

**MEMORANDUM**

March 10, 2022

**TO:** FMPA Members  
**FROM:** Sharon Samuels  
**SUBJECT:** Award Status - Three Phase Padmount Transformers Bid  
(ITB# 2019-001)

\*\*\*\*\*

John Carter & Associates (WEG) notified FMPA and the Participating Members of this Bid, that the impact of supply chain issues and circumstances in market due to COVID-19 has created pricing concerns for them. The unprecedented increases in the raw materials and shortage in the labor force have impaired their ability to manufacture products in accordance with their quoted lead time. This extended lead time and escalating costs has led to an inability to hold pricing firm, quarterly, as stated in the bid terms.

John Carter & Associates (WEG) has proposed changing the pricing at time of shipment to capture any costs changes that might have occurred during the manufacturing process. The Participating Members have considered the change in the bid terms and reviewed the documentation from John Carter & Associates (WEG). They have agreed to accept the change in pricing terms for the interim and will review these changes with John Carter & Associates (WEG) in 2023.

All other aspects of this bid and award remain the same.
