498
St. Lucie Project		98,029
Stanton Project		-
All-Requirements Project		913,713
Tri-City Project		-
Stanton II Project		103,795
Total	\$	1,119,035

For Fiscal Year Ended September 30, 2020

See Note VIII to the Notes to Financial Statements for further information.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Multi-year operational and financial modeling was conducted to arrive at the fiscal year 2020 budget. Expenses were estimated using current market conditions for fuel and estimated member loads which take into consideration the member cities' economies that have shown varying impacts on loads in both demand and energy due to current economic conditions. Rates are set in order to cover all costs and based on the member loads. Additionally, All-Requirements rates are adjusted monthly to maintain cash at a 60 day target as approved by the Executive Committee.

SIGNIFICANT EVENTS

A. Refinancing of the 2008C and 2013A All-Requirements Project Bonds

On November 07, 2019, the All-Requirements project issued the 2019A and 2019B bonds with a face amount of \$81.9 million at a premium and used the \$102 million of cash to retire the 2008C and the 2013A bonds with a total face value of \$85.7 million, terminate associated swaps at a cost of \$15.5 million and pay closing costs. This transaction eliminated all variable rate debt and all associated swaps of the Project.

B. Solar Purchased Power Agreements

Five of the All-Requirements participants subscribed to the output of a solar farm that came online in July of 2020. This is the first of four solar farms that FMPA will participate in taking energy from under long term contracts.

REQUEST FOR INFORMATION

Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the *Chief Financial Officer*, *Florida Municipal Power Agency*, 8553 Commodity Circle, Orlando, FL 32819.

NOTES TO FINANCIAL STATEMENTS

For the Year Ended September 30,2020

I. Summary of Significant Accounting Policies

A. Reporting Entity

Florida Municipal Power Agency (FMPA or Agency) was created on February 24, 1978, pursuant to the terms of an Interlocal Agreement signed by the governing bodies of 25 Florida municipal corporations or utility commissions chartered by the State of Florida.

The Florida Interlocal Cooperation Act of 1969 authorizes local government units to enter together into mutually advantageous agreements which create separate legal entities for certain specified purposes. FMPA, as one such entity, was authorized under the Florida Interlocal Cooperation Act and the Joint Power Act to finance, acquire, construct, manage, operate, or own electric power projects or to accomplish these same purposes jointly with other public or private utilities. An amendment to the Florida Interlocal Cooperation Act in 1985 and an amendment to the Interlocal Agreement in 1986 authorized FMPA to implement a pooled financing or borrowing program for electric, water, wastewater, waste refuse disposal, gas or other utility projects for FMPA and its members. FMPA established itself as a project-oriented agency.

This structure allows each member the option of whether to participate in a project, to participate in more than one project, or not to participate in any project. Each of the projects are financially independent from the others and the project bond resolutions specify that no revenues or funds from one project can be used to pay the costs of any other project, except that, as of the sale of the Vero Beach electric system to FPL, the ARP has taken a transfer and assignment of Vero Beach's interests , as a project participant, in the Stanton, Stanton II and St. Lucie Projects. As of September 30, 2020, FMPA has 31 members.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Agency Fund and each of the projects are maintained using the Governmental Accounting Standards Board (GASB), the Uniform System of Accounts of the Federal Energy Regulatory Commission (FERC) and Generally Accepted Accounting Principles of the United States (GAAP) using the economic resources measurement focus and the accrual basis of accounting. Application of the accounting methods for regulatory operations is also included in these financial statements. This accounting guidance relates to the deferral of revenues and expenses to future periods in which the revenues are earned or the expenses are recovered through the rate-making process, which is governed by the Executive Committee and the Board of Directors.

The Agency's General Bond Resolution requires that its rate structure be designed to produce revenues sufficient to pay operating, debt service and other specified costs. The Agency's Board of Directors, which is comprised of one representative from each member city, and Executive Committee, which is comprised of one representative from each of the active All-Requirements Project members, are responsible for reviewing and approving the rate structure. The application of a given rate structure to a given period's electricity sales may produce revenues not intended to pay that period's costs and conversely, that period's costs may not be intended to be recovered in that period's revenues. The affected revenues and/or costs are, in such cases, deferred for future recognition. The recognition of deferred items is correlated with specific future events, primarily payment of debt principal.

FMPA considers electric revenues and costs that are directly related to generation, purchases, transmission, and distribution of electricity to be operating revenues and expenses. Revenues are recorded when they are earned and expenses are recorded when a liability is incurred, following GAAP.

For the Year Ended September 30,2020

I. Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

1. Fund Accounting

FMPA maintains its accounts on a fund/project basis, in compliance with appropriate bond resolutions, and operates its various projects in a manner similar to private business. Operations of each project are accounted for as a proprietary fund and as such, inter-project transactions, revenues and expenses are not eliminated.

The Agency operates the following major funds:

- The Agency Fund, which accounts for general operations beneficial to all members and projects.
- The Pooled Loan Fund was re-established during the fiscal year 2019 and will loan funds to member utilities or FMPA projects.
- The St. Lucie Project, which accounts for ownership interest in the St. Lucie Unit 2 nuclear generating facility.
- The Stanton Project and the Tri-City Project, which account for respective ownership interests in the Stanton Energy Center (SEC) Unit 1, a coal-fired generation facility,
- The All-Requirements Project, which accounts for ownership interests in Stanton Energy Center Unit 1, Stanton Energy Center Unit 2, Stanton Unit A, and Indian River Combustion Turbine Units A, B, C and D. Also included in the All-Requirements Project is the purchase of power for resale to the participants and 100% ownership or ownership cost responsibility (for jointly owned and participant-owned units) of Treasure Coast Energy Center, Cane Island Units 1, 2, 3 and 4, FMPA's Key West Combustion Turbine Units 1, 2, 3 and 4 and Key West Stock Island MS Units 1 & 2. The project also assumed the participant interest of Vero Beach in the St. Lucie, Stanton, and Stanton II Projects. Some of the All-Requirements participants subscribed to the output of a solar farm that came online in July of 2020.
- The Stanton II Project, which accounts for an ownership interest in SEC Unit 2.

Certain accounts within these funds are grouped and classified in the manner established by respective bond resolutions and/or debt instruments.

All funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary or business fund's principal on-going operations. The principal operating revenues of FMPA's proprietary or business funds are charges to participants for sales and services. Operating expenses for proprietary or business funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is FMPA's policy to use restricted funds for their intended purposes only, based on the bond resolutions. Unrestricted resources are used as they are needed in a hierarchical manner from the General Reserve accounts to the Operations and Maintenance accounts.

Certain direct and indirect expenses allocable to FMPA's fully owned and undivided ownership in the St. Lucie Project, the Stanton Project, the All-Requirements Project, the Tri-City Project and the Stanton II Project are capitalized as part of the cost of acquiring or constructing the respective utility plant. Direct and indirect expenses not associated with these projects are capitalized as part of the cost of Development Projects in Progress in the Agency Fund. Electric Plant in Service is depreciated using the straight-line method over the assets' respective estimated useful lives. Estimated useful lives for electric plant assets range from 23 years to 42 years.

For the Year Ended September 30,2020

I. Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

2. Capital Assets

FMPA has adopted the policy of capitalizing net interest costs during the period of project construction (interest expense less interest earned on the investment of bond proceeds). Capitalized net interest cost on borrowed funds include amortization of bond discount and bond premium, interest expense and interest income. The cost of major replacements of assets in excess of \$5,000 is capitalized to the utility plant accounts. The cost of maintenance, repairs and replacements of minor items are expensed as incurred.

3. Inventory

Coal, oil, and natural gas inventory is stated at weighted average cost. Parts inventory for the generating plants is also stated at weighted average cost. Nuclear fuel is carried at cost and is amortized on the units of production basis.

4. Cash & Cash Equivalents

FMPA considers the following highly liquid investments (including restricted assets) to be cash equivalents for the statement of cash flows:

- Demand deposits (not including certificates of deposits)
- Money market funds

5. Investments

Florida Statutes authorize FMPA to invest in the FL Local Government Surplus Funds Trust Fund, obligations of the U.S. Instrumentalities, Money Market Funds, U.S. Government and Agency Securities, Certificates of Deposit, commercial paper and repurchase agreements fully collateralized by all the items listed above. In addition to the above, FMPA's policy also authorizes the investment in certain corporate and municipal bonds, bankers' acceptances, prime commercial paper and repurchase agreements, guaranteed investment contracts and other investments with a rating confirmation issued by a rating agency.

Investments are stated at fair value based on quoted market prices and using third party pricing models for thinly traded investments that don't have readily available market values. Investment income includes changes in the fair value of these investments. Interest on investments is accrued at the Statement of Net Position date. All of FMPA's project and fund investments can be sold at any point due to cash flow needs, changes in market trends or risk management strategies.

6. Debt-Related Costs

Debt issuance costs are expensed as incurred. Gains and losses on the refunding of bonds are deferred and amortized over the life of the refunding bonds or the life of the refunded bonds, whichever is shorter, using the bonds outstanding method. This method is used for the St. Lucie Project, the Stanton Project, the All-Requirements Project, the Tri-City Project, and the Stanton II Project.

7. Compensated Absences

Liabilities related to Compensated Absences are recognized as incurred in accordance with GASB Statement No. 16 and are included in accrued expenses. Regular, full-time employees in good standing, upon resignation or retirement, are eligible for vacation pay, and sick/personal pay. At September 30, 2020, the liability for unused vacation was \$826,571 and \$661,316 for unused sick/personal leave is accounted for in the Agency Fund.

For the Year Ended September 30,2020

I. Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

8. Allocation of Agency Fund Expenses

General and administrative operating expenses of the Agency Fund are allocated based on direct labor hours of specific positions and certain other minimum allocations to each of the projects. Any remaining expenses are allocated to the All-Requirements Project.

9. Billing to Participants

Participant billings are designed to systematically provide revenue sufficient to recover costs. Rates and budgets can be amended by the Board of Directors or the Executive Committee at any time.

For the All-Requirements Project, energy rate adjustments are driven by the Project's Operation and Maintenance (O & M) Fund month-end cash balance and the cash balance needed to meet the targeted balance of 60 days of cash within the O & M Fund. If it is determined that the O & M Fund balance is over the 60 days O & M Fund cash balance target amount, the energy rate adjustment will result in a lower billing rate relative to projected expenses and thereby reduce the future O & M Fund balance. Likewise, if the O & M Fund balance is below the 60 day cash target, the energy rate adjustment will result in a higher billing rate relative to projected expenses and thereby increase the future O & M Fund balance.

Amounts due from participants are deemed to be entirely collectible and as such, no allowance for uncollectible accounts has been recorded.

For the St. Lucie Project, the Stanton Project, the Tri-City Project and the Stanton II Project, variances in current fiscal year billings and actual project costs are computed and compared to the current year budget target under or over recovery and under the terms of the project contract, net excesses or deficiencies are credited or charged to future participant billings or may be paid from the General Reserve Fund, as approved by the Board of Directors, or Executive Committee as appropriate.

10. Income Taxes

FMPA is a local governmental entity and therefore is exempt from federal and state income taxes.

