Liyuan Woerner, Audit Manager Ryan Dumas, Senior Public Relations Specialist Isaac Barbosa, IT Security Analyst Rachel Ilardi, Public Relations Specialist Bianca Scott, Administrative Specialist

### ITEM 1 – Call to Order. Roll Call and Declaration of Quorum

Barbara Quinones, Homestead, called the FMPA Finance Committee Meeting to order at 3:00 pm on Wednesday, December 8, 2021. A speaker telephone was present for public

attendance and participation in the Fredrick M. Bryant Board Room, at FMPA, 8553 Commodity Circle, Orlando, Florida. The roll was taken, and a quorum was declared, with 12 of 12 members present. Marie Brooks, Ocala joined after roll call.

## ITEM 2 – RECOGNITION OF GUESTS

No guests were present. Barbara Quinones took this time to recognize long time committee member Jack Wetzler, as this is his last meeting. Lynne Tejada spoke about Jack's leadership in the dual roles that he served in at Keys and she thanked him for his service and mentorship. Jack Wetzler thanked everyone and introduced Jesse Perloff who will be replacing him on the finance committee.

## ITEM 3 – PUBLIC COMMENTS (INDIVIDUAL PUBLIC COMMENTS LIMITED TO 3 MINUTES)

None

## ITEM 4 - SET AGENDA (BY VOTE)

**MOTION:** Allen Putnam, Jacksonville Beach, moved approval of the agenda as presented. James Braddock, Wauchula, seconded the motion. Motion carried 12-0.

## ITEM 5 – CONSENT AGENDA

- a. Approval of Minutes Finance Committee Minutes Meeting Held September 15, 2021
- b. Approval of Appendix B Debt Policy

**MOTION:** Jack Wetzler, Key West, moved the approval of the minutes presented for the meeting held October 20, 2021. Jody Young, Bushnell, seconded the motion. Motion carried 12-0.

### **ITEM 6 – CHAIRPERSON'S REMARKS**

None

## ITEM 7 – CFO REPORT

Linda Howard presented on the following items

- 1. Possible financial transactions coming up
  - a. Prepaid gas deals
  - b. Stanton II refinancing RFP being prepared
- 2. St. Lucie Participants meeting
  - a. Lake Worth Beach rate increase
  - b. Fitch rating decision on negative outlook

## ITEM 8 – ACTION ITEMS

a. Approval of Appendix O Information Technology Policy

Rich Popp presented on the minor changes to Appendix O Information Technology Policy.

**MOTION:** Howard McKinnon, Havana, moved to recommend approval of these changes to FMPA's Board of Directors. Jody Young, Bushnell, seconded the motion. Motion carried 12-0.

### b. Approval of Appendix N Human Resources Policy

Rich Popp presented on the minor changes to Appendix N Human Resources Policy.

**MOTION:** Steve Langley, Mount Dora, moved to recommend approval of these changes to FMPA's Board of Directors. Allen Putnam, Jacksonville Beach, seconded the motion. Motion carried 12-0.

### ITEM 9 – INFORMATION ITEMS

#### a. Annual Debit Report

Ed Nunez presented on the review of the procurement operational audit. There was an adequate sample size and we stopped further testing. We know that we had some short comings in the procurement process. All of the issues occurred before the training. We had the wrong person sign contracts and we need to make sure that the final dollar amounts trigger the appropriate signing authority. There will be a management training session, then we will setup a follow up procurement audit and come back to the finance committee. We will also train the plant staff.

### b. Review Compliance Reports

Liyuan Woerner presented on the annual IT update. Any time there is an incident, it has to be reported. We had 0 incidents this year. We have been doing a lot of cross training and half of our staff is now trained in the IT/OT system. We have put in a lot of security controls in the IT systems and at the plants. We met the phishing goal of being under 5% this year.

### c. Update on Stanton II Refinancing

Rich Popp presented on

## d. Preliminary Financial Results for Fiscal Year 2021

Danyel Sullivan-Marrero

## e. Review of Agency Risk

**Rich Popp presented** 

## ITEM 10 - REPORTS

None

## ITEM 11 – COMMENTS

## ITEM 12 – ADJOURNMENT

There being no further business, the meeting was adjourned at 3:54 pm.

## INSURANCE PROGRAM RISK MANAGEMENT POLICY FOR FLORIDA MUNICIPAL POWER AGENCY

This Insurance Program Risk Management Policy (the "Policy) and any effective subordinate procedures establish the governance, framework, and the controls under which Florida Municipal Power Agency (FMPA) may engage in insurance operations.

#### **1.0 Policy Statement**

The Board of Directors and Executive Committee of FMPA recognize that FMPA is exposed to various risks in the normal course of business activities. There may be times when FMPA will determine that certain risks are above the preferred risk tolerance level of FMPA and its members. FMPA is hereby authorized to put mechanisms in place, such as those more fully described in this Policy, that will control, transfer or mitigate these risks so that, to the extent possible, there will not be an adverse effect on FMPA's ability to protect its employees and material assets from damage or loss.

It is the Policy of the Board of Directors and Executive Committee that:

- Authority is delegated to the Treasurer and Risk Director to create procedures and administer this Policy.
- Potential exposures to loss shall be systematically and continuously identified.
- An analysis of the balance of probability of frequency and severity of loss shall guide the selection of an optimal level of insurance coverage.
- Risk exposures shall be reduced, eliminated, or transferred to other parties where appropriate.
- The Treasurer and Risk Director shall report deviations and other reports as required in this Policy to the Finance Committee (FC).

This Policy serves as a framework that enables the Treasurer and Risk Director to direct insurance activities by establishing minimum standards to systematically identify potential exposure to risk, measure the possible impact of those risks, and implement strategies to mitigate those risks.

#### 2.0 Scope and Authority

This Policy applies to all aspects of the Agency's business and its Projects.

- **2.1 Delegation of Authority:** The Board of Directors and Executive Committee delegate authority to the Treasurer and Risk Director to administer this Policy and oversee the day-to-day operation of this Policy. The Treasurer and Risk Director may deviate from this Policy with approval of the CEO but must report all deviations to the FC within 5 business days.
- **2.2 Reporting Claims:** All claims except workers' compensation shall be reported to and handled by the Treasurer and Risk Director. Claims related to workers' compensation shall be reported to and handled by the Human Resources Department.

### 3.0 Types of Risk

This Policy establishes minimum standards to support an Agency-wide atmosphere of proper control levels to safeguard the Agency's ability to limit exposure to financial loss events related to employees and material assets. The Treasurer and Risk Director shall cause procedures to be written that identify the risks noted below and provide ways to measure, control, and mitigate FMPA's exposure to those risks. While not intended to be a comprehensive listing of insurance related risk encountered by FMPA during the normal course of the business cycle, the following provides insight into FMPA's risk exposure.

- **3.1 Operational Risk:** The risk that internal practices, policies, procedures or systems will not perform as intended. An example of operation risk involving insurance might occur if a hurricane damaged the FMPA offices, but there was insufficient insurance to cover losses. This lack of adequate insurance could cause financial loss to FMPA.
- **3.2 Reputational Risk:** The risk that customers or the public will negatively perceive the Agency. An example of reputational risk might occur if an employee is hurt while on the job and the Agency did not have appropriate worker's compensation insurance, resulting in negative public reaction. This negative perception could cause financial or reputation loss to FMPA.

#### 4.0 Potential Exposures to Loss

The Treasurer and Risk Director is responsible for overseeing Agency and FMPA Projects' liability and property insurance activities through the Insurance Program. This shall include a systematic and continuous identification of potential exposure to loss. Insurance needs other than liability and property are the responsibility of the Human Resources Manager.

- **4.1 Annual Review:** The Treasurer and Risk Director shall cause areas of potential exposure to be reviewed not less than annually. This review shall include, at a minimum, FMPA operations, services and service delivery methods, real and personal property and other exposures. The review shall also include an analysis of losses and loss history trends. An annual review of health and wellness plans is required by the Human Resources Risk Policy, Appendix N of this FMPA Risk Management Policy
- **4.2 Exposure Awareness:** The Treasurer and Risk Director shall cause activities to be conducted that will increase the level of awareness of division and

department heads as to risk impact of new programs, projects, procurements, and activities.

- **4.3 Reduce or Eliminate Exposure:** The Treasurer and Risk Director shall cause systematic reviews of identified exposures to be completed and make recommendations to the appropriate manager or governing body as to the reduction or elimination of those exposures where feasible.
- **4.4 Transfer Exposures:** All contracts entered into by FMPA that exceed \$10,000,000, or other contracts at the discretion of the CEO, shall be reviewed by the TRD to identify and reduce any contractual liability being assumed by FMPA. When determined appropriate by the Treasurer and Risk Director, FMPA shall transfer risk to persons operating FMPA facilities or performing any operations for or on behalf of FMPA whenever possible.

All contracts for services shall clarify the status of the contractor as an independent contractor, where appropriate. All contracts and agreements are to be "Reviewed as to Form" and approved by the General Counsel's office.

**4.5 Analysis:** The Treasurer and Risk Director shall cause to be completed an analysis on remaining risk exposures for the probability of frequency and severity of loss, as well as the variety and types of claims and their probable financial impact. This analysis should contribute to the selection of an optimal level of insurance coverage. For risks that cannot be eliminated or transferred, FMPA shall either purchase insurance or self-insure and handle claims as an operating cost.

### 5.0 Internal Controls

The Treasurer and Risk Director shall cause to be established a system of written internal controls to regulate insurance activities, consistent with this Policy, and in accordance with all policies and procedural guidelines established in the FMPA Risk Management Policy. The Treasurer and Risk Director is responsible for the day-today transactions undertaken, pursuant to this Policy, and for regulating the activities related to risk management.

- **5.1 Competitive Selection of Insurance Services:** The Treasurer and Risk Director shall cause to be conducted a market review of brokerage and other needed services no less than every seven (7) years. The Treasurer and Risk Director shall review and update the insurance specifications for required coverage, desired forms, deductible options and limits prior to submission to the insurance market. The selection process shall follow the guidelines of the Procurement Policy, Appendix O of this FMPA Risk Management Policy.
- **5.2 Claims Procedures:** The Treasurer and Risk Director shall develop and implement procedures for the reporting and handling of accidents and losses related to property and liability claims. The Human Resources Manager shall notify FMPA's General Counsel, CEO, and Treasurer and Risk Director when a workers' compensation claim has been made.
- **5.3 Continuing Education:** The Treasurer and Risk Director and other appropriate risk management staff are recommended to complete 8 hours of continuing professional education (CPE's), or as required by State Regulations, in subject courses of study related to risk management products and techniques.

### 6.0 Reporting

The Treasurer and Risk Director shall make recommendations for levels of insurance and limiting exposures to the FC as necessary, but no less than once a year. The Treasurer and Risk Director shall also provide an report to the FC annually. This annual report shall include, but is not limited to, the following:

- Prior year actuals for premiums, claims, and losses.
- Cost of insurance coverage.

- Change of coverage limits, amounts, or other material aspects of the policy within the current policy period year.
- Recommend changes to coverage limits, amounts, or other material aspects of the policy within a future policy period.
- Any additional coverage purchases within the current or future policy periods.

The Treasurer and Risk Director shall cause any deviations from this Policy to be reported according to the guidelines set forth in the FMPA Risk Management Policy, Section 4.1. The FC shall cause to be completed an annual report on the operation and effectiveness of this Policy as described in the FMPA Risk Management Policy, Section 7.0. Treasurer and Risk Director shall report as needed on the current risk environment affecting the insurance program to the CEO as needed, and engage any necessary discussion before moving items to the FC or governing bodies.

### **INDEPENDENT AUDITOR'S REPORT**

Board of Directors and Executive Committee Florida Municipal Power Agency Orlando, Florida

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the business-type activities, each major fund, and the aggregate remaining fund information of the Florida Municipal Power Agency (the Agency) as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Basic Financial Statements

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used, and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **INDEPENDENT AUDITOR'S REPORT**

#### Opinions

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, each major fund, and the aggregate remaining fund information of the Agency, as of September 30, 2021, and the respective changes in financial position and cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis information and the schedule of changes in the Agency's net other postemployment benefits liability and related ratios, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion, or provide any assurance, on the information because the limited procedures to provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's basic financial statements. The accompanying supplementary information listed in the table of contents is presented for the purposes of additional analysis and is not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated \_\_\_\_\_\_, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Agency's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

FC Draft 1-12022

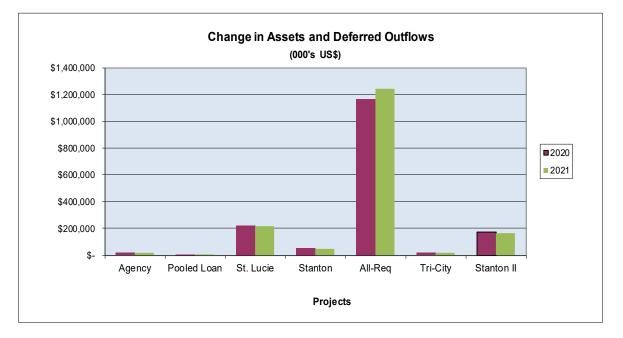

# MANAGEMENT'S DISCUSSION & ANALYSIS For Fiscal Year Ended September 30, 2021

This discussion and analysis is intended to serve as an introduction to Florida Municipal Power Agency's (FMPA's) basic financial statements, which are comprised of individual project or fund financial statements and the notes to those financial statements.

