ADDENDUM NO 2

FLORIDA MUNICIPAL POWER AGENCY

Request for Proposal# 2024-202
September 9, 2024

FMPA Request for Proposals Number 2024-202, SLEC Cooling Tower Rebuild RFP, has changed to reflect the following additions, deletions, and/or modifications:

Item No. 1

Modification to RFP Document's Scope of Work

Taking into consideration the magnitude of the work and the confined space for the cooling tower rebuild RFP#**2024-202** project, FMPA understands that some firms may be at a disadvantage to complete the scope within two (2) consecutive outages.

As a result, if a vendor deems it necessary to take up to an additional two (2) consecutive outages (*for up to a maximum of four (4) outages in total; and take no more than 24 months to complete*) to complete the scope of work, FMPA is willing to relax the current proposed requirement to be complete within two (2) consecutive outages.

All other aspects of the RFP document remain the same.