11. Use of Estimates

The management of FMPA has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with GAAP. Examples of major areas where estimates are used include the estimate for useful lives of property, plant and equipment and the estimate for the nuclear decommissioning liability. Other examples include using third party pricing models for pricing of thinly traded investments, amortization of Public Gas Partner gas based on estimated total reserves and use of estimates when computing the OPEB liability. Actual results could differ from those estimates.

12. Derivative Financial Investments

FMPA uses commodity futures contracts and options on forward contracts to hedge the effects of fluctuations in the price of natural gas storage. The contracts are held by Florida Gas Utility (FGU) and FMPA agrees to reimburse FGU for any loss on the contracts and FGU agrees to pay FMPA for any gain on the contracts. Previously, FMPA used interest rate swap contracts to hedge the fluctuations in the interest rate of variable-rate debt, however, with the retirement of the 2008C All-Requirements bonds in November of 2019, all interest rate swaps have been terminated.

For the Year Ended September 30,2020

I. Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

13. Deferred Inflows and Deferred Outflows

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. FMPA has two items that qualify for reporting in this category, the deferred portion of Asset Retirement Obligations and the Unamortized Loss on Refunding. The deferred Asset Retirement Obligation costs will be collected from participants as determined by the Board and Executive Committee during the budget process. A deferred Loss on Refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. FMPA has two items that qualify for reporting in this category, the Net Cost Refundable/Future Participant Billings, and the Acquisition Adjustment- Vero Beach Entitlements. The net Costs Refundable/Future Participant Billings are recognized as a rate benefit in future periods through the rate-making process. The Acquisition Adjustment - Vero Beach Entitlements are being amortized to income to offset the additional annual costs to the All-Requirements project for the assumption of the Project obligations acquired.

14. Financial Reporting for Pension Plans

FMPA has a Defined Contribution Pension Plan and therefore the impacts of reporting for pension plans are minimal compared to entities that have a Defined Benefit Pension Plan. The impacts on accounting and reporting for FMPA are disclosed in footnote XII.A.

15. Financial Reporting for Postemployment Benefits Other Than Pensions

The Governmental Accounting Standards Board Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB) was adopted by FMPA for reporting the employer's OPEB Plan Liability. The accounting and reporting for FMPA and additional disclosures are provided in footnote XII.B and in the Required Supplementary Information section.

16. Landfill Closure and Post Closure Maintenance Cost

In accordance with Governmental Accounting Standards Board Statement No. 18, Accounting for Landfill Closure and Post Closure Maintenance Cost was implemented beginning with the fiscal year ending September 30, 2018, for reporting the Stanton, Stanton II, Tri-City and All Requirements Projects liability for the fly ash landfill at the Stanton Energy Center.

For the Year Ended September 30,2020

I. Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

17. Fair Value Measurement and Application

Investments for FMPA are stated at fair value. The fair value framework uses a hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 inputs-are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date
- Level 2 inputs-are inputs other than quoted prices included within Level 1 that are
 observable for an asset or liability, either directly or indirectly. Agency Obligation
 securities are recorded at fair value based upon Bloomberg pricing models using
 observable inputs and as such are presented as level 2 in the GASB 72 hierarchy in
 footnote IV.
- Level 3 inputs-are unobservable inputs for an asset or liability. The fair value hierarchy
 gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If
 a price for an identical asset or liability is not observable, a government should
 measure fair value using another valuation technique that maximizes the use of
 relevant observable inputs and minimizes the use of unobservable inputs.

II. Nuclear Decommissioning Liability

St. Lucie Project

The U.S. Nuclear Regulatory Commission (NRC) requires that each licensee of a commercial nuclear power reactor furnish to the NRC a certification of its financial capability to meet the costs of nuclear decommissioning at the end of the useful life of the licensee's facility. As a colicensee of St. Lucie Unit 2, FMPA's St. Lucie Project is subject to these requirements and therefore has complied with the NRC regulations.

To comply with the NRC's financial capability regulations, FMPA established an external trust fund (Decommissioning Trust) pursuant to a trust agreement. Funds deposited, together with investment earnings in the Trust, are anticipated to result in sufficient funds in the Decommissioning Trust at the expiration of the license extension to meet the Project's share of the decommissioning costs. This is reflected in the St. Lucie Project's Statement of Net Position as Restricted Cash and Investments (\$93.6 million) and Accrued Decommissioning Liability (\$93.3 million) at September 30, 2020. These amounts are to be used for the sole purpose of paying the St. Lucie nuclear decommissioning costs. Based on a site-specific study approved by the Florida Public Service Commission in 2020, Unit 2's future net decommissioning costs are estimated to be \$1.7 billion or \$674 million in 2020 dollars, and FMPA's share of the future net decommissioning costs is estimated to be \$146 million or \$59 million in 2020 dollars. A new study will be completed and made available in December 2025. The Decommissioning Trust is irrevocable, and funds may be withdrawn from the Trust solely for the purpose of paying the St. Lucie Project's share of costs for nuclear decommissioning. Also, under NRC regulations, the Trust is required to be segregated from other FMPA assets and outside FMPA's administrative control. FMPA has complied with these regulations.

For the Year Ended September 30,2020

III. Landfill Closure and Post Closure Maintenance Liability and Asset Retirement Obligations

In accordance with Governmental Accounting Standard No. 18, the ownership share of the landfill closure and post closure maintenance costs the Stanton Energy Center Units 1 & 2, the proportionate closure and post closure maintenance costs of \$627 thousand as of September 30, 2020, was recognized across FMPA's All Requirements, Stanton, Stanton II and Tri-City Projects. FMPA expects to recognize the remaining share of its estimated closure and post-closure costs of \$324 thousand over the remaining useful life of the landfill. As of September 30, 2019 and 2020, 53.9% and 65.9%, respective of the total landfill capacity has been used. Three years remain on the landfill life.

In accordance with Governmental Accounting Standard No. 83, Asset Retirement Obligation have been calculated for each of the generating sites owned by FMPA. Significant assumptions used in the calculation of the Obligations are as follows:

There are no pollution events that need to be addressed. If a pollution event occurs it will be cleaned up as soon as practible and the expense will be recognized at the time of the event.

Scrap and salvage values for the natural gas plants exceed the cost to retire the units therefore, no obligation is accrued for these assets.

Coal plant retirement obligations are based on an EPRI study, removing costs for asbestos abatement. All ash disposal is included in the Landfill Closure Cost estimate.

The impact for each of FMPA Projects as of September 30, 2020 is:

		(000's US\$)

IV. Capital Assets

A description and summary as of September 30, 2020, of Capital Assets by fund and project, is as follows:

The column labeled "Increases" reflects new capital undertakings and depreciation expense. The column labeled "Decreases" reflects retirements of those assets.

A. Agency Fund

The Agency Fund contains the general plant assets of the Agency that are not associated with specific projects. Depreciation of general plant assets is computed by using the straight-line method over the expected useful life of the asset. Expected lives of the different types of general plant assets are as follows:

FMPA 2020 Annual Report • 21

For the Year Ended September 30,2020

IV. Capital Assets (continued)

A. Agency Fund (Continued)

•	Structures & Improvements	25 years
•	Furniture & Fixtures	8 years
•	Office Equipment	5 years
•	Automobiles and Computers	3 years

New capital undertakings are accounted for in the Development Projects in Progress account and included in the Other Assets section of the Statement of Net Position. Depending on whether these undertakings become a project, costs are either capitalized or expensed. The activity for the Agency's general plant assets for the year ended September 30, 2020 was as follows:

				Septembe	er 30, 20	20	
		Beginning					Ending
		Balance	Inci	reases*	Dec	reases*	Balance
	_			(000)'s US\$)		
Land	\$	653	\$	-	\$	-	\$ 653
General Plant		8,594		365		-	8,959

General Plant in Service	\$	9,287	\$	325	\$	-	\$ 9,612
Less Accumulated Depreciation		(6,195)		(372)		-	(6,567)
General Plant in Service, Net	\$	3,092	\$	(47)	\$	-	\$ 3,045
* Includes Retirements Less Salva	age						

B. St. Lucie Project

The St. Lucie Project consists of an 8.806% undivided ownership interest in St. Lucie Unit 2, a nuclear power plant primarily owned and operated by Florida Power & Light (FPL).

Depreciation was originally computed using the straight-line method over the expected useful life of the asset, which was originally computed to be 34.6 years. In FYE 2019, management extended the useful life to 41.6 years based on the extended operating license for St. Lucie Unit 2. Nuclear fuel is amortized on a units of production basis. St. Lucie plant asset activity for the year ended September 30, 2020, was as follows:

				Septembe	er 30, 20	020		
		Beginning						Ending
	_	Balance	I	ncreases	Dec	reases*	_	Balance
				(000	0's US\$)			
Land	\$	75	\$	-	\$	-	\$	75
Electric Plant		300,182		6,274				306,456
General Plant		1,209		-		-		1,209
Nuclear Fuel		22,388		5,274		-		27,662
Construction work in process		878		118				996
Electric Utility Plant in Service	\$	324,732	\$	11,666	\$	-	\$	336,398
Less Accumulated Depreciation		(304,178)		(5,667)		(98)		(309,943)
Utility Plant in Service, Net	\$	20,554	\$	5,999	\$	(98)	\$	26,455
* Includes Retirements Less Salva	age							

Construction work in process is recorded on an estimate basis and reversed 3 months later when actual amounts are determined.

For the Year Ended September 30,2020

IV. Capital Assets (continued)

C. Stanton Project

The Stanton Project consists of an undivided 14.8193% ownership in Stanton Energy Center Unit 1, a coal-fired power plant. Asset retirements and additions for the plant are decided by Orlando Utilities Commission (OUC), the primary owner and operator of the plant.

Depreciation of plant assets is computed using the straight-line method over the expected useful life of the different plant assets. Expected useful lives of the assets are as follows:

Electric PlantComputer Equipment40 years9 years

Stanton Unit 1 plant asset activity for the year ended September 30, 2020, was as follows:

		September 30, 2020									
		Beginning						Ending			
		Balance	I/	ncreases	Dec	reases*		Balance			
	_			(000)'s US\$)						
Land	\$	125	\$	-	\$	-	\$	125			
Electric Plant		91,150		3,651		-		94,801			
General Plant		13				-		13			
Electric Utility Plant in Service	\$	91,288	\$	3,651	\$	-	\$	94,939			
Less Accumulated Depreciation		(64,209)		(3,686)		-		(67,895)			
Utility Plant in Service, Net	\$	27,079	\$	(35)	\$	-	\$	27,044			
* Includes Retirements Less Salva	age										

D. All-Requirements Project

The All-Requirements Project's current utility plant assets include varying ownership interests in Stanton Energy Center Units 1 and 2; Indian River Combustion Turbines A, B, C and D; and Stanton A. The All-Requirements Project's current utility plant assets also consist of 100% ownership in the Treasure Coast Energy Center, Cane Island Units 1, 2, 3 and 4, Key West Units 1, 2, 3 and 4, and Stock Island MSD Units 1 & 2, with the exception of the Key West and KUA – TARP Capital Lease Obligation. See footnote IX.A.4 for more detail on the Key West and KUA – TARP Capital Lease Obligations.

Retirements and additions for the All-Requirements Project assets are decided by the All-Requirements members.