FMPA's financial statements are designed to provide readers with a broad overview of FMPA's financial condition in a manner similar to a private-sector business. It is important to note that, due to contractual arrangements which are the basis of each power project, no monies are shared among the projects, except that, as of the sale of the Vero Beach electric system to FPL in December 2018, the ARP has taken a transfer and assignment of Vero Beach's interests, as a project participant, in the Stanton, Stanton II and St. Lucie Projects.

#### FINANCIAL HIGHLIGHTS

**Total Assets and Deferred Outflows** at September 30, 2021, of FMPA's Agency Fund and other projects increased \$59 million from the prior year. The increase was mainly due to the All-Requirements Project borrowing \$100 million to replace the lines of credit held by the project. The borrowing also increased unrestricted cash available to the project.

Change in Assets and Deferrred Outflows (000's US\$)

FMPA 2021 Annual Report • 4

FC Draft 1-Page 45 of 139022

For Fiscal Year Ended September 30, 2021

#### FINANCIAL HIGHLIGHTS (CONTINUED)

**Total Liabilities and Deferred Inflows** at September 30, 2021, for FMPA's Agency Fund and other projects increased by \$59 million during the current fiscal year. The increase in total liabilities is mainly due to bonds issued to replace the All-Requirements project Lines of Credit.

**Long-Term Liability** balance outstanding at September 30, 2021, for FMPA's Agency Fund and Projects was \$1.2 billion, which is about the same as last fiscal year.

Long-Term Bonds balance, less current portion, was \$1,153 million, including All-Requirements balance of \$973 million.

**Total Revenue** for Agency and all projects increased by \$48.9 million for the current fiscal year, primarily due to increased natural gas prices.

Comparative years' Assets, Liabilities and Net Position, as well as Revenues, Expenses are summarized on the following pages.

FMPA 2021 Annual Report • 7

FC Draft 1-Page 26 or 12022

For Fiscal Year Ended September 30, 2021

#### **OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to FMPA's basic financial statements, which are comprised of two components: (1) individual project or fund financial statements and (2) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

FMPA's **Entity-Wide Financial Statements** are designed to provide readers with a broad overview of FMPA's finances in a manner similar to a private-sector business. It is very important to note that, due to contractual arrangements that are the basis of each power project, no monies can be shared among projects, except that, as of the sale of the Vero Beach electric system to FPL in December 2018, the ARP has taken a transfer and assignment of Vero Beach's interests, as a project participant, in the Stanton, Stanton II and St. Lucie Projects.

The cash flow of one power project, although presented with all others in the financial statement presentation as required by financial reporting requirements, cannot and should not be considered available for any other project. Management encourages readers of this report, when evaluating the financial condition of FMPA, to remember that each power project or fund is a financially independent entity.

The **Statements of Net Position** presents information on all of FMPA's assets and liabilities with the differences between the two reported as Net Position. As a result of a decision by the governing bodies of FMPA, billings and revenues in excess (deficient) of actual costs are returned to (collected from) the participants in the form of billing credits (charges). The assets within the Agency Fund represent those required for staff operations, which coordinate all of the power projects described herein.

The **Statements of Revenues, Expenses and Changes in Fund Net Position** present information regarding how FMPA's net position has changed during the fiscal year ended September 30, 2021. All changes in net position are reported as the underlying event giving rise to the change as it occurs, regardless of the timing of related cash flows. Therefore, some revenues and expenses that are reported in these statements for some items will only result in cash flows in future fiscal periods, such as unrealized gains or losses from investment activities, uncollected billings and earned but unused vacation.

The **Statements of Cash Flows** provide information about FMPA's Agency Fund and each project's cash receipts and disbursements during the fiscal year. These statements report cash receipts, cash payments and net changes in cash resulting from operating, investing and capital & related financing activities.

All of the activities of FMPA are of a business type, or fiduciary type as compared to governmental activities. FMPA has no component units to report. The Financial Statements can be found on pages 12 through 15 of this report.

The **Fund Financial Statements** are comprised of a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. FMPA, like governments and other special agencies or districts, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of FMPA are reported on the proprietary basis.

FMPA maintains two types of Funds, the Enterprise Fund type, and the Fiduciary Fund type. Enterprise Funds are used to report the same functions presented as business-type activities in the financial statements. FMPA uses enterprise funds to account for all of its power projects, as well as the Agency business operations. Each of the funds is considered a "major fund" according to specific accounting rules. A summary of FMPA's activities for years 2021 and 2020 is shown on pages 6 and 7. A more detailed version of the major fund proprietary financial statements can be found on pages 12 through 14 of this report. The Fiduciary Fund statements provide information about the financial relationships in which the Agency acts solely as a trustee or agent for the benefit of other governments. The Fiduciary Fund financial statements can be found on page 15 of this report.

The Notes to Financial Statements provide additional information that is essential to understanding the data provided in both the government-wide and fund financial statements. The Notes to the Financial Statements can be found on pages 16 through 53 of this report.

FMPA 2021 Annual Report • 8

FC Draft 1-Page 49 of 139022

For Fiscal Year Ended September 30, 2021

#### **ENTITY-WIDE FINANCIAL ANALYSIS**

As noted earlier, when readers use the financial presentations to evaluate FMPA's financial position and results of operations, it is essential to remember the legal separation that exists among the projects. Nevertheless, broad patterns and trends may be observed at this level that should lead the reader to carefully study the financial statements of each fund and project. For example, total revenues increased \$48.9 million primarily due to increased natural gas prices.

#### FINANCIAL ANALYSIS OF FMPA'S FUNDS AND PROJECTS

FMPA uses fund accounting, Federal Energy Regulatory Commission accounting and special utility industry terminology to ensure and demonstrate compliance with finance-related legal requirements. The projects and funds are presented below and in the financial statements in the order in which they were established.

The **Agency Fund** accounts for the administrative activities of FMPA. The expenses incurred while operating the projects and administrative activities are allocated to the power projects, net of any miscellaneous receipts. Total General and Administrative expenses decreased \$0.4 million from fiscal year 2020 to fiscal year 2021.

The **Pooled Loan Fund** was re-established during the 2019 fiscal year and has made three loans to members. As required by the Governmental Accounting Standards Board Statement 91 they are recognized as conduit debt and the corresponding receivable and payable are not included on the statement of Net Position. The Pooled loan fund made one loan to an FMPA Project (Stanton II) which is included on the statement of Net Position.

The **St. Lucie Project** consists of an 8.806% undivided ownership interest in St. Lucie Unit 2. This unit is a nuclear power plant primarily owned and operated by Florida Power & Light (FPL). FPL requested and received a 20-year extension of the operating license from the Nuclear Regulatory Commission (NRC) for Units 1 and 2. The license will allow Unit 1 to operate until 2035 and Unit 2 to operate until 2043.

The Project billed 688,960 Megawatt-hours (MWh) in fiscal year 2021. The average all-inclusive billing rate, which includes budgeted Demand, Energy and Transmission expenses, decreased 9.1% to \$68.10 in fiscal year 2021.

The **Stanton Project** derives its power from a 14.8193% ownership interest in Stanton Unit 1, a 441 Megawatt coal-fired power plant operated by its primary owner, Orlando Utilities Commission (OUC).

The Project billed 321,529 MWh in fiscal year 2021. The average all-inclusive billing rate, which includes budgeted Demand, Energy and Transmission expenses decreased 52.7% to \$47.39 per MWh in fiscal year 2021 due to a higher capacity factor for the plant.

The **All-Requirements Project** (ARP) consists of 13 active participants. The ARP energy resources are part of the Florida Municipal Power Pool (FMPP), a consortium of three municipal energy suppliers - ARP, Lakeland Electric and OUC - which have agreed to dispatch resources on an economic cost and availability basis in order to meet combined loads. The average all-inclusive billed rate to ARP member cities was \$71.28 per MWh in fiscal year 2021, which is all-inclusive of Energy, Demand and Transmission expenses. The billed Megawatt hours for fiscal year 2021 were 5,885,763.

The All-Requirements participant net cost of power decreased to \$69.63 per MWh in fiscal year 2021, a 4.2% increase from fiscal year 2020. This increase was primarily due to higher natural gas fuel expenses. The fuel supply mix was 76.9% for natural gas, 15.8% for coal, 4.2% for purchases 1.3% nuclear and 1.8% for renewables.

FMPA 2021 Annual Report • 9

FC Draft 1-Page 50 of 139022

For Fiscal Year Ended September 30, 2021

#### FINANCIAL ANALYSIS OF FMPA'S FUNDS AND PROJECTS (CONTINUED)

After consideration of amounts to be refunded to or recovered from Project participants, the net position of the All-Requirements Project was zero (by design) again in fiscal year 2021. The All-Requirements project adjusts the Energy, and Transmission rates each month based on the current expenses, estimated future expenses, and over/under collections to meet its 60-day cash target. The over/under collection amounts are shown in the Statements of Revenues, Expenses and Changes in Fund Net Position as an addition or reduction to "Billings to Participants" and as "Due from Participants" or "Due to Participants" in the accompanying Statement of Net Position.

The **Tri-City Project** consists of a 5.3012% ownership interest in Stanton Unit 1. The Project billed 103,371 MWh in fiscal year 2021. The average all-inclusive billing rate, which includes budgeted Demand, Energy and Transmission expenses, decreased 34.3% to \$54.73 per MWh during fiscal year 2021 due to increased net operating revenues needed to build reserve funds.

The **Stanton II Project** consists of a 23.2367% ownership interest in Stanton Unit 2, a coal-fired power plant operated by its primary owner; Orlando Utilities Commission (OUC). The Project billed 593,865 MWh in fiscal year 2021. The average all-inclusive billing rate, which includes budgeted Demand, Energy, and Transmission expenses, decreased by 13.2% to \$76.31 per MWh in fiscal year 2021. This was caused by a higher capacity factor for the plant.

#### **BUDGETARY HIGHLIGHTS**

The FMPA Board of Directors approves the non All-Requirements Project budgets, and the Executive Committee approves the Agency and All-Requirements Project budgets, establishing legal boundaries for expenditures. For fiscal year 2021, the Stanton budget was amended to increase expenditures \$2 million, the Tri-City budget was amended to increase expenditures \$1 million, and the Stanton II budget was amended to increase expenditures \$4 million. This was due to higher than anticipated fuel expense.

#### CAPITAL ASSETS AND LONG-TERM DEBT

FMPA's investment in **Capital Assets**, as of September 30, 2021, was \$719 million, net of accumulated depreciation and inclusive of work-in-process and development projects. This investment in capital assets includes operational and construction projects in progress of generation facilities, transmission systems, land, buildings, improvements, and machinery and equipment.

FMPA's investment in capital assets for fiscal year 2021 decreased by 4.0% or \$28.7 million. This was caused primarily by depreciation of plant assets.

At September 30, 2021, FMPA had **Long-term debt** of \$1.2 billion in notes, loans, and bonds payable. The remaining principal payments on Long-term debt less current portion, net of unamortized premium and discount, and deferred outflows are as follows:

Project	Amount (000's US\$)
Pooled Loan Fund	\$       2,986
St. Lucie Project	87,714
All-Requirements Project	973,241
Stanton II Project	91,564
Total	\$ 1,155,505

See **Note VIII** to the Notes to Financial Statements for further information.

FMPA 2021 Annual Report • 10

FC Draft 1-Page 21 of 139022

For Fiscal Year Ended September 30, 2021

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Multi-year operational and financial modeling was conducted to arrive at the fiscal year 2021 budget. Expenses were estimated using current market conditions for fuel and estimated member loads which take into consideration the member cities' economies that have shown varying impacts on loads in both demand and energy due to current economic conditions. Rates are set in order to cover all costs and based on the member loads. Additionally, All-Requirements rates are adjusted monthly to maintain cash at a 60 day target as approved by the Executive Committee.

#### SIGNIFICANT EVENTS

#### A. Issuance of the 2021A and 2021B All-Requirements Project Bonds

On April 27, 2021, the All-Requirements project issued the 2021A and 2021B bonds with a face amount of \$137.2 million at a premium and will use the \$140 million for project capital expenditures or other Executive Committee authorized expenses and to pay closing costs.

#### B. Issuance of the 2021A St. Lucie Project Bonds

On September 1, 2021, the St. Lucie Project issued the 2021A bonds with a face amount of \$14.8 million at a premium and used the \$18.6 million along with other project funds to refund the St. 2011B bonds with a face value of \$24.3 million and pay closing costs.

#### **REQUEST FOR INFORMATION**

Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the *Chief Financial Officer, Florida Municipal Power Agency, 8553 Commodity Circle, Orlando, FL 32819.*

FMPA 2021 Annual Report • 15

FC Draft 1-Page 06 of 120022

# I. Summary of Significant Accounting Policies

#### A. Reporting Entity

Florida Municipal Power Agency (FMPA or Agency) was created on February 24, 1978, pursuant to the terms of an Interlocal Agreement signed by the governing bodies of 25 Florida municipal corporations or utility commissions chartered by the State of Florida.

