Oct. 25, 2022

Growing Interest in Reliability Improvement Projects

Number Has Grown From Six in Fiscal 2021 to 16 in 2022

- Bartow Phase 3 TripSavers
- Mount Dora protection coordination on two feeders
- Clewiston reduction of lateral customer count
- Keys recloser triple/single operation
- Fort Meade ENCO call center service
- Williston TripSavers
- Bartow system planning
- Blountstown SCADA and grid sensors

- Bushnell SCADA and grid sensors
- FPUA TripSaver settings changes
- NSB T&D maintenance plan
- NSB Smyrna sub transformer/feeder coordination
- Blountstown substation hotspot
- Alachua TripSavers
- Bushnell recloser training
- Bartow/Williston recloser upgrades

Proposed Goals for Fiscal 2023

Split Goals to Reflect Level of Effort

- Member reliability recommendations/projects

No Changes in Number of Members or TVPPA Cost

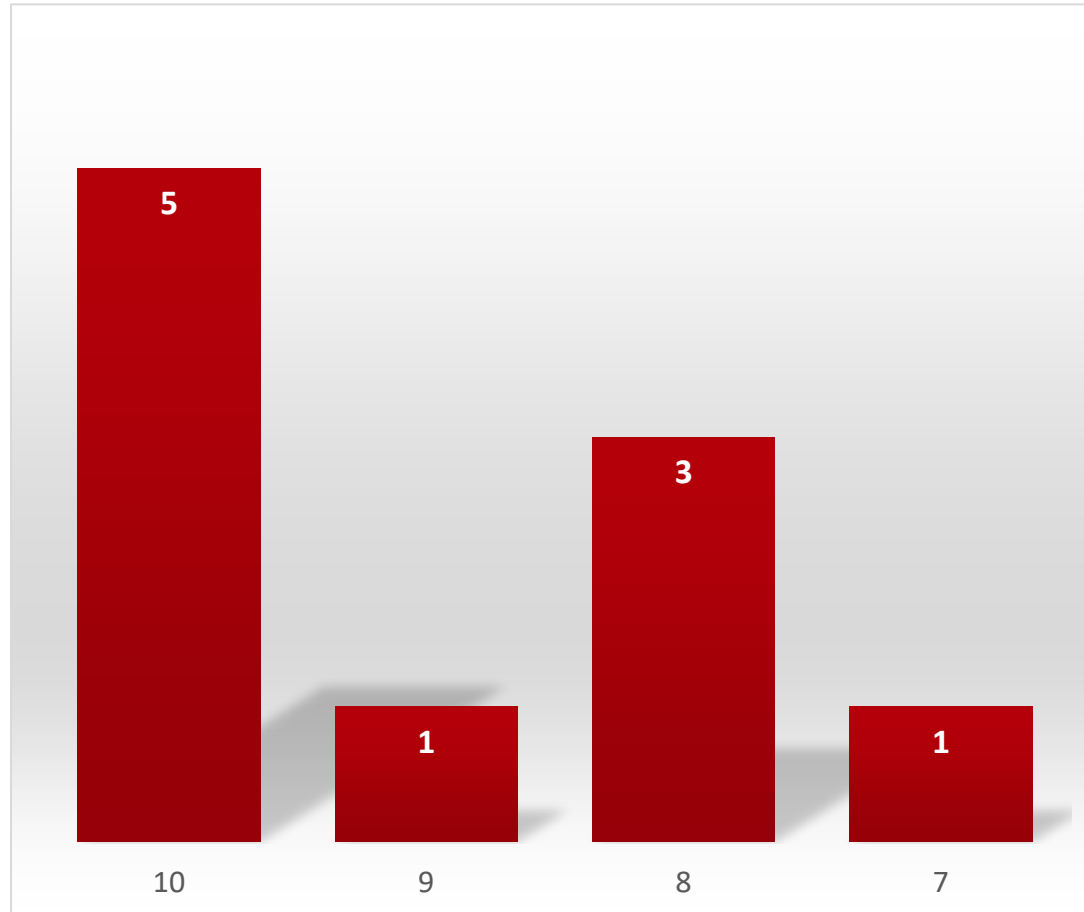

Some Members Adjusted Participant Count

Reminder
from April
2022 MSAC
meeting

- TVPPA has not changed pricing for fiscal 2023
- No new members joined program
- All current members remained in program
- Two utilities adjusted participant count
 - Resulted in zero net change for other participants