Depreciation of plant assets and amortization of capital leases is computed using the straightline method over the expected useful life of the asset. Expected lives of the different plant assets are as follows:

•	Stanton Energy Center Units 1 and 2	40 years
•	Stanton Energy Center Unit A	35 years
•	Treasure Coast Energy Center	23 years
•	Cane Island Unit 1	25 years
•	Cane Island Units 2, 3	30 years
•	Cane Island Unit 4	23 years
•	Key West Units 1, 2 and 3	25 years
•	Key West Stock Island Units 1 and 2	25 years
•	Key West Stock Island Unit 4	23 years
•	Indian River Units A, B, C and D	23 years *
•	Computer Equipment	9 years

^{*} Indian River Units A, B, C and D, reached the end of their useful lives. Management has extended the useful life by 5 years for new capital additions.

For the Year Ended September 30,2020

IV. Capital Assets (continued)

D. All-Requirements Project (continued)

All-Requirements plant asset activity for the year ended September 30, 2020, was as follows:

			Septembe	er 30, 20	020	
	Beginning					Ending
	Balance	I/	ncreases	Dec	creases*	Balance

Utility Plant in Service, Net	\$ 635,185	\$	(46,648)	\$	-	\$ 588,537
* Includes Detinens sets Loss Col						

^{*} Includes Retirements Less Salvage

E. Tri-City Project

The Tri-City Project consists of an undivided 5.3012% ownership interest in Stanton Unit 1, a coal-fired power plant. Retirements and additions for Stanton Unit 1 are determined by OUC, the primary owner and operator.

Depreciation of plant assets is computed using the straight-line method over the expected useful life of the different assets. Expected useful lives of the assets are as follows:

Electric PlantComputer Equipment40 years9 years

Tri-City Project plant asset activity for the year ended September 30, 2020, was as follows:

				Septembe	er 30, 20	020		
		Beginning						Ending
	_	Balance	I/	ncreases	Dec	reases*	_	Balance

Utility Plant in Service, Net	\$	10,460	\$	(110)	\$	-	\$	10,350
* Includes Retirements Less Salva	age							

F. Stanton II Project

The Stanton II Project consists of an undivided 23.2367% ownership interest in Stanton Unit 2, a coal-fired power plant. Retirements and additions for Stanton Unit 2 are determined by OUC, the primary owner and operator.

Depreciation of plant assets is computed using the straight-line method over the expected useful life of the different assets. Expected useful lives of the assets are as follows:

Electric Plant
 Computer Equipment
 40 years
 9 years

For the Year Ended September 30,2020

IV. Capital Assets (continued)

F. Stanton II Project (continued)

Stanton Unit 2 plant asset activity for the year ended September 30, 2020, was as follows:

				Septembe	er 30, 20	20		
		Beginning						Ending

Utility Plant in Service, Net	\$	93,918	\$	(1,966)	\$	-	\$	91,952
* Includes Retirements Less Salva	age							

V. Cash, Cash Equivalents, and Investments

A. Cash and Cash Equivalents

At September 30, 2020, FMPA's Cash and Cash Equivalents consisted of demand deposit accounts and money market accounts which are authorized under FMPA bond resolutions. Cash and cash equivalents are held at two financial institutions. All of FMPA's demand deposits at September 30, 2020, were insured by Federal Depository Insurance Corporation (FDIC) or collateralized pursuant to the Public Depository Security Act of the State of Florida. Current unrestricted cash and cash equivalents are used in FMPA's funds' and projects' day-to-day operations.

B. Investments

FMPA adheres to a Board and Executive Committee-adopted investment policy based on the requirements of the bond resolutions. The policy requires diversification based upon investment type, issuing institutions, and duration. All of the fund and project accounts have specified requirements with respect to investments selected and the length of allowable investment.

Investments at September 30, 2020 were insured or registered and held by its agent in FMPA's name. Changes in the fair value of investments are reported in current period revenues and expenses. All of FMPA's fund and project investments can be sold at any point due to cash flow needs, changes in market trends or risk management strategies.

Foreign Currency Risk

FMPA's investments are not exposed to foreign currency risk.

Interest-Rate Risk

FMPA's investment policy requires that funds generally be invested to match anticipated cash flow. All fund and project accounts have a specified maximum maturity for investments and, the majority of FMPA's funds are required to be invested for less than five years. All project funds and accounts are monitored using weighted average maturity analysis as well as maturity date restrictions.

Concentration of Credit Risk

Each project is separate from the others, and as such, each project is evaluated individually to determine the credit and interest rate risk. FMPA's investment policy prohibits investments in commercial paper that exceed 50% of any of the projects' or the Agency's assets. All commercial paper must be rated in the highest rating category by a nationally recognized bond rating agency at the time of purchase. These investments must not exceed 50% for any of FMPA's projects. As of September 30, 2020, fixed income commercial paper investments, held by FMPA from any one issuer (investments issued or explicitly guaranteed by the US Government, investments in mutual funds, external investment pools and other pooled investments are excluded) are limited to 10% of the projects' investment assets. No project exceeded that limit.

FMPA 2020 Annual Report • 25

For the Year Ended September 30,2020

V. Cash, Cash Equivalents, and Investments (continued)

B. Investments (continued)

FMPA maintains all assets other than demand deposit accounts within a trust department of a bank. All cash and investments, other than demand deposit accounts, are held in the name of a custodian or a trustee for the Agency and its projects.

1. Agency Fund

Cash, cash equivalents and investments on deposit for the Agency at September 30, 2020, are as follows:

For the Year Ended September 30,2020

VI. Derivative Financial Instruments

A. Swap Agreements

FMPA's All-Requirements project was party to interest rate swap agreements during the current fiscal year. In November 2019 with the retirement of the 2008C Bonds, all of the Swap agreements were terminated.

1. All-Requirements Project

B. Natural Gas Futures, Contracts and Options

FMPA uses commodity futures contracts and options on forward contracts to hedge the effects of fluctuations in the price of natural gas storage. The contracts are held by Florida Gas Utility (FGU) and FMPA agrees to reimburse FGU for any loss on the contracts and FGU agrees to pay FMPA for any gain on the contracts. Any gain or loss of value in these futures contracts are ultimately rolled into the price of natural gas burned in the Project's electric generators. As of September 30, 2020 FMPA has 48 sales contracts outstanding for gas in storage, valued at \$(117,205), which will expire in November 2020 and February 2021.

FMPA also uses fixed-price firm physical purchases of natural gas as a tool to establish the cost of natural gas that will be needed by the All-Requirements Project in the future. For fiscal year 2021, FMMPA has contracted for 11,085,000 MMBtu of natural gas (about one third of annual need) at an average price of \$2.55/MMBtu.

For the Year Ended September 30,2020

VII. Regulatory Assets (Net Costs Refundable/Future Participant Billings)

FMPA has elected to apply the accounting methods for regulatory operations of GASB No. 62. Billing rates are established by the Board of Directors or Executive Committee and are designed to fully recover each project's costs over the life of the project, but not necessarily in the same year that costs are recognized under generally accepted accounting principles (GAAP). Instead of GAAP costs, annual participant billing rates are structured to systematically recover current debt service requirements, operating costs and certain reserves that provide a level rate structure over the life of the project which is equal to the amortization period. Accordingly, certain project costs are classified as deferred on the accompanying Statement of Net Position as a regulatory asset, titled "Net costs recoverable/future participant billings," until such time as they are recovered in future rates. Types of deferred costs include depreciation and amortization in excess of bond principal payments, and prior capital construction interest costs.

In addition, certain billings recovering costs of future periods have been recorded as a regulatory liability, titled "Net costs refundable/future participant billings", or as a reduction of deferred assets on the accompanying Statement of Net Position. Types of deferred revenues include billings for certain reserve funds and related interest earnings in excess of expenditures from those funds, and billings for nuclear fuel purchases in advance of their use.

VIII. Restricted Net Position

Bond resolutions require that certain designated amounts from bond proceeds and project revenues be deposited into designated funds. These funds are to be used for specific purposes and certain restrictions define the order in which available funds may be used. Other restrictions require minimum balances or accumulation of balances for specific purposes. At September 30, 2020, all FMPA projects were in compliance with requirements of the bond resolution.

Segregated restricted net position at September 30, 2020, are as follows:

						(000's	USS	\$)					
		Agency	Pooled	St. Lucie		Stanton		All-Req		Tri-City	S	Stanton II	Total
	_	Fund	 oan Fund	Project		Project		Project		Project		Project

					_				_		_		

Restrictions of the various bank funds are as follows:

- Debt service funds include the Debt Service Account, which is restricted for payment of the
 current portion of the bond principal and interest and the Debt Service Reserve Account,
 which includes sufficient funds to cover one half of the maximum annual principal and
 interest requirement of the specific fixed rate issues or 10% of the original bond proceeds.
- Reserve and Contingency Funds are restricted for payment of major renewals, replacements, repairs, additions, betterments, and improvements for capital assets.

For the Year Ended September 30,2020

VIII. Restricted Net Position (continued)

- If, at any time, the Debt Service Fund is below the current debt requirement and there are not adequate funds in the General Reserve Fund to resolve the deficiency, funds will be transferred from the Reserve and Contingency Fund to the Debt Service Fund.
- Decommissioning Funds are restricted and are funded for the payment of costs related to the decommissioning, removal, and disposal of FMPA's ownership on nuclear power plants.
- Project Funds are used for the acquisition, construction, and capitalized interest, as specified by the participants.
- Revenue Funds are restricted under the terms of outstanding resolutions.

IX. Long-Term Debt

A. Debt

FMPA enters into Long-term debt to fund different projects. The type of Long-term debt differs among each of the projects. A description and summary of Long-term debt at September 30, 2020, is as follows:

1. Agency Fund

The Agency Fund paid off all long-term debt during fiscal year ended September 30, 2019.

2. Pooled Loan Fund

						2020		
					(000	O's US\$)

Non-Conduit Pooled Loans	\$ -		\$	3,921	\$	-	\$ 3,921	\$ 423

Loan Payable to First Horizon Bank

The Pooled Loan was re-established in FY 2019 under a credit facility from First Horizon Bank fka Capital Bank. The credit facility will allow FMPA to sponsor loans to FMPA members or FMPA projects up to a maximum of \$25 million. In September 2019 the City of Bushnell drew \$7.9 million at 2.56% for 10 years. Loans to member cities are conduit debt instruments. In June 2020 the Stanton II project drew \$3.9 million at 1.77% for 7.25 years.

The 2000 and 2002 bonds were variable rate bonds and were retired in December 2018. The 2009A bonds were retired in October 2019. The 2010A bonds have a fixed interest rate of 2.72% through 2021. The 2011A and 2011B bonds are fixed and have a series of maturity dates through 2026. The rates for the 2011A bonds are 5.0%, and the rate for the 2011B bonds range from 4.375% to 5.0%. The 2012A bonds have a fixed interest rate of 5.0%, and mature in 2026. The 2013A bonds have a fixed interest rate of 2.73%, and mature in 2026.

The Series 2012 bonds are subject to redemption prior to maturity at the election of FMPA on or after October 1, 2022, at a call rate of 100%.

The 2008C and 2013A bonds were the only variable rate bonds and were retired November 7, 2019.

Portions of the Series 2008A, 2008C, 2009A, 2013A, 2015B, 2016A, 2017B and 2019A bonds are subject to redemption prior to maturity at the election of FMPA at a call rate of 100%. The Series 2008B, 2009B and 2017A bonds are not subject to redemption prior to maturity.