The Florida Interlocal Cooperation Act of 1969 authorizes local government units to enter together into mutually advantageous agreements which create separate legal entities for certain specified purposes. FMPA, as one such entity, was authorized under the Florida Interlocal Cooperation Act and the Joint Power Act to finance, acquire, construct, manage, operate, or own electric power projects or to accomplish these same purposes jointly with other public or private utilities. An amendment to the Florida Interlocal Cooperation Act in 1985 and an amendment to the Interlocal Agreement in 1986 authorized FMPA to implement a pooled financing or borrowing program for electric, water, wastewater, waste refuse disposal, gas, or other utility projects for FMPA and its members. FMPA established itself as a project-oriented agency.

This structure allows each member the option of whether to participate in a project, to participate in more than one project, or not to participate in any project. Each of the projects are financially independent from the others and the project bond resolutions specify that no revenues or funds from one project can be used to pay the costs of any other project, except that, as of the sale of the Vero Beach electric system to FPL, the ARP has taken a transfer and assignment of Vero Beach's interests, as a project participant, in the Stanton, Stanton II and St. Lucie Projects. As of September 30, 2021, FMPA has 31 members.

# B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Agency Fund and each of the projects are maintained using the Governmental Accounting Standards Board (GASB), the Uniform System of Accounts of the Federal Energy Regulatory Commission (FERC) and Generally Accepted Accounting Principles of the United States (GAAP) using the economic resources measurement focus and the accrual basis of accounting. Application of the accounting methods for regulatory operations is also included in these financial statements. This accounting guidance relates to the deferral of revenues and expenses to future periods in which the revenues are earned, or the expenses are recovered through the rate-making process, which is governed by the Executive Committee and the Board of Directors.

The Agency's General Bond Resolution requires that its rate structure be designed to produce revenues sufficient to pay operating, debt service and other specified costs. The Agency's Board of Directors, which is comprised of one representative from each member city, and Executive Committee, which is comprised of one representative from each of the active All-Requirements Project members, are responsible for reviewing and approving the rate structure. The application of a given rate structure to a given period's electricity sales may produce revenues not intended to pay that period's costs and conversely, that period's costs may not be intended to be recovered in that period's revenues. The affected revenues and/or costs are, in such cases, deferred for future recognition. The recognition of deferred items is correlated with specific future events, primarily payment of debt principal.

FMPA considers electric revenues and costs that are directly related to generation, purchases, transmission, and distribution of electricity to be operating revenues and expenses. Revenues are recorded when they are earned and expenses are recorded when a liability is incurred, following GAAP.

FMPA 2021 Annual Report • 16

FC Draft 1-Page 57 of 139022

# I. Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

#### 1. Fund Accounting

FMPA maintains its accounts on a fund/project basis, in compliance with appropriate bond resolutions, and operates its various projects in a manner similar to private business. Operations of each project are accounted for as a proprietary fund and as such, inter-project transactions, revenues and expenses are not eliminated.

The Agency operates the following major funds:

- The Agency Fund, which accounts for general operations beneficial to all members and projects.
- The Pooled Loan Fund was re-established during the fiscal year 2019 and will loan funds to member utilities or FMPA projects.
- The St. Lucie Project, which accounts for ownership interest in the St. Lucie Unit 2 nuclear generating facility.
- The Stanton Project and the Tri-City Project, which account for respective ownership interests in the Stanton Energy Center (SEC) Unit 1, a coal-fired generation facility,
- The All-Requirements Project, which accounts for ownership interests in Stanton Energy Center Unit 1, Stanton Energy Center Unit 2, Stanton Unit A, and Indian River Combustion Turbine Units A, B, C and D. Also included in the All-Requirements Project is the purchase of power for resale to the participants and 100% ownership or ownership cost responsibility (for jointly owned and participant-owned units) of Treasure Coast Energy Center, Cane Island Units 1, 2, 3 and 4, FMPA's Key West Combustion Turbine Units 1, 2, 3 and 4 and Key West Stock Island MS Units 1 & 2. The project also assumed the participant interest of Vero Beach in the St. Lucie, Stanton, and Stanton II Projects. Some of the All-Requirements participants subscribed to the output of a solar farm that came online in July of 2021.
- The Stanton II Project, which accounts for an ownership interest in SEC Unit 2.
- The Fiduciary Fund accounts for assets held by the Agency as a trustee for other governmental units.

Certain accounts within these funds are grouped and classified in the manner established by respective bond resolutions and/or debt instruments.

All funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary or business fund's principal on-going operations. The principal operating revenues of FMPA's proprietary or business funds are charges to participants for sales and services. Operating expenses for proprietary or business funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is FMPA's policy to use restricted funds for their intended purposes only, based on the bond resolutions. Unrestricted resources are used as they are needed in a hierarchical manner from the General Reserve accounts to the Operations and Maintenance accounts.

Certain direct and indirect expenses allocable to FMPA's fully owned and undivided ownership in the St. Lucie Project, the Stanton Project, the All-Requirements Project, the Tri-City Project, and the Stanton II Project are capitalized as part of the cost of acquiring or constructing the respective utility plant. Direct and indirect expenses not associated with these projects are capitalized as part of the cost of Development Projects in Progress in the Agency Fund. Electric Plant in Service is depreciated using the straight-line method over the assets' respective estimated useful lives. Estimated useful lives for electric plant assets range from 23 years to 42 years.

FMPA 2021 Annual Report • 17

FC Draft 1-Page 28 of 129022

# I. Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

#### 2. Capital Assets

FMPA has adopted the policy of capitalizing net interest costs during the period of project construction (interest expense less interest earned on the investment of bond proceeds). Capitalized net interest cost on borrowed funds includes amortization of bond discount and bond premium, interest expense and interest income. The cost of major replacements of assets in excess of \$5,000 is capitalized to the utility plant accounts. The cost of maintenance, repairs and replacements of minor items are expensed as incurred.

#### 3. Inventory

Coal, oil, and natural gas inventory is stated at weighted average cost. Parts inventory for the generating plants is also stated at weighted average cost. Nuclear fuel is carried at cost and is amortized on the units of production basis.

#### 4. Cash & Cash Equivalents

FMPA considers the following highly liquid investments (including restricted assets) to be cash equivalents for the statement of cash flows:

- Demand deposits (not including certificates of deposits)
- Money market funds

#### 5. Investments

Florida Statutes authorize FMPA to invest in the FL Local Government Surplus Funds Trust Fund, obligations of the U.S. Instrumentalities, Money Market Funds, U.S. Government and Agency Securities, Certificates of Deposit, commercial paper and repurchase agreements fully collateralized by all the items listed above. In addition to the above, FMPA's policy also authorizes the investment in certain corporate and municipal bonds, bankers' acceptances, prime commercial paper and repurchase agreements, guaranteed investment contracts and other investments with a rating confirmation issued by a rating agency.

Investments are stated at fair value based on quoted market prices and using third party pricing models for thinly traded investments that don't have readily available market values. Investment income includes changes in the fair value of these investments. Interest on investments is accrued at the Statement of Net Position date. All of FMPA's project and fund investments can be sold at any point due to cash flow needs, changes in market trends or risk management strategies.

#### 6. Debt-Related Costs

Debt issuance costs are expensed as incurred. Gains and losses on the refunding of bonds are deferred and amortized over the life of the refunding bonds or the life of the refunded bonds, whichever is shorter, using the bonds outstanding method. This method is used for the St. Lucie Project, the Stanton Project, the All-Requirements Project, the Tri-City Project, and the Stanton II Project.

#### 7. Compensated Absences

Liabilities related to Compensated Absences are recognized as incurred in accordance with GASB Statement No. 16 and are included in accrued expenses. Regular, full-time employees in good standing, upon resignation or retirement, are eligible for vacation pay, and sick/personal pay. At September 30, 2021, the liability for unused vacation was \$881,253 and a portion of \$737,354 for unused sick/personal leave is accounted for in the Agency Fund.

FMPA 2021 Annual Report • 18

FC Draft 1-Page 29 of 129022

# I. Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

#### 8. Allocation of Agency Fund Expenses

General and administrative operating expenses of the Agency Fund are allocated based on direct labor hours of specific positions and certain other minimum allocations to each of the projects. Any remaining expenses are allocated to the All-Requirements Project.

#### 9. Billing to Participants

Participant billings are designed to systematically provide revenue sufficient to recover costs. Rates and budgets can be amended by the Board of Directors or the Executive Committee at any time.

For the All-Requirements Project, energy rate adjustments are driven by the Project's Operation and Maintenance (O & M) Fund month-end cash balance and the cash balance needed to meet the targeted balance of 60 days of cash within the O & M Fund. If it is determined that the O & M Fund balance is over the 60 days O & M Fund cash balance target amount, the energy rate adjustment will result in a lower billing rate relative to projected expenses and thereby reduce the future O & M Fund balance. Likewise, if the O & M Fund balance is below the 60 day cash target, the energy rate adjustment will result in a higher billing rate relative to projected expenses and thereby increase the future O & M Fund balance.

Amounts due from participants are deemed to be entirely collectible and as such, no allowance for uncollectible accounts has been recorded.

For the St. Lucie Project, the Stanton Project, the Tri-City Project and the Stanton II Project, variances in current fiscal year billings and actual project costs are computed and compared to the current year budget target under or over recovery and under the terms of the project contract, net excesses or deficiencies are credited or charged to future participant billings or may be paid from the General Reserve Fund, as approved by the Board of Directors, or Executive Committee as appropriate.

#### 10. Income Taxes

FMPA is a local governmental entity and therefore is exempt from federal and state income taxes.

#### 11. Use of Estimates

The management of FMPA has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with GAAP. Examples of major areas where estimates are used include the estimate for useful lives of property, plant and equipment and the estimate for the nuclear decommissioning liability. Other examples include using third party pricing models for pricing of thinly traded investments, and use of estimates when computing the OPEB liability, asset retirement obligations, landfill closure costs, and pollution remediation obligations. Actual results could differ from those estimates.

#### 12. Derivative Financial Investments

FMPA used commodity futures contracts and options on forward contracts to hedge the effects of fluctuations in the price of natural gas storage. The contracts were held by Florida Gas Utility (FGU) and FMPA agreed to reimburse FGU for any loss on the contracts and FGU agreed to pay FMPA for any gain on the contracts. This practice was discontinued during the current fiscal year.

FMPA 2021 Annual Report • 19

FC Draft 1-Page 60 of 139022

For the Year Ended September 30, 2021

## I. Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

#### 13. Deferred Inflows and Deferred Outflows

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. FMPA has two items that qualify for reporting in this category, the deferred portion of Asset Retirement Obligations and the Unamortized Loss on Refunding. The deferred Asset Retirement Obligation costs will be collected from participants as determined by the Board and Executive Committee during the budget process. A deferred Loss on Refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. FMPA has two items that qualify for reporting in this category, the Net Cost Refundable/Future Participant Billings, and the Acquisition Adjustment - Vero Beach Entitlements. The net Costs Refundable/Future Participant Billings are recognized as a rate benefit in future periods through the rate-making process. The Acquisition Adjustment – Vero Beach Entitlements are being amortized to income to offset the additional annual costs to the All-Requirements project for the assumption of the Project obligations acquired.

#### 14. Financial Reporting for Pension Plans

FMPA has a Defined Contribution Pension Plan and therefore the impacts of reporting for pension plans are minimal compared to entities that have a Defined Benefit Pension Plan. The impacts on accounting and reporting for FMPA are disclosed in footnote XII.A.

#### 15. Financial Reporting for Postemployment Benefits Other Than Pensions

The Governmental Accounting Standards Board Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB) was adopted by FMPA for reporting the employer's OPEB Plan Liability. The accounting and reporting for FMPA and additional disclosures are provided in footnote XII.B and in the Required Supplementary Information section.

#### 16. Landfill Closure and Post Closure Maintenance Cost

In accordance with Governmental Accounting Standards Board Statement No. 18, Accounting for Landfill Closure and Post Closure Maintenance Cost was implemented beginning with the fiscal year ending September 30, 2018, for reporting the Stanton, Stanton II, Tri-City and All Requirements Projects liability for the fly ash landfill at the Stanton Energy Center.

FMPA 2021 Annual Report • 20

FC Draft 1-Page 61 of 139022

For the Year Ended September 30, 2021

# I. Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

#### 17. Fair Value Measurement and Application

Investments for FMPA are stated at fair value. The fair value framework uses a hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 inputs-are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date
- Level 2 inputs-are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly. Agency Obligation securities are recorded at fair value based upon Bloomberg pricing models using observable inputs and as such are presented as level 2 in the GASB 72 hierarchy in footnote IV.
- Level 3 inputs-are unobservable inputs for an asset or liability. The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs.