Managers' Opinion of Topics

How Satisfied are You with the Topics? (1-10) (10 respondents)

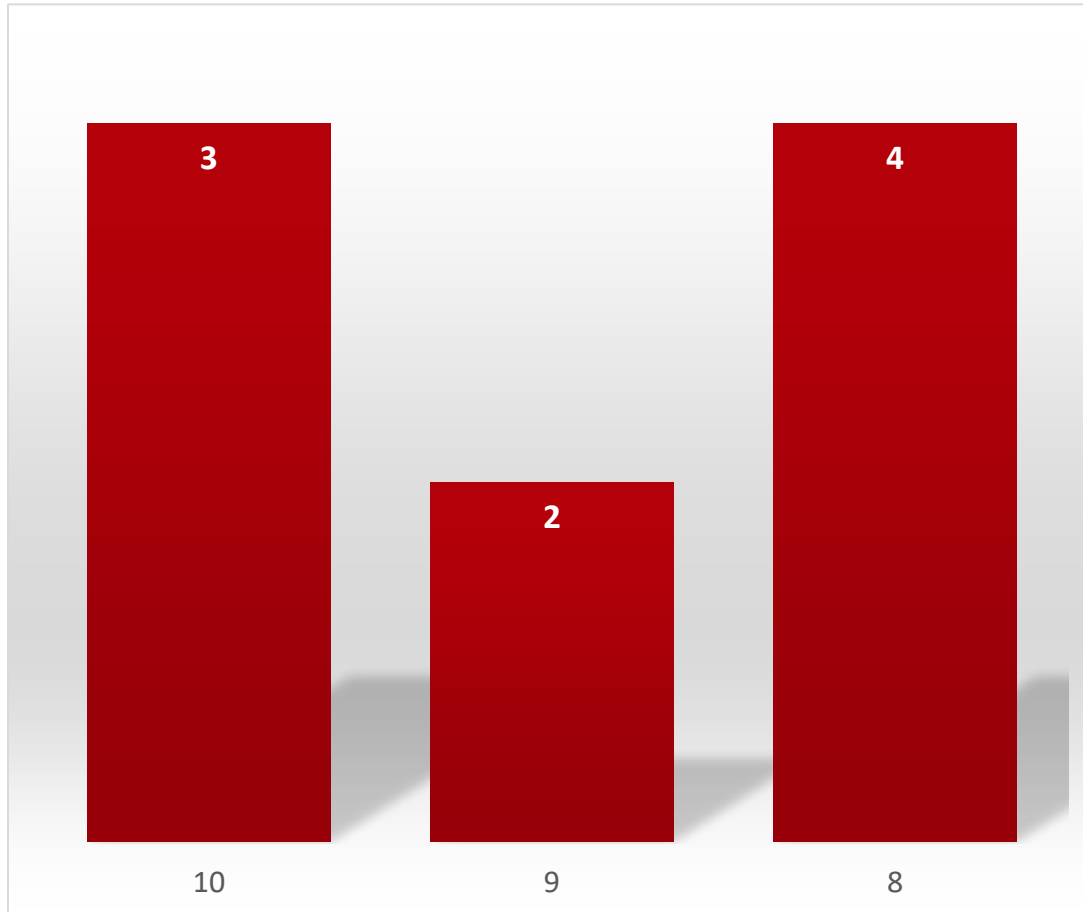

Why did you give that answer?

- Safety is priority, and the instructors have been very helpful and courteous. Really good program thanks.
- Topics are good. Don't feel like the same old topics with the rotation of trainers
- Topics are relative to both the linemen and substation employees
- Some of the instructors come in and just talk they have no PowerPoint or videos.
- * We would like to see more hands-on training by a single trainer vs PowerPoints by multiple trainers.