On April 1, 2019 \$68.8 million of The All Requirements Series 2008C debt was retired early using a portion of the proceeds from the payment received from Vero Beach for taking over their FMPA Project obligations.

KUA - TARP Capital Lease Obligation

Effective October 1, 2008, the Capacity and Energy Sales Contract with KUA was revised and on July 1, 2019 was amended to provide additional payments with a present value of \$10.7 million. Under the revised and amended contract, KUA receives agreed upon-fixed payments over preset periods.

For the Year Ended September 30,2020

IX. Long-Term Debt (continued)

A. Debt (continued)

5. All-Requirements Project (continued)

Payments remaining under the agreement at September 30, 2020, amount to \$120.7 million and the present value of these payments is \$100.8 million. The capital assets at September 30, 2020 include Facilities and Equipment of \$228.8 million less Accumulated Depreciation of \$162.4 million resulting in a net book value of \$66.4 million.

Keys - TARP Capital Lease Obligation

Effective January 1, 2011, the Capacity and Energy Sales Contract with Keys Energy Services was revised. Under the contract, Keys Energy Services receives agreed-upon fixed payments over preset periods relating to each of their generating units. FMPA assumed all cost liability and operational management of the generating units. FMPA is accounting for this transaction as a capital lease. Total final payment under the agreement was made in December 2019. The capital assets at September 30, 2020 include Facilities and Equipment of \$4.8 million less Accumulated Depreciation of \$4.7 million resulting in a net book value of \$.1 million.

St. Lucie County

As a condition of obtaining its conditional use permit for the construction and operation of the Treasure Coast Energy Center, the All-Requirements project agreed to pay St. Lucie County, Florida \$75,000 a year for a period of 20 years. Upon commercial operation of the plant, the unpaid amounts were discounted at a rate of 5.3% and capitalized to plant. At September 30, 2020, five payments remain under this obligation with the final payment to be made September 30, 2025.

Refinancing of the 2008C and 2013A All-Requirements Project Bonds

On November 07, 2019, the All-Requirements project issued the 2019A and 2019B bonds with a face amount of \$81.9 million at a premium and used the \$102 million of cash to retire the 2008C and the 2013A bonds with a total face value of \$85.7 million, terminate associated swaps at a cost of \$15.5 million and pay closing costs. This transaction eliminates all variable rate debt and all associated swaps of the Project.

Line of Credit

The All-Requirements Project has two lines of credit - one from JPMorgan Chase in the amount of \$75 million, and one from Wells Fargo Bank in the amount of \$25 million. The JPMorgan Chase line expires in June 2021. The Wells Fargo line expires in November 2021.

The 2012A, 2017A and 2017B revenue bonds are fixed, and have a maturity date of 2027. The rates for the bonds range from 3.0% to 5.0%. The pooled loan has a fixed rate of 1.77% and a final maturity of 2027.

The Series 2012A bonds are subject to redemption prior to maturity at the election of FMPA at 100%, beginning October 1, 2022. The Series 2017A and 2017B subject to redemption in whole or part prior to maturity at the call rate of 100% and Cost of Prepayment. The 2009A bonds were retired in July 2020 with proceeds of the Pooled Loan and will result in a Net Present Value Savings of \$463 thousand.

B. Major Debt Provisions (All Projects)

Principal and accrued interest payments on bonds may be accelerated on certain events of default. Events of default include failure to pay scheduled principal or interest payments and certain events of bankruptcy or insolvency of FMPA. Bond holders must give written notice of default and FMPA has 90 days to cure the default. The acceleration requires approval of holders of at least 25% of the principal amount of the outstanding bonds.

Bonds, which are special obligations of FMPA, are payable solely from (1) revenues less operating expenses (both as defined by the respective bond resolutions) and (2) other monies and securities pledged for payment thereof by the respective bond resolutions. The respective resolutions require FMPA to deposit into special funds all proceeds of bonds issued and all revenues generated as a result of the projects' respective Power Sales and Power Support Contracts or the Power Supply Contract. The purpose of the individual funds is also specifically defined in the respective bond resolutions.

Investments are generally restricted to those types described in Note I. Additional restrictions that apply to maturity dates are defined in the respective bond resolutions and FMPA's investment policy.

For the Year Ended September 30,2020

IX. Long-Term Debt (continued)

C. Annual Requirements

The annual cash flow debt service requirements to amortize the long-term **bonded** and **direct placement** debt outstanding as of September 30, 2020, are as follows:

For the Year Ended September 30,2020

X. Commitments and Contingencies

A. Participation Agreements

FMPA has entered into participation agreements, and acquired through capital leases, individual ownership of generating facilities as follows:

Project	Operating Utility	Joint Ownership Interest	Commercial Operation Date
St. Lucie	Florida Power & Light	8.806% of St. Lucie Unit 2 nuclear plant	August 1983
Stanton*	Orlando Utilities Commission (OUC)	14.8193% of Stanton Energy Center (SEC) Unit 1 coal-fired plant	July 1987
All-Requirements*	OUC	11.3253% of SEC Unit 1	July 1987
Tri-City*	OUC	5.3012% of SEC Unit 1	July 1987
All-Requirements	OUC	51.2% of Indian River Units A & B combustion turbines	A - June 1989 B - July 1989
All-Requirements	OUC	21% of Indian River Units C & D combustion turbines	C - August 1992 D - October 1992
All-Requirements	OUC	5.1724% of SEC Unit 2 coal- fired plant	June 1996
Stanton II	OUC	23.2367% of SEC Unit 2	June 1996
All-Requirements	Southern Company	7% of Stanton Unit A combined cycle	October 2003
*OUC has the contractual right	to unilaterally make ar	ny retirement decision for SEC Unit 1	beginning in 2017

Operational control of the electric generation plants rests with the operating utility and includes the authority to enter into long-term purchase obligations with suppliers. FMPA is liable under its participation agreements for its ownership interest of total construction and operating costs. Further contracts with Orlando Utilities Commission (OUC) include commitments for purchases of coal. According to information provided by OUC, such existing commitments are currently scheduled to terminate on December 31, 2025. Through participation with OUC, FMPA's estimated cost share of the existing purchases by project for the next five fiscal years is summarized below.

			00	0's US\$		
Project	2021	2022		2023	2024	2025

For the Year Ended September 30,2020

X. Commitments and Contingencies (continued)

B. Public Gas Partners, Inc.

Public Gas Partners, Inc. (PGP) is a nonprofit corporation of the State of Georgia, duly created and existing under the Georgia Nonprofit Corporation Code, O.C.G.A Sections 14-3-101 through 14-3-1703, as amended. Pursuant to its Articles of Incorporation and by-laws, PGP's purpose is to acquire and manage reliable and economical natural gas supplies through the acquisition of interests in natural gas producing properties and other long-term sources of natural gas supplies for the benefit of participating joint action agencies and large public natural gas and power systems.

On November 16, 2004, FMPA signed an agreement with six other public gas and electric utilities in five different states to form PGP. The initial members of PGP, along with FMPA, included Municipal Gas Authority of Georgia, Florida Gas Utility, Lower Alabama Gas District, Patriots Energy Group, Southeast Alabama Gas District and Tennessee Energy Acquisition Corporation. Florida Gas Utility has left the organization, and their interest was acquired by all members, except for FMPA and the Tennessee Energy Acquisition Corporation, as of May 2008. Lower Alabama Gas District has assigned its interest in each Pool to the Gas Authority effective October 2013.

FMPA has entered into two separate Production Sharing Agreements (PSAs) that obligate FMPA to pay as a component of gas operations expense its share of all costs incurred by the related PGP Pool until all related PGP or participant debt has been paid and the last volumes have been delivered. In addition, PGP has the option, with at least six month notice, to require FMPA to prepay for its share of pool costs, which may be financed by FMPA through the issuance of bonds or some other form of long-term financing. The PSAs include a step-up provision that could obligate FMPA to increase its participation share in the pool by up to 25% in the event of default by another member.

On November 1, 2004, FMPA entered into a PSA as a 22.04% participant of PGP Gas Supply Pool No. 1 (PGP Pool #1). PGP Pool #1 was formed by all of the participants. PGP Pool #1 had targeted an initial supply portfolio capable of producing 68,000 MMBtu per day of natural gas or 493 Bcf over a 20-year period. The acquisition period for PGP Pool #1 has closed after acquiring a supply currently estimated to be 140 Bcf. Current production from Pool #1 is approximately 10,428 MMBtu per day. FMPA's share of this amounts to 2,298 MMBtu per day.

On October 1, 2005, FMPA entered into a PSA as a 25.90% participant of PGP Gas Supply Pool No. 2 (PGP Pool #2). PGP Pool #2 was formed to participate in specific transactions that have different acquisition criteria than PGP Pool #1. PGP Pool #2 had a total expenditure limit of \$200 million, with FMPA's share being \$52 million as authorized by the Board (before step-up provisions which would increase ARP's commitment to a maximum of \$65 million). The other members of PGP Pool #2, along with FMPA, include Municipal Gas Authority of Georgia, Patriots Energy Group, Southeast Alabama Gas District and Tennessee Energy Acquisition Corporation. FMPA entered into a separate agreement with Fort Pierce Utilities Authority whereby FMPA agreed to sell to FPUA 3.474903% of the benefits that FMPA receives from its participation in PGP Pool #2. The acquisition period for PGP Pool #2 has closed after acquiring a supply currently estimated to be 42 Bcf. Current production for PGP Pool #2 is approximately 2,971 MMBtu per day. FMPA's share of this amounts to 742 MMBtu per day.

FMPA's share of the total investment costs amounts to approximately \$103 million for PGP Pool #1, and \$29 million for PGP Pool #2 as of September 30, 2020. During the prior fiscal year, the operating committees for Pool #1 and Pool #2 made the decision to sell the Pool 1 and 2 portfolios and close the Pools. Accordingly, the project was written down to the estimated future cash flows of the assets totaling \$16.5 million. Some sales were made during the current fiscal year and the current estimate of the remaining value of the pools exceeds the unamortized balance of \$9.0 million.

For the Year Ended September 30,2020

X. Commitments and Contingencies (continued)

C. Contractual Service Agreements

The All-Requirements Project has signed, or accepted assignment of, Contractual Service Agreements (CSAs) with General Electric International, Inc. (GE) for the Treasure Coast Energy Center, Cane Island 3 and Cane Island 4 combustion turbines, steam turbines and generators. The CSAs cover specified monitoring and maintenance activities to be performed by GE over the contract term, which is the earlier of a specified contract end date, or a performance end date based on reaching certain operating milestones of either Factor Fired Hours or Factored Starts on the combustion turbines. GE or FMPA may terminate the agreements for the breach of the other party. The defaulting party pays the termination amount based on the performance metric specified in the contract.

On March 31, 2016 Cane Island Unit 2 CSA was transitioned to a Managed Maintenance Program (MMP). The MMP does not have a factored starts or hours based payment, and maintenance is paid for at the time it's incurred at pre-negotiated discounts.

The following is a summary of the contract status.