## **II.** Nuclear Decommissioning Liability

#### St. Lucie Project

The U.S. Nuclear Regulatory Commission (NRC) requires that each licensee of a commercial nuclear power reactor furnish to the NRC a certification of its financial capability to meet the costs of nuclear decommissioning at the end of the useful life of the licensee's facility. As a colicensee of St. Lucie Unit 2, FMPA's St. Lucie Project is subject to these requirements and therefore has complied with the NRC regulations.

To comply with the NRC's financial capability regulations, FMPA established an external trust fund (Decommissioning Trust) pursuant to a trust agreement. Funds deposited, together with investment earnings in the Trust, are anticipated to result in sufficient funds in the Decommissioning Trust at the expiration of the license extension to meet the Project's share of the decommissioning costs. This is reflected in the St. Lucie Project's Statement of Net Position as Restricted Cash and Investments (\$99.5 million) and Accrued Decommissioning Liability (\$99.3 million) at September 30, 2021. These amounts are to be used for the sole purpose of paying the St. Lucie nuclear decommissioning costs. Based on a site-specific study approved by the Florida Public Service Commission in 2020, Unit 2's future net decommissioning costs are estimated to be \$1.7 billion or \$674 million in 2020 dollars, and FMPA's share of the future net decommissioning costs is estimated to be \$146 million or \$59 million in 2020 dollars. A new study will be completed and made available in December 2025. The Decommissioning Trust is irrevocable, and funds may be withdrawn from the Trust solely for the purpose of paying the St. Lucie Project's share of costs for nuclear decommissioning. Also, under NRC regulations, the Trust is required to be segregated from other FMPA assets and outside FMPA's administrative control. FMPA has complied with these regulations.

FMPA 2021 Annual Report • 21

FC Draft 1-Page 2 or 130022

For the Year Ended September 30, 2021

## III. Landfill Closure and Post Closure Maintenance Liability and Asset Retirement Obligations

In accordance with Governmental Accounting Standard No. 18, the ownership share of the landfill closure and post closure maintenance costs the Stanton Energy Center Units 1 & 2, the proportionate closure and post closure maintenance costs of \$812 thousand as of September 30, 2021, was recognized across FMPA's All Requirements, Stanton, Stanton II and Tri-City Projects. FMPA expects to recognize the remaining share of its estimated closure and post-closure costs of \$333 thousand over the remaining useful life of the landfill. As of September 30, 2020, and 2021, 65.9% and 70.9%, respective of the total landfill capacity has been used. Six years remain on the landfill life.

In accordance with Governmental Accounting Standard No. 83, Asset Retirement Obligation have been calculated for each of the generating sites owned by FMPA. Significant assumptions used in the calculation of the Obligations are as follows:

There are no pollution events that need to be addressed. If a pollution event occurs it will be cleaned up as soon as practible and the expense will be recognized at the time of the event.

Scrap and salvage values for the natural gas plants exceed the cost to retire the units therefore, no obligation is accrued for these assets.

Coal plant retirement obligations are based on an EPRI study, removing costs for asbestos abatement. All ash disposal is included in the Landfill Closure Cost estimate.

The impact for each of FMPA Projects as of September 30, 2021 is:

	(000's US\$)													
	Agency	P	ooled	S	t. Lucie		Stanton		All-Req	т	ri-City	Sta	nton II	Total

## IV. Capital Assets

A description and summary as of September 30, 2021, of Capital Assets by fund and project, is as follows:

The column labeled "Increases" reflects new capital undertakings and depreciation expense. The column labeled "Decreases" reflects retirements of those assets.

#### A. Agency Fund

The Agency Fund contains the general plant assets of the Agency that are not associated with specific projects. Depreciation of general plant assets is computed by using the straight-line method over the expected useful life of the asset. Expected lives of the different types of general plant assets are as follows:

FMPA 2021 Annual Report • 22

FC Draft 1-Page 63 of 139022

For the Year Ended September 30, 2021

# IV. Capital Assets (continued)

#### A. Agency Fund (Continued)

•	Structures & Improvements	25 years
•	Furniture & Fixtures	8 years
•	Office Equipment	5 years
•	Automobiles and Computers	3 years

New capital undertakings are accounted for in the Development Projects in Progress account and included in the Other Assets section of the Statement of Net Position. Depending on whether these undertakings become a project, costs are either capitalized or expensed. The activity for the Agency's general plant assets for the year ended September 30, 2021 was as follows:

		September 30, 2021 Beginning Ending										
	_	Balance	Inci	<u>reases*</u> (000	<u>Dec</u> D's US\$)	rreases*		Balance				
Land	\$	653	\$	-	\$	-	\$	653				
General Plant		8,959		470		-		9,429				
Construction work in process		-						-				
General Plant in Service	\$	9,612	\$	470	\$	-	\$	10,082				
Less Accumulated Depreciation		(6,567)		(453)		-		(7,020)				
General Plant in Service, Net	\$	3,045	\$	17	\$	-	\$	3,062				
* Includes Retirements Less Salv	age											

#### B. St. Lucie Project

The St. Lucie Project consists of an 8.806% undivided ownership interest in St. Lucie Unit 2, a nuclear power plant primarily owned and operated by Florida Power & Light (FPL).

Depreciation was originally computed using the straight-line method over the expected useful life of the asset, which was originally computed to be 34.6 years. In FYE 2021, management extended the useful life to 60 years based on the extended operating license for St. Lucie Unit 2. Nuclear fuel is amortized on a units of production basis. St. Lucie plant asset activity for the year ended September 30, 2021, was as follows:

		September 30, 2021									
		Beginning						Ending			
		Balance	I	ncreases	Dec	creases*		Balance			
	_		_	(000							
Land	\$	75	\$	-	\$	-	\$	75			
Electric Plant		306,456		5,232				311,688			
General Plant		1,209		-		-		1,209			
Nuclear Fuel		27,662		7,940		-		35,602			
Construction work in process		996		552		-		1,548			
Electric Utility Plant in Service	\$	336,398	\$	13,724	\$	-	\$	350,122			
Less Accumulated Depreciation		(309,943)		(4,890)		(312)		(315,145)			
Utility Plant in Service, Net	\$	26,455	\$	8,834	\$	(312)	\$	34,977			
* Includes Retirements Less Salv	ade										

Construction work in process is recorded on an estimate basis and reversed 3 months later when actual amounts are determined.

FMPA 2021 Annual Report • 23

FC Draft 1-Page 64 of 12022

For the Year Ended September 30, 2021

# IV. Capital Assets (continued)

#### C. Stanton Project

The Stanton Project consists of an undivided 14.8193% ownership in Stanton Energy Center Unit 1, a coal-fired power plant. Asset retirements and additions for the plant are decided by Orlando Utilities Commission (OUC), the primary owner and operator of the plant.

Depreciation of plant assets is computed using the straight-line method over the expected useful life of the different plant assets. Expected useful lives of the assets are as follows:

•	Electric Plant	40 years
•	Computer Equipment	9 years

Stanton Unit 1 plant asset activity for the year ended September 30, 2021, was as follows:

		September 30, 2021									
		Beginning						Ending			
		Balance	I	ncreases	Dec	reases*		Balance			
	_		_	(000	's US\$)						
Land	\$	125	\$	-	\$	-	\$	125			
Electric Plant		94,801		1,138		-		95,939			
General Plant		13		8		-		21			
Electric Utility Plant in Service	\$	94,939	\$	1,146	\$	-	\$	96,085			
Less Accumulated Depreciation		(67,895)		(4,052)		-		(71,947)			
Utility Plant in Service, Net	\$	27,044	\$	(2,906)	\$	-	\$	24,138			
* Includes Retirements Less Salva	age										

#### D. All-Requirements Project

The All-Requirements Project's current utility plant assets include varying ownership interests in Stanton Energy Center Units 1 and 2; Indian River Combustion Turbines A, B, C and D; and Stanton A. The All-Requirements Project's current utility plant assets also consist of 100% ownership in the Treasure Coast Energy Center, Cane Island Units 1, 2, 3 and 4, Key West Units 1, 2, 3 and 4, and Stock Island MSD Units 1 & 2, with the exception of the Key West and KUA – TARP Capital Lease Obligation. See footnote IX.A.4 for more detail on the Key West and KUA – TARP Capital Lease Obligations.

Retirements and additions for the All-Requirements Project assets are decided by the All-Requirements members.

Depreciation of plant assets and amortization of capital leases is computed using the straightline method over the expected useful life of the asset. Expected lives of the different plant assets are as follows:

	Stanton Energy Center Units 1 and 2 Stanton Energy Center Unit A Treasure Coast Energy Center Cane Island Unit 1 Cane Island Units 2, 3 Cane Island Units 2, 3 Cane Island Unit 4 Key West Units 1, 2 and 3 Key West Stock Island Units 1 and 2 Key West Stock Island Unit 4 Indian River Units A, B, C and D	40 years 35 years 35 years 25 years 30 years 35 years 25 years 23 years 23 years 23 years
•	Indian River Units A, B, C and D Computer Equipment	23 years 9 years

\* Indian River Units A, B, C and D, reached the end of their useful lives. Management has extended the useful life by 5 years for new capital additions.

All-Requirements plant asset activity for the year ended September 30, 2021, was as follows:

\* Includes Retirements Less Salvage

### E. Tri-City Project

The Tri-City Project consists of an undivided 5.3012% ownership interest in Stanton Unit 1, a coal-fired power plant. Retirements and additions for Stanton Unit 1 are determined by OUC, the primary owner and operator.

Depreciation of plant assets is computed using the straight-line method over the expected useful life of the different assets. Expected useful lives of the assets are as follows:

•	Electric Plant	40 years
•	Computer Equipment	9 years

Tri-City Project plant asset activity for the year ended September 30, 2021, was as follows:

				Septembe	er 30, 20	021	
		Beginning					Ending
		Balance	I/	ncreases	Dec	reases*	Balance

Utility Plant in Service, Net	\$	10,350	\$	(1,138)	\$	-	\$ 9,212
* Includes Retirements Less Salva	ade						 

Includes Recirements Less Salvage

### F. Stanton II Project

The Stanton II Project consists of an undivided 23.2367% ownership interest in Stanton Unit 2, a coal-fired power plant. Retirements and additions for Stanton Unit 2 are determined by OUC, the primary owner and operator.

Depreciation of plant assets is computed using the straight-line method over the expected useful life of the different assets. Expected useful lives of the assets are as follows:

•	Electric Plant	39 years
•	Computer Equipment	9 years

Stanton Unit 2 plant asset activity for the year ended September 30, 2021, was as follows:

# V. Cash, Cash Equivalents, and Investments

## A. Cash and Cash Equivalents

At September 30, 2021, FMPA's Cash and Cash Equivalents consisted of demand deposit accounts and money market accounts which are authorized under FMPA bond resolutions. Cash and cash equivalents are held at two financial institutions. All of FMPA's demand deposits at September 30, 2021, were insured by Federal Depository Insurance Corporation (FDIC) or collateralized pursuant to the Public Depository Security Act of the State of Florida. Current unrestricted cash and cash equivalents are used in FMPA's funds' and projects' day-to-day operations.

#### B. Investments

FMPA adheres to a Board and Executive Committee-adopted investment policy based on the requirements of the bond resolutions. The policy requires diversification based upon investment type, issuing institutions, and duration. All of the fund and project accounts have specified requirements with respect to investments selected and the length of allowable investment.

Investments at September 30, 2021 were insured or registered and held by its agent in FMPA's name. Changes in the fair value of investments are reported in current period revenues and expenses. All of FMPA's fund and project investments can be sold at any point due to cash flow needs, changes in market trends or risk management strategies.

#### Foreign Currency Risk

FMPA's investments are not exposed to foreign currency risk.

#### **Interest-Rate Risk**

FMPA's investment policy requires that funds generally be invested to match anticipated cash flow. All fund and project accounts have a specified maximum maturity for investments and, the majority of FMPA's funds are required to be invested for less than five years. All project funds and accounts are monitored using weighted average maturity analysis as well as maturity date restrictions.

#### Concentration of Credit Risk

Each project is separate from the others, and as such, each project is evaluated individually to determine the credit and interest rate risk. FMPA's investment policy prohibits investments in commercial paper that exceed 50% of any of the projects' or the Agency's assets. All commercial paper must be rated in the highest rating category by a nationally recognized bond rating agency at the time of purchase. These investments must not exceed 50% for any of FMPA's projects. As of September 30, 2021, fixed income commercial paper investments, held by FMPA from any one issuer (investments issued or explicitly guaranteed by the US Government, investments in mutual funds, external investment pools and other pooled investments are excluded) are limited to 10% of the projects' investment assets. No project exceeded that limit.

## VI. Derivative Financial Instruments

### A. Natural Gas Futures, Contracts and Options

FMPA used commodity futures contracts and options on forward contracts to hedge the effects of fluctuations in the price of natural gas storage. The contracts are held by Florida Gas Utility (FGU) and FMPA agrees to reimburse FGU for any loss on the contracts and FGU agrees to pay FMPA for any gain on the contracts. Any gain or loss of value in these futures contracts were ultimately rolled into the price of natural gas burned in the Project's electric generators. As of September 30, 2021 FMPA has no sales contracts outstanding for gas in storage.