Managers' View of Trainers

How Satisfied are You with the Trainers? (1-10) (10 respondents)

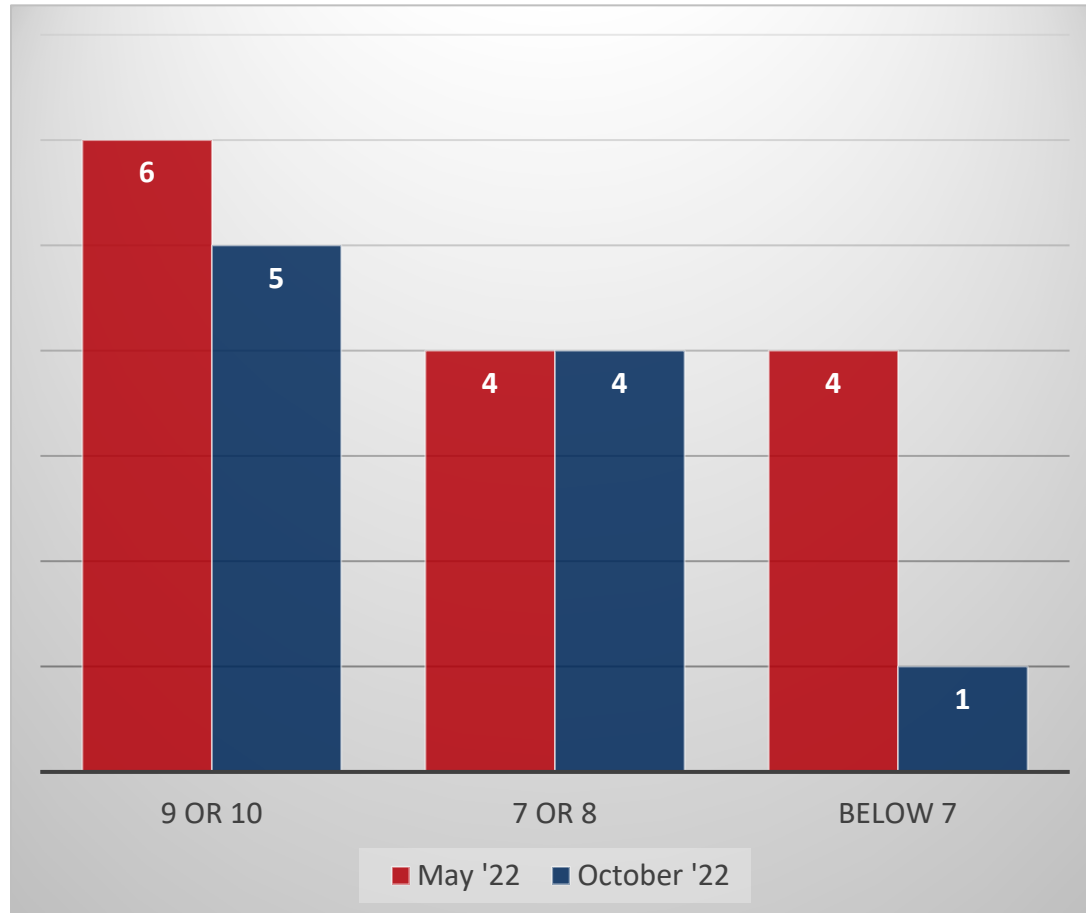

Why did you give that answer?

- All trainers bring a fresh point of view.
- Most have given an informative and relatable meeting.
- The trainers are experienced and knowledgeable. They give good examples from their past to go along with the training material.
- The trainers are experienced with knowledge in the field.

Scheduling Improved – Still Greatest Challenge

How Satisfied are You with the Scheduling? (1-10) (10 respondents)

Why did you give that answer?

- It is hard for us to get everyone in the same room together at the same time. It would help if the training were broken up into two sessions.
- Most presenters have called to confirm the schedule in advance with a follow up call the day before the meeting
- We have planned the meetings to fall on a certain day. Are schedules are tight some, instructors have come in and tried to change the schedule to make it convenient for them and not for the students.