	Treasure Coast	Cane Island Unit 2	Cane Island Unit 3	Cane Island Unit 4
Original Effective Date	1/30/2007	3/31/2016	12/12/2003	12/22/2010
Last Amendment Effective Date	11/21/2017		11/21/2017	11/21/2017
Cumulative Factor Fired Hours	99,509	95,683	129,456	70,090
Estimated Hours at Performance End Date	148,000		202,000	146,000
Current Termination Amount (000's USD)	\$1,671		\$2,520	\$2,831
Specified Contract End Date	11/21/2037	12/31/2019	11/21/2037	11/21/2037
Estimated Performance End Date	FYE 2026		FYE 2030	FYE 2029

In November 2017, FMPA and General Electric negotiated a revised CSA to combine Cane Island Units 3 & 4 and Treasure Coast under one service agreement.

D. Other Agreements

FMPA has entered into certain long-term contracts for transmission services for its projects. These amounts are recoverable from participants in the projects (except the All-Requirements Project) through the Power Sales and Project Support Contracts. FMPA has entered into Power Sales and Project Support Contracts with each of the project participants for entitlement shares aggregating 100% of FMPA's joint ownership interest. In the case of the All-Requirements Project, a Power Supply Contract was entered into providing for the participant's total power requirements (except for certain excluded resources). Revenues received under these individual project contracts are expected to be sufficient to pay all of the related project costs.

For the Year Ended September 30,2020

X. Commitments and Contingencies (continued)

D. Other Agreements (continued)

1. St. Lucie Project (continued)

- FMPA has entered into a Reliability Exchange Agreement and a Replacement Power Agreement with FPL. The Reliability Exchange agreement results in FMPA exchanging 50% of its share of the output from St. Lucie Unit 2 for a like amount from the St. Lucie Unit 1. This agreement's original expiration was on October 1, 2017. The Parties mutually agreed to extend the expiration date to October 1, 2022. The Replacement Power Agreement provides for replacement power and energy to be made available to FMPA if FPL voluntarily ceases to operate or reduces output from St. Lucie Unit 2 or St. Lucie Unit 1 for economic reasons or valley-load conditions, until each unit is retired from service or, in the case of St. Lucie Unit 1, if the Reliability Exchange Agreement terminates prior to the retirement date of that unit. Either party may terminate the agreement with 60 days written notice.
- The St. Lucie Project, a joint owner of St. Lucie Unit 2, is subject to the Price-Anderson Act, which limits the liability of nuclear reactor owners to the amount of insurance available from both private sources and an industry retrospective payment plan. In accordance with this Act, FPL maintains \$450 million of private liability insurance for the St. Lucie Plant, which is the maximum obtainable, and participates in a secondary financial protection system, which provides up to \$12.6 billion of liability insurance coverage per incident at any nuclear reactor in the U.S. Under the secondary financial protection system, St. Lucie Unit 2 is subject to retrospective assessments of up to approximately \$127.3 million, plus any applicable taxes, per incident at any nuclear reactor in the U.S., payable at a rate not to exceed approximately \$19.0 million per incident per year. FMPA is contractually liable for its ownership interest of any assessment made against St. Lucie Unit 2 under this plan.
- FPL further participates in a nuclear insurance mutual company that provides \$2.75 billion of limited insurance coverage per occurrence per site for property damage, decontamination, and premature decommissioning risks at the St. Lucie plant and a sublimit of \$1.5 billion for non-nuclear perils. The proceeds from such insurance, however, must first be used for reactor stabilization and site decontamination before they can be used for plant repair. FPL also participates in an insurance program that provides limited coverage for replacement power costs if St. Lucie Unit 2 is out of service for an extended period of time because of an accident. In the event of an accident at one of FPL's or another participating insured's nuclear plants, St. Lucie Unit 2 could be assessed up to approximately \$27 million, plus any applicable taxes, in retrospective premiums in a policy year. FPL is contractually entitled to recover FMPA's ownership share of any such assessment made against St. Lucie 2.
- On December 16, 1999, FMPA and J.P. Morgan Chase (formerly Chase Manhattan Bank) entered into a Forward Delivery Agreement for a portion of the St. Lucie Decommissioning Trust. The agreement provides that J.P. Morgan Chase deliver securities initially with a value not to be less than \$10,225,000 for an equivalent payment. Upon maturity, the securities and the yield earned along with any cash delivered by J.P. Morgan Chase will be equivalent to 7.03% of the face value of the Agreement.

For the Year Ended September 30,2020

X. Commitments and Contingencies (continued)

D. Other Agreements (continued)

2. All-Requirements Project

 FMPA supplies all of the wholesale power needs, unless limited to a contract rate of delivery, of the All-Requirements Project participants (except for certain excluded resources). In addition to its ownership facilities, FMPA has entered into interchange and power purchase contracts with minimum future payments as detailed below.

Suppl	lier	End of Contract	 nimum Contract Liability (000's US\$)
	on Clean Energy LLP - Stanton A PPA der Power Project LP, LLC - Unit 5 PPA	9/30/2023 12/16/2027	\$ 26,638 62,907
Tota	al Minimum Liability		\$ 89,545

- In October 2003, FMPA executed contracts for a \$10 million investment in a brine water processing plant and other water facilities at the Stanton Energy Center in Orlando, Florida.
- The Stanton Unit A combined cycle generator receives cooling water treatment services
 from the brine plant and associated facilities. The owners of Stanton Unit A (Stanton
 Clean Energy LLC (formerly Southern Company Florida), FMPA, KUA and Orlando Utilities
 Commission) pay the owners of Stanton Energy Center Units 1 and 2 (including FMPA's
 Stanton, Stanton II, Tri-City and All-Requirements Projects) a fixed and a variable
 operation and maintenance charge for services received from this facility.
- The All-Requirements Project has several commitments/entitlements for natural gas transportation services to supply fuel to its owned and leased generation facilities. Below were the current commitments/entitlements during the past year.

Pipeline	Ave Daily Volume mmBtu/day)		nual Cost 00's US\$)	Expiration	Primary Delivery/Receiving Point

 The All-Requirements Project has entered into a storage contract with SG Resources Mississippi LLC, for 1 million MMBtu of storage capacity in the Southern Pines Storage facility. The contract was effective August 1, 2008, for storage capacity of 500,000 MMBtu and revised April 1, 2011, to increase the storage capacity by 500,000 MMBtu. The contract expired July 31, 2019, for 500,000 MMBtu and will expire March 31, 2021, for the remaining 500,000 MMBtu.

For the Year Ended September 30,2020

X. Commitments and Contingencies (continued)

D. Other Agreements (continued)

2. All Requirements (continued)

- The All-Requirements Project is under a contractual arrangement to have generation facilities in Key West, Florida, at a minimum level of 60% of the island utility's weather normalized annual peak capacity requirements. With installed capacity of 112 MW located in the Key West service territory, the All-Requirements Project believes it has sufficient existing generating capacity to fulfill the 60% on-island generation requirement well beyond the next decade.
- FMPA has entered into the Florida Municipal Power Pool (FMPP) Agreement, as amended, with the FMPP members. Pursuant to Amendment 7 the most recent Amendment, executed November of 2020 the term of the agreement is three years, with automatically-renewed three-year term extensions. Any party wishing to withdraw from the agreement must provide at least three years notice to the other FMPP members. The FMPP Agreement documents, among other things, how FMPP operating costs are accounted for and allocated among the members, and liability between the FMPP members.
- In 2020 Florida Gas Utilities (FGU), on behalf of the All-Requirements Project (ARP), entered into thirty-year natural gas supply agreements with the Black Belt Energy Gas District (Black Belt Energy) and the Municipal Gas Authority of Georgia (MGAG) for the purchase of specified amounts of natural gas at discounted prices that FGU expects to supply to the ARP. The ARP's weighted average discount from the transactions involving MGAG is \$0.32 per MMBtu on 13,250 MMBtu per Day. The ARP's weighted average discount from the transactions involving Black Belt Energy is \$0.32 per MMBtu on 10,000 MMBtu per day.
- The All Requirements Project has signed contracts with Fort Pierce Utilities Authority (FPUA), Kissimmee Utility Authority (KUA) and Keys Energy Services (KES) to operate and maintain Treasure Coast Energy Center, Cane Island Power Park and Stock Island generation facilities, respectively. The contracts provide for reimbursement of direct and indirect costs incurred by FPUA, KUA and KES, for operating the plants. The All-Requirements Project, in consultation with FPUA, KUA and KES, sets staffing levels, operating and capital budgets, and operating parameters for the plants.
- In the amended and Restated Agreement Concerning Delivery and Use of treated Sewage Effluent with Toho Water Authority for the Cane Island Site dated September 24, 2008, in the event that peak demand requires the addition of some increased storage capacity for reclaimed water, FMPA will financially assist Toho Water Authority in the construction of reclaimed water storage to assist in providing the projected peak demand. Toho Water Authority and FMPA have separately agreed that the cost of such reclaimed water storage shall not exceed \$2 million. In October 2019, TOHO called on and FMPA paid the \$2 million financial assistance.
- The City of Vero Beach sold their system to Florida Power and Light and for a payment of \$105.4 million the All-Requirements Project assumed Vero Beach's Power Project Entitlement Shares and has transferred remaining liability for 32.521%, 16.489% and 15.202% of Vero's participant entitlement shares of the Stanton, Stanton II and St. Lucie Projects, respectively.
- The City of Starke has given FMPA notice pursuant to Section 2 of the All-Requirements Power Supply Project Contract that the term of their contracts will stop automatically renewing each year. The terms of their contract is now fixed and terminates on September 30, 2035.

For the Year Ended September 30,2020

X. Commitments and Contingencies (continued)

- D. Other Agreements (continued)
 - 2. All Requirements (continued)
 - The City of Lake Worth has limited its All-Requirements Service to a contract rate of delivery (CROD), as permitted in Section 3 of the All-Requirements Power Supply Contract. The limitation commenced January 1, 2014. The amount of capacity and energy the City is obligated to purchase under this conversion of their contract was determined to be zero in December 2013. Additionally, effective January 1, 2014, the Capacity and Energy Sales Contract between the City and FMPA terminated.
 - The City of Fort Meade has limited its All-Requirements Service to a (CROD), as permitted in Section 3 of the All-Requirements Power Supply Contract. The limitation commenced January 1, 2015. Based on the city's usage between December 2013 and November 2014, and Executive Committee action in December 2014, the maximum hourly obligation was established at 10.360 MW. Concurrently with its notice of limitation, the City gave FMPA notice pursuant to Section 2 of the All-Requirements Power Supply Contract that the term of its contract will stop renewing automatically each year. The term of the City's contract is now fixed and will terminate on October 1, 2041. In March 2020, FMPA and Fort Meade entered into a Supplemental Power and Ancillary Services Agreement (Fort Meade Supplemental Agreement). Effective September 1, 2019, the ARP now serves Fort Meade with any additional power needed to serve its total requirements above its St. Lucie Project entitlement and CROD.

The ARP also provides Fort Meade with transmission and ancillary services as if CROD had not been implemented. The effect of this arrangement is that Fort Meade is served and billed as if it was a full-requirements ARP Participant. The initial term of the Fort Meade Supplemental Agreement runs through September 30, 2027 and includes 5-year automatic renewals until the termination of Fort Meade's ARP contract. Concurrent with the approval of the Fort Meade Supplemental Agreement, the Executive Committee approved a reduction of Fort Meade's CROD amount from 10.360 MW to 9.009 MW. If the Fort Meade Supplemental Agreement is terminated prior to the termination of Fort Meade's ARP contract, Fort Meade will be served at the lower CROD amount.