FMPA also uses fixed-price firm physical purchases of natural gas as a tool to establish the cost of natural gas that will be needed by the All-Requirements Project in the future. However, at September 30, 2021 the Project had no fixed price contracts in place for future purchases of natural gas.

### VII. Regulatory Operations (Net Costs Recoverable (Refundable)/Future Participant Billings)

FMPA has elected to apply the accounting methods for regulatory operations of GASB No. 62. Billing rates are established by the Board of Directors or Executive Committee and are designed to fully recover each project's costs over the life of the project, but not necessarily in the same year that costs are recognized under generally accepted accounting principles (GAAP). Instead of GAAP costs, annual participant billing rates are structured to systematically recover current debt service requirements, operating costs and certain reserves that provide a level rate structure over the life of the project which is equal to the amortization period. Accordingly, certain project costs are classified as deferred on the accompanying Statement of Net Position as a regulatory asset, titled "Net costs recoverable/future participant billings," until such time as they are recovered in future rates. Types of deferred costs include depreciation and amortization in excess of bond principal payments, and prior capital construction interest costs.

In addition, certain billings recovering costs of future periods have been recorded as a regulatory liability, titled "Net costs refundable/future participant billings", or as a reduction of deferred assets on the accompanying Statement of Net Position. Types of deferred revenues include billings for certain reserve funds and related interest earnings in excess of expenditures from those funds, and billings for nuclear fuel purchases in advance of their use.

FMPA 2021 Annual Report • 35

FC Draft 1-Page 76 of 139022

### VIII. Restricted Net Position

Bond resolutions require that certain designated amounts from bond proceeds and project revenues be deposited into designated funds. These funds are to be used for specific purposes and certain restrictions define the order in which available funds may be used. Other restrictions require minimum balances or accumulation of balances for specific purposes. At September 30, 2021, all FMPA projects were in compliance with requirements of the bond resolution.

Segregated restricted net position at September 30, 2021, are as follows:

								(000's	US	5)						
		Agency		Pooled		St. Lucie		Stanton		All-Req		Tri-City	S	tanton II		Total
		Fund	L	oan Fund		Project		Project		Project		Project		Project

Decomissioning Fund						99,514										99,514
Accrued Interest on																
Long-Term Debt		-				(1,678)		-		(18,242)		-		(1,689)		(21,609)
Accrued Decommissioning																
Expenses						(99,297)										(99,297)
							_						_			
Total Restricted Net Assets	\$	-	\$	-	\$	26,213	\$	4,664	\$	84,486	\$	2,384	\$	19,256	\$	137,003
	_				_		_		—		-		_		_	

Restrictions of the various bank funds are as follows:

- Debt service funds include the Debt Service Account, which is restricted for payment of the current portion of the bond principal and interest and the Debt Service Reserve Account, which includes sufficient funds to cover one half of the maximum annual principal and interest requirement of the specific fixed rate issues or 10% of the original bond proceeds.
- Reserve and Contingency Funds are restricted for payment of major renewals, replacements, repairs, additions, betterments, and improvements for capital assets.
- If, at any time, the Debt Service Fund is below the current debt requirement and there are not adequate funds in the General Reserve Fund to resolve the deficiency, funds will be transferred from the Reserve and Contingency Fund to the Debt Service Fund.
- Decommissioning Funds are restricted and are funded for the payment of costs related to the decommissioning, removal, and disposal of FMPA's ownership on nuclear power plants.
- Project Funds are used for the acquisition, construction, and capitalized interest, as specified by the participants.
- Revenue Funds are restricted under the terms of outstanding resolutions.

### IX. Long-Term Debt

### A. Debt

FMPA enters into Long-term debt to fund different projects. The type of Long-term debt differs among each of the projects. A description and summary of Long-term debt at September 30, 2021, is as follows:

#### 1. Agency Fund

The Agency Fund paid off all long-term debt during fiscal year ended September 30, 2019.

#### 2. Pooled Loan Fund

						2021			
					(000	)'s US\$)			
									Amounts

#### Loan Payable to First Horizon Bank

The Pooled Loan was re-established in FY 2019 under a credit facility from First Horizon Bank fka Capital Bank. The credit facility will allow FMPA to sponsor loans to FMPA members or FMPA projects up to a maximum of \$25 million. In September 2019 the City of Bushnell drew \$7.9 million at 2.56% for 10 years, in June 2021 the City of Homestead drew \$8.6 million at 1.95% for 10 years and in September 2021 the City of Clewiston drew \$1.4 million at 1.77% for 10 years. Loans to member cities are conduit debt instruments. In June 2020 the Stanton II project drew \$3.9 million at 1.77% for 7.25 years.

FC Draft 1-Page 78 of 139 022

For the Year Ended September 30, 2021

## IX. Long-Term Debt (continued)

A. Debt (continued)

The rates for the 2011A bonds are 5.0%, and the rate for the 2011B bonds range from 4.375% to 5.0%. The 2012A bonds have a fixed interest rate of 5.0%, and mature in 2026. The 2013A bonds have a fixed interest rate of 2.73%, and mature in 2026.

The Series 2012 bonds are subject to redemption prior to maturity at the election of FMPA on or after October 1, 2022, at a call rate of 100%.

On September 1, The St. Lucie Series 2011B debt was refunded through the issuance of the Series 2021A Bonds at a premium and the use of other reserve funds. The 2011B refinancing resulted in a present value savings of \$2.5 million.

#### 4. Stanton Project

The Stanton Project paid off all long-term debt during the fiscal year ended September 30, 2020.

#### 5. All-Requirements Project

Portions of the Series 2015B, 2016A, 2017B and 2019A bonds are subject to redemption prior to maturity at the election of FMPA at a call rate of 100%. The Series 2017A bonds are not subject to redemption prior to maturity.

FMPA 2021 Annual Report • 38

FC Draft 1-Page 2 of 12022

## IX. Long-Term Debt (continued)

A. Debt (continued)

#### KUA – TARP Capital Lease Obligation

Effective October 1, 2008, the Capacity and Energy Sales Contract with KUA was revised and on July 1, 2019 was amended to provide additional payments with a present value of \$10.7 million. Under the revised and amended contract, KUA receives agreed upon-fixed payments over preset periods.

Payments remaining under the agreement at September 30, 2021, amount to \$103.5 million and the present value of these payments is \$88.5 million. The capital assets at September 30, 2021 include Facilities and Equipment of \$228.8 million less Accumulated Depreciation of \$173.0 million resulting in a net book value of \$55.8 million.

#### Keys - TARP Capital Lease Obligation

Effective January 1, 2011, the Capacity and Energy Sales Contract with Keys Energy Services was revised. Under the contract, Keys Energy Services received agreed-upon fixed payments over a preset period relating to each of their generating units. FMPA assumed all cost liability and operational management of the generating units. FMPA is accounting for this transaction as a capital lease. Total final payment under the agreement was made in December 2019. The capital assets at September 30, 2021 include Facilities and Equipment of \$4.8 million less Accumulated Depreciation of \$4.8 million resulting in a net book value of \$-0-.

#### St. Lucie County

As a condition of obtaining its conditional use permit for the construction and operation of the Treasure Coast Energy Center, the All-Requirements project agreed to pay St. Lucie County, Florida \$75,000 a year for a period of 20 years. Upon commercial operation of the plant, the unpaid amounts were discounted at a rate of 5.3% and capitalized to plant. At September 30, 2021, four payments remain under this obligation with the final payment to be made September 30, 2025.

#### Issuance of the 2021A and 2021B All-Requirements Project Bonds

On April 27, 2021, the All-Requirements project issued the 2021A and 2021B bonds with a face amount of \$137.2 million at a premium and will use the \$140 million for project capital expenditures or other Executive Committee authorized expenses and to pay closing costs

#### Line of Credit

The All-Requirements Project had two lines of credit - one from JPMorgan Chase in the amount of \$75 million, and one from Wells Fargo Bank in the amount of \$25 million. These lines of credit were terminated after the issuance of the 2021B bonds.

#### 6. Tri-City Project

The Tri-City Project paid off all long-term debt during the fiscal year ended September 30, 2020.

Pooled Loan	3,921		(423)	3,498	512
Total Principal	\$ 111,735	\$ -	\$ (10,995)	\$ 100,740	\$ 11,449
Deferred Premiums And Discounts Total Bonds and Loans	3,055 \$ 114,790	<u>\$</u>	(782)	2,273 \$ 103,013	\$ 11,449
Unamortized loss on advanced refunding	\$ (7,866)	<u> </u>	<u>\$ 1,737</u>	\$ (6,129)	<u>\$ -</u>

The 2012A, 2017A and 2017B revenue bonds are fixed, and have a maturity date of 2027. The rates for the bonds range from 3.0% to 5.0%. The pooled loan has a fixed rate of 1.77% and a final maturity of 2027.

The Series 2012A bonds are subject to redemption prior to maturity at the election of FMPA at 100%, beginning October 1, 2022. The Series 2017A and 2017B subject to redemption in whole or part prior to maturity at the call rate of 100% and Cost of Prepayment.

### B. Major Debt Provisions (All Projects)

Principal and accrued interest payments on bonds may be accelerated on certain events of default. Events of default include failure to pay scheduled principal or interest payments and certain events of bankruptcy or insolvency of FMPA. Bond holders must give written notice of default and FMPA has 90 days to cure the default. The acceleration requires approval of holders of at least 25% of the principal amount of the outstanding bonds.

Bonds, which are special obligations of FMPA, are payable solely from (1) revenues less operating expenses (both as defined by the respective bond resolutions) and (2) other monies and securities pledged for payment thereof by the respective bond resolutions. The respective resolutions require FMPA to deposit into special funds all proceeds of bonds issued and all revenues generated as a result of the projects' respective Power Sales and Power Support Contracts or the Power Supply Contract. The purpose of the individual funds is also specifically defined in the respective bond resolutions.

Investments are generally restricted to those types described in Note I. Additional restrictions that apply to maturity dates are defined in the respective bond resolutions and FMPA's investment policy.

FMPA 2021 Annual Report • 41

FC Draft 1-Page 22 of 139022

# X. Commitments and Contingencies

### A. Participation Agreements

FMPA has entered into participation agreements, and acquired through capital leases, individual ownership of generating facilities as follows:

Project	Operating Utility	Joint Ownership Interest	Commercial Operation Date
St. Lucie	Florida Power & Light	8.806% of St. Lucie Unit 2 nuclear plant	August 1983
Stanton*	Orlando Utilities Commission (OUC)	14.8193% of Stanton Energy Center (SEC) Unit 1 coal-fired plant	July 1987
All-Requirements*	OUC	11.3253% of SEC Unit 1	July 1987
Tri-City*	OUC	5.3012% of SEC Unit 1	July 1987
All-Requirements	OUC	51.2% of Indian River Units A & B combustion turbines	A - June 1989 B - July 1989
All-Requirements	OUC	21% of Indian River Units C & D combustion turbines	C - August 1992 D - October 1992
All-Requirements	OUC	5.1724% of SEC Unit 2 coal- fired plant	June 1996
Stanton II	OUC	23.2367% of SEC Unit 2	June 1996
All-Requirements	Stanton Clean Energy LLC	7% of Stanton Unit A combined cycle	October 2003

\*OUC has the contractual right to unilaterally make any retirement decision for SEC Unit 1 beginning in 2017

Operational control of the electric generation plants rests with the operating utility and includes the authority to enter into long-term purchase obligations with suppliers. FMPA is liable under its participation agreements for its ownership interest of total construction and operating costs. Further contracts with Orlando Utilities Commission (OUC) include commitments for purchases of coal. According to information provided by OUC, such existing commitments are currently scheduled to terminate on December 31, 2026. Through participation with OUC, FMPA's estimated cost share of the existing purchases by project for the next five fiscal years is summarized below.

	000's US\$								
Project		2022		2023		2024		2025	2026
Stanton Project	\$	4,364	\$	3,390	\$	3,390	\$	3,450	\$ 545
All-Requirements Project		10,178		7,907		7,907		8,047	1,272
Tri-City Project		1,561		1,213		1,213		1,234	195

FC Draft 1-Page 23 of 12022

## X. Commitments and Contingencies (continued)

#### B. Public Gas Partners, Inc.

Public Gas Partners, Inc. (PGP) is a nonprofit corporation of the State of Georgia, duly created and existing under the Georgia Nonprofit Corporation Code, O.C.G.A Sections 14-3-101 through 14-3-1703, as amended. Pursuant to its Articles of Incorporation and by-laws, PGP's purpose is to acquire and manage reliable and economical natural gas supplies through the acquisition of interests in natural gas producing properties and other long-term sources of natural gas supplies for the benefit of participating joint action agencies and large public natural gas and power systems.

On November 16, 2004, FMPA signed an agreement with six other public gas and electric utilities in five different states to form PGP. The initial members of PGP, along with FMPA, included Municipal Gas Authority of Georgia, Florida Gas Utility, Lower Alabama Gas District, Patriots Energy Group, Southeast Alabama Gas District and Tennessee Energy Acquisition Corporation. Florida Gas Utility has left the organization, and their interest was acquired by all members, except for FMPA and the Tennessee Energy Acquisition Corporation, as of May 2008. Lower Alabama Gas District has assigned its interest in each Pool to the Gas Authority effective October 2013.

