Procurement Lead

**MEMORANDUM**

January 3, 2024

**To:** FMPA Members  
**From:** Sharon Samuels  
**Re:** Substation & Generating Station Maintenance Services Bid - Award Extension  
ITB# 2022-034

\*\*\*\*\*

The Provision of Substation & Generating Station Maintenance Services Bid award is scheduled to expire February 29, 2024. According to the FMPA Terms & Conditions, the bid award may be extended annually by mutual consent.

The awarded bidders, ABB, Inc.; Electric Power Systems; Electrical Engineering Enterprise; Flo Power; Hitachi Energy; MP Predictive Technologies; North American Substation Services; Patterson & Dewar; Premier Power Maintenance; Southern Switches & Contacts; TAW Technical Field Services; and Utility Engineering, LLC, were contacted to determine their interest in extending the bid award for an additional year.

Hitachi Energy and TAW Technical Field Services initially responded stating they were interested in extending with a price increase. However, neither has provided the required information to move forward with the extension and cost increase. As such, Hitachi Energy and TAW Technical Field Services have been removed from the list of awarded bidders on this extension.

Premier Power Maintenance has implemented a 7% price increase in accordance with Paragraph 13 (escalation/de-escalation) of the Terms and Conditions section of the bid to account for 2024 labor increases. It was accepted by the Participating Members.

All other bidders have agreed to extend their terms and prices for an additional year. All other aspects of the bid remain the same. This award extension expires on February 28, 2025.

If you have any questions regarding this bid extension opportunity, please feel free to contact me.