- Green Cove Springs notified FMPA of its election to limit its All-Requirements Service, as permitted in Section 3 of the Power Supply Contract, to a CROD. Beginning January 1, 2020 and continuing for the term of the Power Supply Contract, the All-Requirements Power Supply Project will serve Green Cove Springs with a maximum hourly obligation which was calculated in December 2019 as 23.608 MW. Green Cove Springs has also given FMPA notice pursuant to Section 2 of the Power Supply Contract that the term of its contract will not automatically renew each year and the term of Green Cove Springs' contract is now fixed and will terminate on October 1, 2037. In 2019, Green Cove Springs approved a supplemental power sales agreement with the All-Requirements Power Supply Project, for a minimum of 10 years, such that the All-Requirements Power Supply Project will provide capacity and energy to Green Cove Springs as if Green Cove Springs had not effectuated CROD. The agreement may be extended beyond the initial 10-year term.
- The All-Requirements Project has entered into power sales agreement with the following cities with the indicated capacity and time periods indicated:

City of Bartow, 20 MW peaking power, expires 2020.

City of Bartow, full power supply requirements of approximately 65 MWs from 2021 through 2022.

City of Winter Park, 10MW base load power supply through 2019.

City of Winter Park, partial requirements of about 70MW from 2020 through 2027.

City of Homestead, partial requirements of 15MW from 2020 through 2026.

Other short-term sales for which the Project does not receive a capacity payment.

 During 2008, the All-Requirements Project entered into a Revised, Amended and Restated Capacity and Energy Sales Contract for KUA whereby the All-Requirements Project has assumed all cost liability and operational management of all KUA-owned generation assets and will pay to KUA agreed-upon fixed payments over preset periods

For the Year Ended September 30,2020

X. Commitments and Contingencies (continued)

- D. Other Agreements (continued)
 - 2. All Requirements (continued)
 - relating to each asset. On July 1, 2019 the agreement was amended to extend payments on the assets due to anticipated extension of the operating life of the assets.
 - Effective January 1, 2011, the All-Requirements Project entered into a Revised, Amended and Restated Capacity and Energy Sales Contract for Key West whereby the All-Requirements Project has assumed all cost liability and operational management of all Key West owned generation assets and will pay to Key West fixed annual payments of \$670,000 each January 1 from 2011 through 2020. The revised, amended, and restated contract provides the All-Requirements Project the right to retire Keys generation assets at any time during the term of the contract, subject to the 60% on-island capacity requirement, without shortening the fixed payment term.
 - In December 2018, FMPA received notice pursuant to Section 768.28, Florida Statutes, of an intent to file suit against FMPA for unspecified personal injuries relating to FMPA's interest as a co-owner of the Stanton Energy Center. OUC and KUA also received similar notices. A lawsuit was filed against OUC in state court on December 20, 2018. Seeking class action status, the suit alleges certain property damage and takings claims due to pollution; the suit was removed to federal court, and the plaintiffs have failed to achieve class certification. On November 18, 2020 the US District Court dismissed the case with prejudice.
 - In the normal course of its business, FMPA has had claims or assertions made against it.
 In the opinion of management, the ultimate disposition of these currently asserted claims is either not substantiated or will not have a material impact on FMPA's financial statements.

E. Solar Project

In March 2019, the FMPA Board of Directors approved the formation of the Solar Project, as a sixth FMPA power supply project, and for which FMPA approved a 20-year power purchase agreement for 57 MW-AC of solar energy on behalf of its participants as of the solar facilities' commercial operation date, which is expected to be in Summer of 2023. Also, in March 2019, the FMPA Executive Committee approved a 20-year power purchase agreement (among other enabling agreements) for a total of 58 MW-AC of solar energy as an ARP resource. In coordination with these new endeavors, the Board of Directors has authorized the creation of a Solar Project Committee, which will be advisory to the Board of Directors on matters involving the Solar Project, and the Executive Committee has authorized the creation of an ARP Solar Project Advisory Committee, which is an Executive Committee subcommittee that will address matters involving ARP participants who have committed to pay for the costs of the ARP solar power purchase. Commercial operations began late June 2020 for the All-Requirements Project first solar facility.

F. Covid-19

The outbreak of COVID-19, a respiratory virus which was first reported in China, has since spread to other countries, including the United States, and is considered a Public Health Emergency of International Concern by the World Health Organization. On April 1, 2020, the Governor issued a mandatory "safer at home" order for the entire State which was effective from April 3, 2020 through April 30, 2020. Subsequently phased reopenings began allowing for businesses to open. Many cities and counties where Participants are located have issued a number of emergency orders that supplement and are, in some cases, more restrictive than the Governor's Orders.

As a result of COVID-19, the Agency has implemented precautionary measures including limiting access to plants, restricting access to control rooms, requesting operators limit travel, prepping plant and staff for quarantine, and screening contractors coming onsite with questionnaires and thermal scans. Some of the Agency's Members have implemented suspended disconnects, provided flexible payment plans, waived late payment fees, supported financial assistance programs for customers, and referred customers to federal, state, and local assistance programs.

FMPA 2020 Annual Report • 48

For the Year Ended September 30,2020

X. Commitments and Contingencies (continued)

F. Covid-19 (continued)

While the effects of COVID-19 may be temporary, it has altered the behavior of businesses and people in a manner resulting in negative impacts on global and local economies. Due to the unprecedented nature of the spread of COVID-19, the duration and extent of the impact of COVID-19 on FMPA's revenues, expenses and cash flow or ratings are uncertain and cannot be quantified at this time. Although not all impacts on FMPA are known at this time, all FMPA's Members are current with their payments to FMPA and for the year ended September 30, 2020 sales were above budget by 2.0%. FMPA will continue to monitor the impacts of COVID-19 and will address such impacts, as necessary.

XI. Mutual Aid Agreement

The All-Requirements Project has agreed to participate in a mutual aid agreement with six other utilities for extended generator outages of defined base-load generating units. The parties of this agreement are the city of Tallahassee, Gainesville Regional Utilities, JEA, Lakeland Electric, Orlando Utilities Commission, and Municipal Electric Authority of Georgia. The All-Requirements Project has designated 120 MWs of Cane Island Unit 3, 140 MWs of Cane Island 4, and 200 MWs of the Treasure Coast Energy Center, 60 MW of Stanton Unit 1, and 60 MW of Stanton Unit 2. In the case of a qualifying failure, the All-Requirements Project will have the option to receive either 50% or 100% of the replacement of the designated MWs of the failed unit. The cost of replacement energy will be based on an identified gas index or coal index and heat rate in the agreement. In the event of any extended outage from any other participant, the All-Requirements Project would provide between 10 MWs and 53 MWs (based on the designation of the participant) for a maximum of nine months. The agreement term automatically renewed on October 1, 2017, and now has a term lasting until October 1, 2022, unless FMPA (1) has not received energy under the agreement during the current term, and (2) provides at least 90 days' notice prior to the end of the current term that it does not elect to renew it participation.

XII. Employment Benefits

A. Retirement Benefits

A Deferred Compensation Plan (in accordance with the Internal Revenue Code Section 457) and a Defined Contribution (money purchase) Plan (under the Internal Revenue Code Section 401(a)) are offered to the Agency's employees who are scheduled to work more than 1700 hours per year. The plan was established by the Board of Director's in 1984 and the Board of Directors has the authority to amend the plan. FMPA's contribution is 10% of the employee's gross base salary for the 401(a) plan. Total payroll for the year ended September 30, 2020, was \$7.99 million, which approximates covered payroll. The 401(a) defined contribution plan has 71 active members with a plan balance.

The Agency's contribution may be made to either plan at the discretion of the employee. Additionally, an employee generally may contribute to the Deferred Compensation Plan, so that the combined annual contribution does not exceed the IRS annual maximum. Assets of both plans are held by ICMA Retirement Corporation, the Plan Administrator and Trustee.

Agency contributions to the Defined Contribution Plan resulted in expenses for the fiscal year 2020 of \$797,607. Funds from these plans are not available to employees until termination or retirement, however funds from either plan can be made available, allowing an employee to borrow up to the lower of \$50,000 or one half of their balance in the form of a loan.

For the Year Ended September 30,2020

XII. Employment Benefits (continued)

B. Post-Employment Benefits other than Retirement

The Agency's Retiree Health Care Plan (Plan) is a single-employer defined benefit post-employment health care plan that covers eligible retired employees of the Agency. The Plan, which is administered by the Agency, allows employees who retire and meet retirement eligibility requirements to continue medical insurance coverage as a participant in the Agency's plan. As of September 30, 2019 and 2020, the plan membership consisted of the following participants:

	September 30, 2019	September 30, 2020
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	15	16
Inactive Plan Members Entitled to But Not Yet Receiving Benefits	0	0
Active Plan Members	17	16
	32	32

The Agency pays 100% of the cost of employee-only coverage for employees hired prior to October 1, 2004 who retire upon meeting the retirement eligibility requirement, which is that age combined with service must exceed 900 months. This subsidy applies to the healthcare plan premiums for Pre-65 retirees as well as any Medicare supplement plan purchased by Post-65 retirees.

The Agency also provides up to \$3,000 in HRA funds to all eligible members for life. If those members elect to cover their spouse or have handicapped dependents, the HRA benefit limit is increased to \$6,000. These funds are made available to cover retirees' out-of-pocket medical expenses, and therefore are included in the Agency's Pay-As-You-Go plan costs.

Employees hired after October 1, 2004 are ineligible for any Agency subsidies, nor are they allowed to continue to participate in the plan after retirement.

No implicit benefit was valued in this valuation.

The measurement date is September 30, 2020. The measurement period for the OPEB expense was October 1, 2019 to September 30, 2020. The reporting period is October 1, 2019 through September 30, 2020. The Sponsor's Total OPEB Liability was measured as of September 30, 2020.

The Sponsor's Total OPEB Liability for The Agency's ledger adjustment was measured as of September 30, 2020 using a discount rate of 2.14%.

Actuarial Assumptions:

Total OPEB Liability for The Agency's ledger adjustment was measured as of September 30, 2020 using a discount rate of 2.14%.

The Total OPEB Liability was determined by an actuarial valuation as of September 30, 2020 (measurement date) using the following actuarial assumptions:

Inflation	2.50%
Salary Increases	2.50%
Discount Rate	2.14%
Initial Trend Rate	7.00%

For the Year Ended September 30,2020

XII. Employment Benefits (continued)

B. Post-Employment Benefits other than Retirement (continued)

Ultimate Trend Rate 4.00% Years to Ultimate 54

For all lives, mortality rates were RP-2000 Combined Healthy Mortality Tables projected to the valuation date using Projection Scale AA.

Discount Rate:

Given the Agency's decision not to establish a trust for the program, all future benefit payments were discounted using a high-quality municipal bond rate of 2.14 %. The high-quality municipal bond rate was based on the week closest but not later than the measurement date of the S&P Municipal Bond 20 Year High Grade Rate Index as published by S&P Dow Jones Indices. The S&P Municipal 20 Year High Grade Rate Index consists of bonds in the S&P Municipal Bond Index with a maturity of 20 Years. Eligible bonds must be rated at least AA by Standard and Poor's Ratings Services, Aa2 by Moody's, or AA by Fitch. If there are multiple ratings, the lowest rating is used. *OPEB Expense:*

For the year ended September 30, 2020, the Agency will recognize OPEB Cost of \$859 thousand.