FMPA has entered into two separate Production Sharing Agreements (PSAs) that obligate FMPA to pay as a component of gas operations expense its share of all costs incurred by the related PGP Pool until all related PGP or participant debt has been paid and the last volumes have been delivered. In addition, PGP has the option, with at least six month notice, to require FMPA to prepay for its share of pool costs, which may be financed by FMPA through the issuance of bonds or some other form of long-term financing. The PSAs include a step-up provision that could obligate FMPA to increase its participation share in the pool by up to 25% in the event of default by another member.

On November 1, 2004, FMPA entered into a PSA as a 22.04% participant of PGP Gas Supply Pool No. 1 (PGP Pool #1). PGP Pool #1 was formed by all of the participants. PGP Pool #1 had targeted an initial supply portfolio capable of producing 68,000 MMBtu per day of natural gas or 493 Bcf over a 20-year period. The acquisition period for PGP Pool #1 has closed after acquiring a supply currently estimated to be 140 Bcf.

On October 1, 2005, FMPA entered into a PSA as a 25.90% participant of PGP Gas Supply Pool No. 2 (PGP Pool #2). PGP Pool #2 was formed to participate in specific transactions that have different acquisition criteria than PGP Pool #1. PGP Pool #2 had a total expenditure limit of \$200 million, with FMPA's share being \$52 million as authorized by the Board (before step-up provisions which would increase ARP's commitment to a maximum of \$65 million). The other members of PGP Pool #2, along with FMPA, include Municipal Gas Authority of Georgia, Patriots Energy Group, Southeast Alabama Gas District and Tennessee Energy Acquisition Corporation. FMPA entered into a separate agreement with Fort Pierce Utilities Authority whereby FMPA agreed to sell to FPUA 3.474903% of the benefits that FMPA receives from its participation in PGP Pool #2. The acquisition period for PGP Pool #2 has closed after acquiring a supply currently estimated to be 42 Bcf.

FMPA's share of the total investment costs amounts to approximately \$103 million for PGP Pool #1, and \$29 million for PGP Pool #2 as of September 30, 2021. During FYE 2020 year, the operating committees for Pool #1 and Pool #2 made the decision to sell the Pool 1 and 2 portfolios and close the Pools, an activity that is still in progress. Accordingly, the project was written down to zero as of September 30, 2021. Any future net revenue from the Pools will be shown as an offset or addition to fuel expense.

FMPA 2021 Annual Report • 43

FC Draft 1-Page 24 of 130022

For the Year Ended September 30, 2021

## X. Commitments and Contingencies (continued)

#### C. Contractual Service Agreements

The All-Requirements Project has signed, or accepted assignment of, Contractual Service Agreements (CSAs) with General Electric International, Inc. (GE) for the Treasure Coast Energy Center, Cane Island 3 and Cane Island 4 combustion turbines, steam turbines and generators. The CSAs cover specified monitoring and maintenance activities to be performed by GE over the contract term, which is the earlier of a specified contract end date, or a performance end date based on reaching certain operating milestones of either Factor Fired Hours or Factored Starts on the combustion turbines. GE or FMPA may terminate the agreements for the breach of the other party. The defaulting party pays the termination amount based on the performance metric specified in the contract.

On March 31, 2016 Cane Island Unit 2 CSA was transitioned to a Managed Maintenance Program (MMP). The MMP does not have a factored starts or hours based payment, and maintenance is paid for at the time it's incurred at pre-negotiated discounts.

	Treasure Coast	Cane Island Unit 2	Cane Island Unit 3	Cane Island Unit 4
Original Effective Date	1/30/2007	3/31/2016	12/12/2003	12/22/2010
Last Amendment Effective Date	11/21/2017		11/21/2017	11/21/2017
Cumulative Factor Fired Hours	107,331	99,292	136,627	78,116
Estimated Hours at Performance End Date	148,000		202,000	146,000
Current Termination Amount (000's USD)	\$1,477		\$2,381	\$2,657
Specified Contract End Date	11/21/2037	12/31/2019	11/21/2037	11/21/2037
Estimated Performance End Date	FYE 2026		FYE 2030	FYE 2029

The following is a summary of the contract status.

In November 2017, FMPA and General Electric negotiated a revised CSA to combine Cane Island Units 3 & 4 and Treasure Coast under one service agreement.

### D. Other Agreements

FMPA has entered into certain long-term contracts for transmission services for its projects. These amounts are recoverable from participants in the projects (except the All-Requirements Project) through the Power Sales and Project Support Contracts. FMPA has entered into Power Sales and Project Support Contracts for entitlement shares aggregating 100% of FMPA's joint ownership interest. In the case of the All-Requirements Project, a Power Supply Contract was entered into providing for the participant's total power requirements (except for certain excluded resources). Revenues received under these individual project contracts are expected to be sufficient to pay all of the related project costs.

FMPA 2021 Annual Report • 44

FC Draft 1-Page 25 of 139022

## X. Commitments and Contingencies (continued)

- D. Other Agreements (continued)
  - 1. St. Lucie Project (continued)
    - FMPA has entered into a Reliability Exchange Agreement and a Replacement Power Agreement with FPL. The Reliability Exchange agreement results in FMPA exchanging 50% of its share of the output from St. Lucie Unit 2 for a like amount from the St. Lucie Unit 1. This agreement's original expiration was on October 1, 2017. The Parties mutually agreed to extend the expiration date to October 1, 2022. The Replacement Power Agreement provides for replacement power and energy to be made available to FMPA if FPL voluntarily ceases to operate or reduces output from St. Lucie Unit 2 or St. Lucie Unit 1 for economic reasons or valley-load conditions, until each unit is retired from service or, in the case of St. Lucie Unit 1, if the Reliability Exchange Agreement terminates prior to the retirement date of that unit. Either party may terminate the agreement with 60 days written notice.
    - The St. Lucie Project, a joint owner of St. Lucie Unit 2, is subject to the Price-Anderson Act, which limits the liability of nuclear reactor owners to the amount of insurance available from both private sources and an industry retrospective payment plan. In accordance with this Act, FPL maintains \$450 million of private liability insurance for the St. Lucie Plant, which is the maximum obtainable, and participates in a secondary financial protection system, which provides up to \$12.6 billion of liability insurance coverage per incident at any nuclear reactor in the U.S. Under the secondary financial protection system, St. Lucie Unit 2 is subject to retrospective assessments of up to approximately \$127.3 million, plus any applicable taxes, per incident at any nuclear reactor in the U.S., payable at a rate not to exceed approximately \$19.0 million per incident per year. FMPA is contractually liable for its ownership interest of any assessment made against St. Lucie Unit 2 under this plan.
    - FPL further participates in a nuclear insurance mutual company that provides \$2.75 billion of limited insurance coverage per occurrence per site for property damage, decontamination, and premature decommissioning risks at the St. Lucie plant and a sublimit of \$1.5 billion for non-nuclear perils. The proceeds from such insurance, however, must first be used for reactor stabilization and site decontamination before they can be used for plant repair. FPL also participates in an insurance program that provides limited coverage for replacement power costs if St. Lucie Unit 2 is out of service for an extended period of time because of an accident. In the event of an accident at one of FPL's or another participating insured's nuclear plants, St. Lucie Unit 2 could be assessed up to approximately \$27 million, plus any applicable taxes, in retrospective premiums in a policy year. FPL is contractually entitled to recover FMPA's ownership share of any such assessment made against St. Lucie 2.
    - On December 16, 1999, FMPA and J.P. Morgan Chase (formerly Chase Manhattan Bank) entered into a Forward Delivery Agreement for a portion of the St. Lucie Decommissioning Trust. The agreement provides that J.P. Morgan Chase deliver securities initially with a value not to be less than \$10,225,000 for an equivalent payment. Upon maturity, the securities and the yield earned along with any cash delivered by J.P. Morgan Chase will be equivalent to 7.03% of the face value of the Agreement.

FMPA 2021 Annual Report • 45

FC Draft 1-Page 86 of 139022

For the Year Ended September 30, 2021

### X. Commitments and Contingencies (continued)

#### D. Other Agreements (continued)

#### 2. All-Requirements Project

• FMPA supplies all of the wholesale power needs, unless limited to a contract rate of delivery, of the All-Requirements Project participants (except for certain excluded resources). In addition to its ownership facilities, FMPA has entered into interchange and power purchase contracts with minimum future payments as detailed below.

End of Contract	N	Ainimum Contract Liability (000's US\$)
9/30/2023	\$	17,994
12/16/2027	\$	72,174
		End of Contract 9/30/2023 \$

- In October 2003, FMPA executed contracts for a \$10 million investment in a brine water processing plant and other water facilities at the Stanton Energy Center in Orlando, Florida.
- The Stanton Unit A combined cycle generator receives cooling water treatment services from the brine plant and associated facilities. The owners of Stanton Unit A (Stanton Clean Energy LLC (formerly Southern Company Florida), FMPA, KUA and Orlando Utilities Commission) pay the owners of Stanton Energy Center Units 1 and 2 (including FMPA's Stanton, Stanton II, Tri-City and All-Requirements Projects) a fixed and a variable operation and maintenance charge for services received from this facility.
- The All-Requirements Project has several commitments/entitlements for natural gas transportation services to supply fuel to its owned and leased generation facilities. Below were the current commitments/entitlements during the past year.

<b>D</b> '	Ave Daily Volume	Annual Cost	E	Primary Delivery/Receiving

		\$ 27,913		

• The All-Requirements Project has entered into a storage contract with SG Resources Mississippi LLC, for 1 million MMBtu of storage capacity in the Southern Pines Storage facility. The contract was effective August 1, 2008, for storage capacity of 500,000 MMBtu and revised April 1, 2011, to increase the storage capacity by 500,000 MMBtu. The contract expired July 31, 2020, for 500,000 MMBtu and expired March 31, 2021, for the remaining 500,000 MMBtu. In March 2021 the Project contracted for 125,000 MMBtu of storage for three years from April 2021 to March 2024.

FMPA 2021 Annual Report • 46

FC Draft 1-Page 87 of 12022

For the Year Ended September 30, 2021

### X. Commitments and Contingencies (continued)

D. Other Agreements (continued)

#### 2. All Requirements (continued)

- The All-Requirements Project is under a contractual arrangement to have generation facilities in Key West, Florida, at a minimum level of 60% of the island utility's weather normalized annual peak capacity requirements. With installed capacity of 112 MW located in the Key West service territory, the All-Requirements Project believes it has sufficient existing generating capacity to fulfill the 60% on-island generation requirement well beyond the next decade.
- FMPA has entered into the Florida Municipal Power Pool (FMPP) Agreement, as amended, with the FMPP members. Pursuant to Amendment 7 the most recent Amendment, executed November of 2020 the term of the agreement is three years, with automatically-renewed three-year term extensions. Any party wishing to withdraw from the agreement must provide at least three years notice to the other FMPP members. The FMPP Agreement documents, among other things, how FMPP operating costs are accounted for and allocated among the members, and liability between the FMPP members.
- In 2020 Florida Gas Utilities (FGU), on behalf of the All-Requirements Project (ARP), entered into thirty-year natural gas supply agreements with the Black Belt Energy Gas District (Black Belt Energy) and the Municipal Gas Authority of Georgia (MGAG) for the purchase of specified amounts of natural gas at discounted prices that FGU expects to supply to the ARP. The ARP's weighted average discount from the transactions involving MGAG is \$0.32 per MMBtu on 13,250 MMBtu per Day. The ARP's weighted average discount from the transactions involving Black Belt Energy is \$0.32 per MMBtu on 10,000 MMBtu per day.
- The All-Requirements Project has signed contracts with Fort Pierce Utilities Authority (FPUA), Kissimmee Utility Authority (KUA) and Keys Energy Services (KES) to operate and maintain Treasure Coast Energy Center, Cane Island Power Park and Stock Island generation facilities, respectively. The contracts provide for reimbursement of direct and indirect costs incurred by FPUA, KUA and KES, for operating the plants. The All-Requirements Project, in consultation with FPUA, KUA and KES, sets staffing levels, operating and capital budgets, and operating parameters for the plants.
- The City of Vero Beach sold their system to Florida Power and Light and for a payment of \$105.4 million the All-Requirements Project assumed Vero Beach's Power Project Entitlement Shares and has transferred remaining liability for 32.521%, 16.489% and 15.202% of Vero's participant entitlement shares of the Stanton, Stanton II and St. Lucie Projects, respectively.
- The City of Starke has given FMPA notice pursuant to Section 2 of the All-Requirements Power Supply Project Contract that the term of their contracts will stop automatically renewing each year. The term of their contract is now fixed and terminates on September 30, 2035.

FMPA 2021 Annual Report • 47

FC Draft 1-Page 88 of 139022

For the Year Ended September 30, 2021

### X. Commitments and Contingencies (continued)

D. Other Agreements (continued)

- 2. All Requirements (continued)
  - The City of Lake Worth has limited its All-Requirements Service to a contract rate of delivery (CROD), as permitted in Section 3 of the All-Requirements Power Supply Contract. The limitation commenced January 1, 2014. The amount of capacity and energy the City is obligated to purchase under this conversion of their contract was determined to be zero in December 2013. Additionally, effective January 1, 2014, the Capacity and Energy Sales Contract between the City and FMPA terminated.
  - The City of Fort Meade has limited its All-Requirements Service to a (CROD), as permitted in Section 3 of the All-Requirements Power Supply Contract. The limitation commenced January 1, 2015. Based on the city's usage between December 2013 and November 2014, and Executive Committee action in December 2014, the maximum hourly obligation was established at 10.360 MW. Concurrently with its notice of limitation, the City gave FMPA notice pursuant to Section 2 of the All-Requirements Power Supply Contract that the term of its contract will stop renewing automatically each year. The term of the City's contract is now fixed and will terminate on October 1, 2041. In March 2021, FMPA and Fort Meade entered into a Supplemental Power and Ancillary Services Agreement (Fort Meade Supplemental Agreement). Effective September 1, 2020, the ARP now serves Fort Meade with any additional power needed to serve its total requirements above its St. Lucie Project entitlement and CROD.

The ARP also provides Fort Meade with transmission and ancillary services as if CROD had not been implemented. The effect of this arrangement is that Fort Meade is served and billed as if it was a full-requirements ARP Participant. The initial term of the Fort Meade Supplemental Agreement runs through September 30, 2027 and includes 5-year automatic renewals until the termination of Fort Meade's ARP contract. Concurrent with the approval of the Fort Meade Supplemental Agreement, the Executive Committee approved a reduction of Fort Meade's CROD amount from 10.360 MW to 9.009 MW. If the Fort Meade Supplemental Agreement is terminated prior to the termination of Fort Meade's ARP contract, Fort Meade will be served at the lower CROD amount.

- Green Cove Springs notified FMPA of its election to limit its All-Requirements Service, as permitted in Section 3 of the Power Supply Contract, to a CROD. Beginning January 1, 2021 and continuing for the term of the Power Supply Contract, the All-Requirements Power Supply Project will serve Green Cove Springs with a maximum hourly obligation which was calculated in December 2020 as 23.608 MW. Green Cove Springs has also given FMPA notice pursuant to Section 2 of the Power Supply Contract that the term of its contract will not automatically renew each year and the term of Green Cove Springs' contract is now fixed and will terminate on October 1, 2037. In 2020, Green Cove Springs approved a supplemental power sales agreement with the All-Requirements Power Supply Project, for a minimum of 10 years, such that the All-Requirements Power Supply Project will provide capacity and energy to Green Cove Springs as if Green Cove Springs had not effectuated CROD. The agreement may be extended beyond the initial 10-year term.
- The All-Requirements Project has entered into power sales agreement with the following cities with the indicated capacity and time periods indicated:

City of Bartow, full power supply requirements of approximately 65 MWs from 2021 through 2022.

City of Winter Park, partial requirements of about 70MW from 2020 through 2027.

City of Homestead, partial requirements of 15MW from 2020 through 2026.

City of Williston, full power supply requirements of 8MW from 2021 through 2026.

Other short-term sales for which the Project does not receive a capacity payment.

• During 2008, the All-Requirements Project entered into a Revised, Amended and Restated Capacity and Energy Sales Contract for KUA whereby the All-Requirements Project has assumed all cost liability and operational management of all KUA-owned generation assets and will pay to KUA agreed-upon fixed payments over preset periods

FMPA 2021 Annual Report • 48

FC Draft 1-Page 89 of 139022

For the Year Ended September 30, 2021

### X. Commitments and Contingencies (continued)

D. Other Agreements (continued)

- 2. All Requirements (continued)
  - relating to each asset. On July 1, 2019 the agreement was amended to extend payments on the assets due to anticipated extension of the operating life of the assets.
  - Effective January 1, 2011, the All-Requirements Project entered into a Revised, Amended and Restated Capacity and Energy Sales Contract for Key West whereby the All-Requirements Project has assumed all cost liability and operational management of all Key West owned generation assets and will pay to Key West fixed annual payments of \$670,000 each January 1 from 2011 through 2021. The revised, amended, and restated contract provides the All-Requirements Project the right to retire Keys generation assets at any time during the term of the contract, subject to the 60% on-island capacity requirement, without shortening the fixed payment term.
  - In the normal course of its business, FMPA has had claims or assertions made against it. In the opinion of management, the ultimate disposition of these currently asserted claims is either not substantiated or will not have a material impact on FMPA's financial statements.

#### E. Solar Project

In March 2019, the FMPA Board of Directors approved the formation of the Solar Project, as a sixth FMPA power supply project, and for which FMPA approved a 20-year power purchase agreement for 57 MW-AC of solar energy on behalf of its participants as of the solar facilities' commercial operation date, which is expected to be in Summer of 2023. Also, in March 2020, the FMPA Executive Committee approved a 20-year power purchase agreement (among other enabling agreements) for a total of 58 MW-AC of solar energy as an ARP resource. In coordination with these new endeavors, the Board of Directors has authorized the creation of a Solar Project Committee, which will be advisory to the Board of Directors on matters involving the Solar Project, and the Executive Committee has authorized the creation of an ARP Solar Project Advisory Committee, which is an Executive Committee subcommittee that will address matters involving ARP participants who have committed to pay for the costs of the ARP solar power purchase. Commercial operations began late June 2020 for the All-Requirements Project first solar facility.

#### F. Stock Island Environmental Remediation

In early September 2021, personnel at the Stock Island Generating Facility (the "Plant) noted an oil sheen in Safe Harbor adjacent to the Plant. Testing of the sheen by the US Coast Guard indicated the substance was diesel fuel that matched diesel fuel that is stored at the Plant. We are currently actively engaged in a substantial effort to stop the release of diesel fuel to Safe Harbor and the ground, determine the source of the diesel fuel, and remediate the impacts of the diesel fuel that has been released. Our current estimate is that the remediation will cost \$3.5 million and we have included this accrued expense in the September 30, 2021 financial statements.

### XI. Mutual Aid Agreement

The All-Requirements Project has agreed to participate in a mutual aid agreement with six other utilities for extended generator outages of defined base-load generating units. The parties of this agreement are the city of Tallahassee, Gainesville Regional Utilities, JEA, Lakeland Electric, Orlando Utilities Commission, and Municipal Electric Authority of Georgia. The All-Requirements Project has designated 120 MWs of Cane Island Unit 3, 140 MWs of Cane Island 4, and 200 MWs of the Treasure Coast Energy Center, 60 MW of Stanton Unit 1, and 60 MW of Stanton Unit 2. In the case of a qualifying failure, the All-Requirements Project will have the option to receive either 50% or 100% of the replacement of the designated MWs of the failed unit. The cost of replacement energy will be based on an identified gas index or coal index and heat rate in the agreement. In the event of any extended outage from any other participant, the All-Requirements Project would provide between 10 MWs and 53 MWs (based on the designation of the participant) for a maximum of nine months. The agreement term automatically renewed on October 1, 2017, and now has a term lasting until October 1, 2022, unless FMPA (1) has not received energy under the agreement during the current term, and (2) provides at least 90 days' notice prior to the end of the current term that it does not elect to renew it participation.

FMPA 2021 Annual Report • 49

FC Draft 1-Page 20 of 12022

### XII. Employment Benefits

#### A. Retirement Benefits

A Deferred Compensation Plan (in accordance with the Internal Revenue Code Section 457) and a Defined Contribution (money purchase) Plan (under the Internal Revenue Code Section 401(a)) are offered to the Agency's employees who are scheduled to work more than 1700 hours per year. The plan was established by the Board of Director's in 1984 and the Board of Directors has the authority to amend the plan. FMPA's contribution is 10% of the employee's gross base salary for the 401(a) plan. Total payroll for the year ended September 30, 2021, was \$8.3 million, which approximates covered payroll. The 401(a) defined contribution plan has 71 active members with a plan balance.

The Agency's contribution may be made to either plan at the discretion of the employee. Additionally, an employee generally may contribute to the Deferred Compensation Plan, so that the combined annual contribution does not exceed the IRS annual maximum. Assets of both plans are held by Mission Square Retirement, formerly ICMA Retirement Corporation, the Plan Administrator and Trustee.

Agency contributions to the Defined Contribution Plan resulted in expenses for the fiscal year 2021 of \$843,695. Funds from these plans are not available to employees until termination or retirement, however funds from either plan can be made available, allowing an employee to borrow up to the lower of \$50,000 or one half of their balance in the form of a loan.

### B. Post-Employment Benefits other than Retirement

The Agency's Retiree Health Care Plan (Plan) is a single-employer defined benefit post-employment health care plan that covers eligible retired employees of the Agency. The Plan, which is administered by the Agency, allows employees who retire and meet retirement eligibility requirements to continue medical insurance coverage as a participant in the Agency's plan. As of September 30, 2020 and 2021, the plan membership consisted of the following participants:

	September 30, 2020	September 30, 2021
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	16	16
Inactive Plan Members Entitled to But Not Yet Receiving Benefits	0	0
Active Plan Members	16	16
	32	32

The Agency pays 100% of the cost of employee-only coverage for employees hired prior to October 1, 2004 who retire upon meeting the retirement eligibility requirement, which is that age combined with service must exceed 900 months. This subsidy applies to the healthcare plan premiums for Pre-65 retirees as well as any Medicare supplement plan purchased by Post-65 retirees.

The Agency also provides up to \$3,000 in HRA funds to all eligible members for life. If those members elect to cover their spouse or have handicapped dependents, the HRA benefit limit is increased to \$6,000. These funds are made available to cover retirees' out-of-pocket medical expenses, and therefore are included in the Agency's Pay-As-You-Go plan costs.

Employees hired after October 1, 2004 are ineligible for any Agency subsidies, nor are they allowed to continue to participate in the plan after retirement.

No implicit benefit was valued in this valuation.

The measurement date is September 30, 2021. The measurement period for the OPEB expense was October 1, 2020 to September 30, 2021. The reporting period is October 1, 2020 through September 30, 2021. The Sponsor's Total OPEB Liability was measured as of September 30, 2021.

The Sponsor's Total OPEB Liability for The Agency's ledger adjustment was measured as of September 30, 2021 using a discount rate of 2.43%.

FMPA 2021 Annual Report • 50

FC Draft 1-Page 21 or 12022

For the Year Ended September 30, 2021

### XII. Employment Benefits (continued)

#### A. Post-Employment Benefits other than Retirement (continued)

#### <u>Actuarial Assumptions</u>:

Total OPEB Liability for The Agency's ledger adjustment was measured as of September 30, 2021 using a discount rate of 2.43%.

The Total OPEB Liability was determined by an actuarial valuation as of September 30, 2021 (measurement date) using the following actuarial assumptions:

Inflation	2.50%
Salary Increases	2.50%
Discount Rate	2.43%
Initial Trend Rate	7.00%
Ultimate Trend Rate	4.00%
Years to Ultimate	54

For all lives, mortality rates were RP-2000 Combined Healthy Mortality Tables projected to the valuation date using Projection Scale AA.

#### Discount Rate:

Given the Agency's decision not to establish a trust for the program, all future benefit payments were discounted using a high-quality municipal bond rate of 2.43 %. The high-quality municipal bond rate was based on the week closest but not later than the measurement date of the S&P Municipal Bond 20 Year High Grade Rate Index as published by S&P Dow Jones Indices. The S&P Municipal 20 Year High Grade Rate Index consists of bonds in the S&P Municipal Bond Index with a maturity of 20 Years. Eligible bonds must be rated at least AA by Standard and Poor's Ratings Services, Aa2 by Moody's, or AA by Fitch. If there are multiple ratings, the lowest rating is used. *OPEB Expense:* 

For the year ended September 30, 2021, the Agency will recognize OPEB Revenue of \$37 thousand.

(000's US\$)	
Fiscal Year Ending	 9/30/2021
Service Cost	\$ 63
Interest	133
Recognition of Changes in Total OPEB Liability	(235)
Administrative Expenses	 2
Total OPEB Expense/(Revenue)	\$ (37)

FMPA 2021 Annual Report • 51

FC Draft 1-Page 2 or 130022

For the Year Ended September 30, 2021

### XII. Employment Benefits (continued)

#### B. Post-Employment Benefits other than Retirement (continued)

Total OPEB Liability as of the Measurement Date is:

Description	(00	0's US\$) Amount
Reporting Period Ending September 30, 2020	\$	6,273
Service Cost		63
Interest		133
Changes in Assumptions		(235)
Benefits Payments		(225)
Reporting Period Ending September 30, 2021	\$	6,009

Changes of assumptions reflect a change in the discount rate from 2.148% for the reporting period ended September 30, 2020 to 2.43% for the reporting period ended September 30, 2021. Also reflected as assumption changes are updated health care costs and premiums based on plan experience and premiums in effect for the 2021 fiscal year, and updated health care cost trend rates.