(000's US\$)	
Fiscal Year Ending	9/30/2020
Service Cost	\$ 56
Interest	201
Recognition of Changes in Total OPEB Liability	599
Administrative Expenses	3
Total OPEB Expense/(Revenue)	\$ 859

Total OPEB Liability as of the Measurement Date is:

Description	(00	0's US\$) Amount
Reporting Period Ending September 30, 2019	\$	5,668
Service Cost		56
Interest		201
Difference Between Expected and Actual Experience		(74)
Changes in Assumptions		674
Changes of Benefit Terms		-
Contributions - Employer		-
Benefits Payments		(253)
Other Changes		-
Reporting Period Ending September 30, 2020	\$	6,272

Changes of assumptions reflect a change in the discount rate from 3.58% for the reporting period ended September 30, 2019 to 2.14% for the reporting period ended September 30, 2020. Also reflected as assumption changes are updated health care costs and premiums based on plan experience and premiums in effect for the 2020 fiscal year, and updated health care cost trend rates.

NOTES TO FINANCIAL STATEMENTS

For the Year Ended September 30,2020

XII. Employment Benefits (continued)

B. Post-Employment Benefits other than Retirement (continued)

Sensitivity of the Total OPEB Liability to changes in the Discount Rate:

The following presents the Total OPEB Liability of the Agency, as well as what the Agency's Total OPEB Liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current discount rate:

		Current	
_	1% Decrease	Discount Rate	1% Increase
	1.14%	2.14%	3.14%
Total OPEB Liability (000's US\$)	\$ 7,226	\$ 6,273	\$ 5,493

Sensitivity of the Total OPEB Liability to changes in the Healthcare Cost Trend Rates:

The following presents the Total OPEB Liability of the Agency, as well as what the Agency's Total OPEB Liability would be if it were calculated using healthcare cost trend rates that are one percentage-point lower or one percentage-point higher than the current healthcare cost trend rates:

		Healthcare Cost	
	1% Decrease	Trend Rates	1% Increase
	3.00% - 6.00%	4.00% - 7.00%	5.00% - 8.00%
Total OPEB Liability (000's US\$)	\$5,724	\$ 6,273	\$ 6,933

Under GASB 75 as it applies to plans that qualify for the Alternative Measurement Method, changes in the Total OPEB Liability are not permitted to be included in deferred outflows of resources or deferred inflows of resources related to OPEB. These changes will be immediately recognized through OPEB Expense.

As of September 30, 2020, the most recent valuation date, the Total OPEB Plan Liability was \$6.3 million, and assets held in trust were \$0, resulting in a funded ratio of 0 percent. The covered payroll (annual payroll of active participating employees) was \$2.1 million, and the ratio of the Total OPEB Plan Liability to the covered payroll was 295 percent.

The OPEB Plan contribution requirements of Florida Municipal Power Agency are established and may be amended through action of its Board of Directors.

XIII. Risk Management

The Agency is exposed to various risks of loss related to torts, theft, damage and destruction of assets, errors and omissions, injuries to employees and the public and damage to property of others. In addition, FMPA enters into contracts with third parties, some of whom are empowered to act as its agents in order to carry out the purpose of the contracts.

These contracts subject FMPA to varying degrees and types of risk. The Agency has purchased commercial insurance that management believes is adequate to cover these various risks. FMPA has elected to self-insure the Agency's risk for general liability. It is the opinion of general counsel that FMPA may enjoy sovereign immunity in the same manner as a municipality, as allowed by Florida Common Law. Under such Florida Law, the limit of liability for judgments by one person for tort is \$200,000 or a maximum of \$300,000 for the same incident or occurrence. At no point have settlements exceeded coverage in the past two fiscal years.

The Agency has established a Finance Committee (FC) made up of some of FMPA's Board of Directors and member's representatives and has assigned corporate risk management to its Treasurer and Risk Director. The Treasurer and Risk Director is designated the Agency's Risk Manager, and oversees the Risk Management Department, which reports to the Chief Financial Officer. The objective of the Agency's Enterprise Risk Management program is to identify measure, monitor and report risks in order to minimize unfavorable financial and strategic impacts.

FMPA's Risk Management Policy addresses key risk areas including, but not limited to, fuel, generation, debt, investment, insurance, credit, and contracts.

FMPA 2020 Annual Report • 52

NOTES TO FINANCIAL STATEMENTS

For the Year Ended September 30,2020

XIV. Related Party Transactions

A. Governing Members and Committees

Each of the members of FMPA appoints a director and one or more alternatives to serve on FMPA's Board of Directors. Tallahassee joined the Agency effective October 19th, 2018 and Vero Beach left the Agency on December 17, 2018 leaving 31 members of the Agency. The Board has responsibility for developing and approving FMPA's non All-Requirements Project budgets, hiring of the General Manager and General Counsel and establishing the Agency's bylaws, which govern how FMPA operates and the policies which implement such bylaws. The Board also authorizes all non-All-Requirements Project debt issued by FMPA and allocates the Agency Fund burden to each of the Projects. The Board elects an Agency Chairman, Vice-Chairman, Secretary and Treasurer.

The Executive Committee consists of representatives from the 13 active members of the All-Requirements Project. The Executive Committee elects a Chairman and Vice-Chairman. The Board's Secretary and Treasurer serve in the same capacity on the Executive Committee. The Executive committee has sole responsibility for developing and approving FMPA's Agency Fund and All-Requirements Project budgets, and authorizes all debt issued by the All-Requirements Project.

In order to facilitate the project decision-making process, there are project committees for the St. Lucie, Stanton, Stanton II, and Tri-City Projects which are comprised of one representative from each participant in a project. The project committees serve in an advisory capacity, and all decisions concerning the project are decided by the Board of Directors, except for the All-Requirements Project, in which all decisions are made by the Executive Committee.

The Board of Directors has authorized the creation of a Solar Project Committee, which will be advisory to the Board of Directors on matters involving the Solar Project. The Executive Committee has authorized the creation of an ARP Solar Project Advisory Committee, which is an Executive Committee subcommittee that will address matters involving ARP participants.

B. Florida Gas Utility (FGU)

The All-Requirements Project has a contractual agreement to purchase natural gas from Florida Gas Utility (FGU), which accounts for approximately 80-85% of FGU's total throughput of natural gas. FMPA and the following member cities have representatives on the FGU Board of Directors: Ft. Pierce, KUA, Leesburg and Starke.

Agency's Net OPEB Liability as a % of Covered Employee Payroll		295%		244%		241%							
					* GASB Statement 75 was implemented as of September 30, 2018. Information from 2009 - 2017 is not available and this schedule will be presented on a prospective basis.								

Notes to Schedule:

Changes of Assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The following are the discount rates used in each period:

Fiscal Year Ending September 30, 2020: 2.14% Fiscal Year Ending September 30, 2019: 3.58% Fiscal Year Ending September 30, 2018: 4.18%

See footnote XII.B for further information.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors and Executive Committee Florida Municipal Power Agency Orlando, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities and each major fund of the Florida Municipal Power Agency (the Agency), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated December 23, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Agency's financial statements will not be prevented, or detected, and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

Board of Directors and Executive Committee Florida Municipal Power Agency Orlando, Florida

Report on the Financial Statements

We have audited the financial statements of the Florida Municipal Power Agency (the Agency), as of and for the fiscal year ended September 30, 2020, and have issued our report thereon dated December 23, 2020.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and Chapter 10.550, *Rules of the Florida Auditor General*.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent Accountant's Report on an examination conducted in accordance with AICPA Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General*. Disclosures in those reports, which are dated December 23, 2020, should be considered in conjunction with this Management Letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Noted no prior year management letter comments.

Official Title and Legal Authority

Section 10.554(1)(i)4, Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this Management Letter, unless disclosed in the notes to the financial statements. This information has been disclosed in Note I of the Agency's September 30, 2020, financial statements. There are no component units related to the Agency.

MANAGEMENT LETTER

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Agency has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the Agency did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures for the Agency. It is management's responsibility to monitor the Agency's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same. Our audit noted no findings of deteriorating financial condition, required to be reported.

Section 10.554(1)(i)2., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate non-compliance with provisions of contracts or grant agreements, or abuse, that have occurred or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our Management Letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other applicable agencies, the Agency's Executive Committee, the Board of Directors and the Finance Committee and applicable management, and is not intended to be, and should not be, used by anyone other than these specified parties.

We wish to take this opportunity to thank you and your staff for the cooperation and courtesies extended to us during the course of our audit. Please let us know if you have any questions or comments concerning this letter, our accompanying reports, or other matters.

PURVIS GRAY

INDEPENDENT ACCOUNTANT'S REPORT

Board of Directors and Executive Committee Florida Municipal Power Agency Orlando, Florida

We have examined Florida Municipal Power Agency's (the Agency) compliance with Section 218.415, Florida Statutes, during the fiscal year ended September 30, 2020. The Agency's management is responsible for the Agency's compliance with those requirements. Our responsibility is to express an opinion on the Agency's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Agency complied, in all material respects, with the requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Agency complied with the specified requirements. The nature, timing, and extend of the procedures selected depend on our judgment, including an assessment of the risks of material non-compliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Agency's compliance with specified requirements.

In our opinion, the Agency complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2020.

This report is intended solely for the information and use of the Florida Auditor General, the Agency's Executive Committee, the Board of Directors, and the Finance Committee, and applicable management, and is not intended to be, and should not be, used by anyone other than these specified parties.

AGENDA ITEM 9 – INFORMATION ITEMS

a. Quarterly HR Report

Board of Directors Meeting January 21, 2021

9a - HR Quarterly Report

Board of Directors
January 21, 2021

COVID –19 Efforts

- Majority of team members worked from home March 13 June 1
- All Team members returned to office by July 6
- Weekly Team Meetings with all staff during that time to communicate updates
- Only four team members have tested positive
 - Two Orlando team members, two not in the Orlando office
 - No infections from office activity
- Assisted local community financially that were impacted by COVID-19
 - Food drive
 - Sponsored families through Harbor House

Highlights for 2020

- Follow-up Pulse Survey engagement increased by 7%
- Named Top Employer for Central Florida with special recognition for Benefits
- Development Opportunities 10 team members in eight departments
- Leadership Team completed 12-month professional development training
- Employee Appreciation Week with emphasis on all team members participating in team-building activity
- Six-month one-on-one coaching/360 training for five managers completed
- Increased wellness activities, awareness and mindfulness
- No FMLA due to chronic medical condition for first time in many years

On Going Efforts and Focus for Year

- Develop and implement development plans for team members
- One-on-one coaching and 360 training for six Director/Managers
- Diversity and inclusion awareness
- Complete compensation study by October 1, 2021
- FMPA Fleet Team succession planning for power plants and FMPA
- Action items from strategic planning workshop
- Continue to allocate resources as needed
- Continue to monitor developments with COVID