#### Sensitivity of the Total OPEB Liability to changes in the Discount Rate:

The following presents the Total OPEB Liability of the Agency, as well as what the Agency's Total OPEB Liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current discount rate:

		Current	
	1% Decrease	Discount Rate	1% Increase
	1.43%	2.43%	3.43%
Total OPEB Liability (000's US\$)	\$ 6,879	\$ 6,009	\$ 5,292

#### Sensitivity of the Total OPEB Liability to changes in the Healthcare Cost Trend Rates:

The following presents the Total OPEB Liability of the Agency, as well as what the Agency's Total OPEB Liability would be if it were calculated using healthcare cost trend rates that are one percentage-point lower or one percentage-point higher than the current healthcare cost trend rates:

		Healthcare Cost	
	1% Decrease	Trend Rates	1% Increase
	3.00% - 6.00%	4.00% - 7.00%	5.00% - 8.00%
Total OPEB Liability (000's US\$)	\$5,470	\$ 6,009	\$ 6,656

Under GASB 75 as it applies to plans that qualify for the Alternative Measurement Method, changes in the Total OPEB Liability are not permitted to be included in deferred outflows of resources or deferred inflows of resources related to OPEB. These changes will be immediately recognized through OPEB Expense.

As of September 30, 2021, the most recent valuation date, the Total OPEB Plan Liability was \$6.0 million, and assets held in trust were \$0, resulting in a funded ratio of 0 percent. The covered payroll (annual payroll of active participating employees) was \$2.1 million, and the ratio of the Total OPEB Plan Liability to the covered payroll was 295 percent.

The OPEB Plan contribution requirements of Florida Municipal Power Agency are established and may be amended through action of its Board of Directors.

FMPA 2021 Annual Report • 52

FC Draft 1-Page 03 of 129 022

For the Year Ended September 30, 2021

### XIII. Risk Management

The Agency is exposed to various risks of loss related to torts, theft, damage and destruction of assets, errors and omissions, injuries to employees and the public and damage to property of others. In addition, FMPA enters into contracts with third parties, some of whom are empowered to act as its agents in order to carry out the purpose of the contracts.

These contracts subject FMPA to varying degrees and types of risk. The Agency has purchased commercial insurance that management believes is adequate to cover these various risks. FMPA has elected to self-insure the Agency's risk for general liability. It is the opinion of general counsel that FMPA may enjoy sovereign immunity in the same manner as a municipality, as allowed by Florida Common Law. Under such Florida Law, the limit of liability for judgments by one person for tort is \$200,000 or a maximum of \$300,000 for the same incident or occurrence. At no point have settlements exceeded coverage in the past two fiscal years.

The Agency has established a Finance Committee (FC) made up of some of FMPA's Board of Directors and Executive Committee member's representatives and has assigned corporate risk management to its Treasurer and Risk Director. The Treasurer and Risk Director is designated the Agency's Risk Manager, and oversees the Risk Management Department, which reports to the Chief Financial Officer. The objective of the Agency's Enterprise Risk Management program is to identify measure, monitor and report risks in order to minimize unfavorable financial and strategic impacts.

FMPA's Risk Management Policy addresses key risk areas including, but not limited to, fuel, generation, debt, investment, insurance, credit, and contracts.

### XIV. Related Party Transactions

#### A. Governing Members and Committees

Each of the members of FMPA appoints a director and one or more alternatives to serve on FMPA's Board of Directors. Tallahassee joined the Agency effective October 19<sup>th</sup>, 2018 and Vero Beach left the Agency on December 17, 2018 leaving 31 members of the Agency. The Board has responsibility for developing and approving FMPA's non All-Requirements Project budgets, hiring of the General Manager and General Counsel and establishing the Agency's bylaws, which govern how FMPA operates and the policies which implement such bylaws. The Board also authorizes all non-All-Requirements Project debt issued by FMPA and allocates the Agency Fund burden to each of the Projects. The Board elects an Agency Chairman, Vice-Chairman, Secretary and Treasurer.

The Executive Committee consists of representatives from the 13 active members of the All-Requirements Project. The Executive Committee elects a Chairman and Vice-Chairman. The Board's Secretary and Treasurer serve in the same capacity on the Executive Committee. The Executive committee has sole responsibility for developing and approving FMPA's Agency Fund and All-Requirements Project budgets, and authorizes all debt issued by the All-Requirements Project.

In order to facilitate the project decision-making process, there are project committees for the St. Lucie, Stanton, Stanton II, and Tri-City Projects which are comprised of one representative from each participant in a project. The project committees serve in an advisory capacity, and all decisions concerning the project are decided by the Board of Directors, except for the All-Requirements Project, in which all decisions are made by the Executive Committee.

The Board of Directors has authorized the creation of a Solar Project Committee, which will be advisory to the Board of Directors on matters involving the Solar Project. The Executive Committee has authorized the creation of an ARP Solar Project Advisory Committee, which is an Executive Committee subcommittee that will address matters involving ARP participants.

### B. Florida Gas Utility (FGU)

The All-Requirements Project has a contractual agreement to purchase natural gas from Florida Gas Utility (FGU), which accounts for approximately 80-85% of FGU's total throughput of natural gas. FMPA and the following member cities have representatives on the FGU Board of Directors: Ft. Pierce, KUA, Leesburg and Starke.

#### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors and Executive Committee Florida Municipal Power Agency Orlando, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities, each major fund, and the aggregate remaining fund information of the Florida Municipal Power Agency (the Agency), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated \_\_\_\_\_\_.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the basic financial statements, we considered the Agency's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Agency's basic financial statements will not be prevented, or detected, and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Directors and Executive Committee Florida Municipal Power Agency Orlando, Florida

#### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Agency's basic financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the basic financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### **PURVIS GRAY**

#### MANAGEMENT LETTER

Board of Directors and Executive Committee Florida Municipal Power Agency Orlando, Florida

#### **Report on the Financial Statements**

We have audited the financial statements of the Florida Municipal Power Agency (the Agency), as of and for the fiscal year ended September 30, 2021, and have issued our report thereon dated \_\_\_\_\_\_.

#### Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and Chapter 10.550, *Rules of the Florida Auditor General*.

#### **Other Reporting Requirements**

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent Accountant's Report on an examination conducted in accordance with American Institute of Certified Public Accountants professional standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated \_\_\_\_\_\_, should be considered in conjunction with this Management Letter.

#### **Prior Audit Findings**

Section 10.554(1)(i)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Noted no prior year management letter recommendations.

#### **Official Title and Legal Authority**

Section 10.554(1)(i)4., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this Management Letter, unless disclosed in the notes to the financial statements. This information has been disclosed in Note I of the Agency's September 30, 2021, financial statements. There are no component units related to the Agency.

#### MANAGEMENT LETTER

#### **Financial Condition and Management**

Sections 10.554(1)(i)5.a., and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Agency has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the Agency did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b., and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures for the Agency. It is management's responsibility to monitor the Agency's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

#### **Additional Matters**

Section 10.554(1)(i)3., *Rules of the Auditor General*, requires us to communicate non-compliance with provisions of contracts or grant agreements, or abuse, that have occurred or are likely to have occurred, that have an effect on the financial statements, that is less than material, but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

#### **Purpose of this Letter**

Our Management Letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other applicable agencies, the Agency's Executive Committee, the Board of Directors, the Finance Committee, and applicable management, and is not intended to be, and should not be, used by anyone other than these specified parties.

We wish to take this opportunity to thank you and your staff for the cooperation and courtesies extended to us during the course of our audit. Please let us know if you have any questions or comments concerning this letter, our accompanying reports, or other matters.

### **PURVIS GRAY**

#### **INDEPENDENT ACCOUNTANT'S REPORT**

Board of Directors and Executive Committee Florida Municipal Power Agency Orlando, Florida

We have examined Florida Municipal Power Agency's (the Agency) compliance with Section 218.415, Florida Statutes, during the fiscal year ended September 30, 2021. The Agency's management is responsible for the Agency's compliance with those requirements. Our responsibility is to express an opinion on the Agency's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects, with the requirements referenced above. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Agency's compliance with specified requirements.

In our opinion, the Agency complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2021.

This report is intended solely for the information and use of the Florida Auditor General, the Agency's Executive Committee, the Board of Directors, the Finance Committee, and applicable management, and is not intended to be, and should not be, used by anyone other than these specified parties.

#### **AGENDA ITEM 8 – ACTION ITEMS**

b. Recommended Approval of Resolution 2022-B1 for Budget Amendment for Pooled Loan Project

## 8b – Recommended Approval of Resolution 2022-B1 for Budget Amendment for Pooled Loan Project

Finance Committee

January 19, 2022

# Budget Increase Needed for Pooled Loan Project

Similar to Budget Increase Needed in Fiscal 2021

- In fiscal 2020, pooled loan issued to Stanton II Project to refinance existing debt
- Under GASB rules, must be treated as a conduit loan for Pooled Loan Project, as both projects are part of FMPA
  - Stanton II pays Pooled Loan Project, which then pays bank
- Pooled loan principal and interest paid by Stanton II must also be captured as an expense of Pooled Loan Project
- As was done for fiscal 2021, additional \$650,000 spending authority requested to account for these costs for fiscal 2022, total revised spending authority = \$686,000
- No financial impact to project or members from this action
- Fiscal 2023 and future budgets will include these costs

 Move approval of recommendation of Resolution 2022-B1 to the Board of Directors for approval to increase the fiscal 2022 Pooled Loan Project budget spending authority by \$650,000

This Policy compliance review is conducted by the Internal Audit Department (IAD) to assess the status of risk management practices for the time period noted below. The Internal Audit Department completes this form and submits to responsible manager(s) for additional information and comment. Documentation or attestation of compliance may be required during this review. The final form is submitted to the appropriate Executive and the CEO prior to being presented to the Finance Committee (FC) as an information item.

#### Review period: <u>January 2021</u> to <u>December 2021</u> Responsible Manager(s): Rich Popp, Treasurer and Risk Director

<i>Policy Compliance:</i> Indicate whether the following items required in the Insurance Program Policy were completed during the review period.						
REQUIREMENT	YES	NO	EXPLANATION			
Deviations from Policy reported to the FC within 5 business days. (Section 2.1)	N/A		None during this period.			
Treasurer and Risk Director caused Insurance procedures to be created. (Section 3.0)	X		P:\Risk Management\General Risk Dept info\Risk Dept procedures			
Treasurer and Risk Director caused an Annual review of areas of potential exposure to be completed. (Section 4.1)	X		January 2021 presented review.			
Treasurer and Risk Director caused activities to be conducted to increase risk awareness of division and department heads. (Section 4.2)	X		Meetings between Rich Popp and managers from various departments were held during the year to assess any new areas of potential exposure. Generation outage insurance meetings.			
Systematic reviews of identified exposures were completed. (Section 4.3)	Х		See explanation above regarding annual report given.			
Contracts over \$10,000,000 reviewed by RMD to identify and reduce contract liability. (Section 4.4)	N/A		No contracts over \$10M threshold were entered during review period.			
Competitive selection of brokerage services completed no less than every 7 years. (Section 5.1)	X		Completed December 2021 for 2022 renewals, next due in 2029.			
Treasurer and Risk Director developed and implemented procedures for reporting and handling of accidents and losses. (Section 5.2)	X		FMPA submited a Notice of Possible claim with AEGIS and FM Global for fuel contaimination on Stock Island			
Treasurer and Risk Director and appropriate staff completed applicable training in risk management. (Section 5.3)	X		Attended FM Global Conference in October 2021			
Risk Manager presented annual report on insurance program to FC annually. (Section 6.0)	X		Presented at the February 2021 FC meeting			

#### FMPA Risk Management Department Policy Compliance Review Insurance Program Policy (Appendix D)

Internal Control Assessment: Evaluate the effectiveness of the current process in achieving the following control objectives. Use a scale of 1 to 4 as defined on attached page.

, ,							
OBJECTIVE	1	2	3	4	EXPLANATION		
Controls are in place to identify and assess risks related to potential exposures to loss.			х				
A complete list of insurance carriers and policies is maintained.			Х				
Insurance policies are annually reviewed for appropriate coverage and premiums.			Х				
Incidents and claims are recorded, and remedial action taken as necessary.			Х				
Documentation of decisions to self-insure or otherwise mitigate risk through non-insurance means is maintained.			X		Self-insurance levels set at provider minimum retention points.		

Are there any concerns related to insurance program risk management which should be brought to the attention of the CEO as part of this review? Yes  $\square$  No  $\bigotimes$  If yes, describe below.

Are there internal control concerns related to insurance program risk management which require immediate attention?

Yes  $\square$  No  $\boxtimes$  If yes, describe below including any change to risk inventory controls score.

Rate the overall functioning of insurance program risk management practices using a scale of 1 to 4 as defined on attached page.

1	2	3	4	EXPLANATION
		$\boxtimes$		

#### Additional comments from responsible Manager(s):

Are there any emerging risks or environmental changes which impact insurance program risk management?

Yes  $\square$  No  $\boxtimes$  If yes, describe below including any proposed changes to risk inventory.

Other comments:

Hard insurance market potentially impacting coverages and terms.