AGENDA ITEM 9 – INFORMATION ITEMS

b. Solar Project Update

Board of Directors Meeting January 21, 2021

9b – Solar Project Update

Board of Directors January 21, 2020

Solar Operations and Development

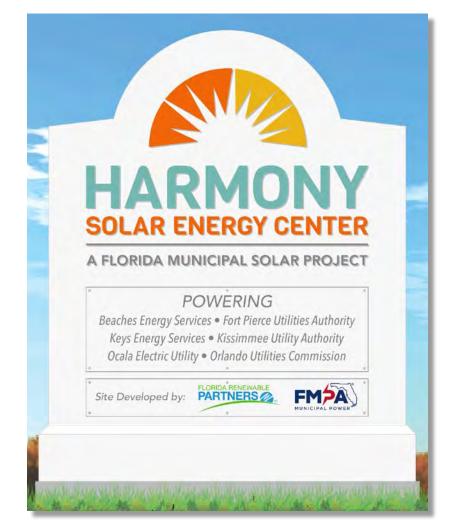

Phase I and Phase II on Target

- Phase I Operations (223.5 MW)
 - Harmony and Taylor Creek Production 2020
 - 185,000 MWh Total (50,000 MWh ARP)
 - Poinsett Development June 2023 COD
 - LGIA negotiation in progress with DEF
 - All permits received, extended and renewed thru 2025
- Phase II Development (149.8 MW)
 - Rice Creek and Whistling Duck Dec 2023 COD
 - Transmission studies in progress
 - Permitting expected to begin Q1 2021

FMPA Team Working on Solar Activities

- Phase I and Phase II committee meetings
 - General update
 - Establish Phase II chairs and charters
- Site signage
- Harmony site tour
- Renewable energy credits
- Energy monitoring website development

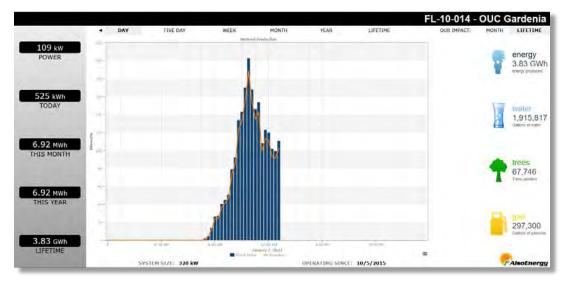

Energy Monitoring Website

Real Time Energy Generated

- FMSP solar generation with participant shares
- Current and lifetime stats
- Environmental benefits

Development Fund Expenditures to Date

\$1.2 Million Approved by Board of Directors

• \$200,000 initial authorization, \$1 million in October 2019

Purpose	Participants	Expenditures
Initial expenditure	ARP and Solar Project	\$135,000 (\$0.024/MWh)
Legal support for FERC filing	ARP and Solar Project	\$108,000 (\$0.019/MWh)
Harmony interconnection	ARP	\$870,000 (\$0.438/MWh)
Legal support for NextEra filing	TBD	\$TBD
Total		\$1,113,000

NextEra Market Based Rate Filings

- NextEra belief that PPAs are PURPA transactions, exempt from MBR requirements
- October 30, 2020 NextEra initial MBR filing
 - Requests blanket market-based rates for Harmony and Taylor Creek
 - Includes showing NextEra affiliates (i.e., FPL) pass market power tests
- December 10, 2020 FMPA/OUC Protest of initial MBR filing
 - Requests FERC consider contract-specific MBR; not blanket MBR authority
- January 8, 2021 (expected) NextEra amended contract-specific MBR filing
- Next Steps
 - Awaiting NextEra amended filing and FERC action
 - Hold harmless agreement

AGENDA ITEM 9 – INFORMATION ITEMS

c. CO₂ Reduction Opportunities and Challenges

Board of Directors Meeting January 21, 2021

9c – CO₂ Reduction Opportunities and Challenges

Board of Directors January 21, 2021

Elements of President Biden's Plan for Clean Energy Future Very Aggressive Reduction in CO₂ Emissions

- Power Sector: Achieve a carbon-free power sector by 2035
- Innovation: Invest in clean energy technologies, including battery storage, negative emissions technologies, next generation building materials, renewable hydrogen, and advanced nuclear
- Auto Industry: Incentives for consumers and manufacturers to invest in zero-emission vehicles; public investment in EV infrastructure
- Transit: Invest in zero-emission public transportation

CO₂ from China & India Offset Declines from U.S. & EU

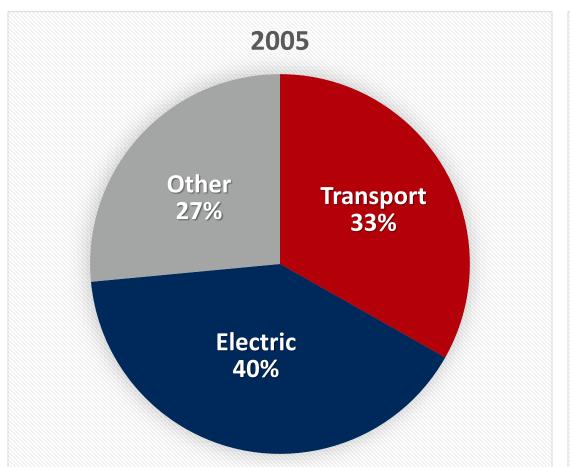

U.S. Emissions Declined ~17% Since 2000, Back to 1990 Level

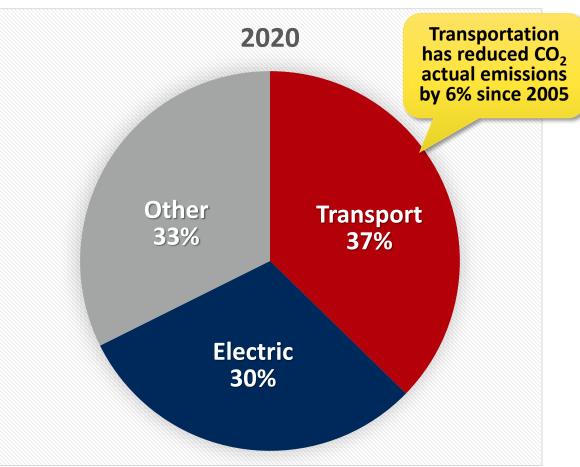

CO₂ Emissions by Territory Metric tons of carbon dioxide, in millions China 12,000 (+170%) U.S. *power sector* emissions India (+112)% 10,000 declined ~35% since 2005 by moving from coal to gas and increased renewables. (SOURCE: EIA) 8,000 6,000 4,000 2,000 0 1980 1990 2000 2019 2020

CO₂ Reductions

20% cost increases

using natural gas generation for reliability and peaking, solar power increases, some additional battery storage 97%

CO₂ Reductions

75% cost increases

with significant solar power plus battery backup with natural gas only available for emergency use

100%

CO₂ Reductions

250% cost increases

with significant amounts of new solar plus dramatic increase in battery capacity to provide days of reserves for cloudy periods

Reliable Power Critical for Customers and Economy Thought of Removing All Fossil Generation by 2035 a Tall Task

- Customers and our economy need utilities to provide adequate electricity during all types of weather, not just when the sun shines
- Ensuring reliability requires backup capacity that is available 24/7
- To remove all fossil generation by 2035 would be a tall task and extremely costly for consumers
- In the future, some fossil capacity more than likely necessary as backup rather than primary generation

In Conclusion

FMPA Working on a Clean Energy Transition

Our Goal: 50% Reduction in CO₂ from 2005 Levels by 2027

- FMPA aiming for a 50% reduction in CO₂ from 2005 levels by 2027 in a manner that balances electricity cost and reliability
 - In 2027, FMPA will be ~80% clean burning natural gas and ~20% carbon-free generation
- Increasing CO₂ reductions beyond 50% requires much more solar, along with notable investment in electric transmission
- Moving beyond 70% CO₂ reduction requires even more solar and introduction of meaningful but costly battery storage to retain reliable grid power supply
 - Solar additions have significant land-use impacts in several interior counties in Florida
- Step-function improvement in batteries necessary to make additional CO₂ reductions affordable

As Congress Contemplates a Clean Energy Future: How Much Can Consumers Afford for More CO₂ Reductions?

Set Realistic CO₂ Reduction Targets

- CO₂ reductions from electric sector on a path for significant reductions by 2027 without dramatic power cost increases that create hardships for customers
- Florida has limited CO₂ reduction options other than solar and battery storage
- Further CO₂ reduction targets must consider impacts on power costs to consumers
- Goal of a carbon-free power sector by 2035 extremely aggressive

Provide Federal Incentives for Innovation

- National R&D investment in lower-cost, more-efficient batteries
- Federal funding for modular nuclear reactors, lower-cost solar and hydrogen
- Advances in air conditioning efficiency and controls to enhance energy conservation

AGENDA ITEM 9 – INFORMATION ITEMS

d. 2020 SolarWinds Cyber Security Incident

Board of Directors Meeting January 21, 2021

9d – 2020 SolarWinds Cybersecurity Incident

Board of Directors January 21, 2021

What Happened?

- Suspected nation state sponsored threat actors, probably Russian,
 compromised a popular computer system management tool software
- Software used by many companies, including U.S. government agencies, critical infrastructure entities and private sector organizations
- Investigations ongoing; evidence currently dates to October 2019
- Industry became widely aware of the compromise around December 13, 2020

What Was the Motive?

- Many speculations no clear answers due to the nature of this being state sponsored
- Currently understood that over 40 companies were victims, including Microsoft, Cisco, hospitals and many U.S. government agencies, Department of Justice email accounts compromised
- No utilities publicly known to have been targeted, activity was found at FERC (no details released to date) and evidence of activity with Kanas City Power and Light exists in open-source data

How Does This Impact Us?

- The systems many rely on for detection are inadequate, prompting the need for additional (better) security controls
- Previous warnings from various influential agencies, such as GAO, advised agencies they should take this more seriously, which may now give a path to additional regulation
- Attack was so sophisticated that no current supply-chain standards would have had an effect on the compromise
- Previous Executive Orders have focused on specific companies in China, future ones might address all threats globally

What Should We Do?

- Think about your utility's ability to respond to these kinds of complex attacks; attackers will only grow in capability and maturity
- Ensure your utility participates in information sharing and support groups, such as the E-ISAC, MS-ISAC and CMA
- Highly encourage participating in Cyber Mutual Assistance (CMA)
- FMPA can help you understand your exposure
- ESCC stood up a Tiger Team to interpret the latest events, support development of actionable information, and inform mitigation strategies to support a coordinated response across the sector
- Participate in FMPA & APPA calls and groups, as appropriate

What has FMPA done?

- FMPA was using SolarWinds, but did not have indicators of compromise
 - Ran multiple tools from many vendors, all negative results
- Asked by APPA to be the technical lead to answer questions on their CEO/CISO briefing call
- Participating in the ESCC's Tiger Team dedicated to providing unity of message and unity of guidance on the SolarWinds issue
- One of two utilities asked to participate on the E-ISAC call discussing any remediation efforts performed to date

Ways FMPA Can Help

- Assist in evaluation of impact from SolarWinds
 - Guide your utility to existing resources
 - Have IT staff run tools designed to search for indicators of compromise
- If your utility uses SolarWinds product, discuss mitigation strategies
- Perform IT & OT system security assessments to evaluate your security posture
- Contact Carter Manucy (<u>Carter.Manucy@fmpa.com</u>) or Luis Cruz (<u>Luis.Cruz@fmpa.com</u>) to discuss details

AGENDA ITEM 10 – MEMBER COMMENTS

Board of Directors Meeting January 21, 2021

AGENDA ITEM 11 – ADJOURNMENT

Board of Directors Meeting January 21, 2021
